

BD Named One of America's Most Just Companies in Annual JUST 100 Ranking

January 11, 2022

JUST 100, the Only Ranking that Recognizes Companies Doing Right by All Their Stakeholders as Defined by the American Public, Acknowledges BD's Commitment to Environmental, Social and Governance Performance

FRANKLIN LAKES, N.J., Jan. 11, 2022 /PRNewswire/ -- BD (Becton, Dickinson and Company) (NYSE: BDX), a leading global medical technology company, announced today it was named to the JUST 100 list of America's most just companies by JUST Capital and its media partner CNBC.

[BD Named One of America's Most Just Companies in Annual JUST 100 Ranking](#)

The annual JUST 100 is the only comprehensive ranking that measures a company's commitment to its environmental, social and governance (ESG) policies and stakeholder performance. Through rigorous, objective analysis, the JUST 100 list evaluates and celebrates U.S. corporations that outperform on issues that matter most to its consumers, employees and to the American public. The criteria include creating jobs in the U.S., paying a fair, living wage, prioritizing accountability to all stakeholders, protecting worker health and safety, providing benefits and work-life balance, cultivating a diverse and inclusive workplace, producing sustainable products and protecting customer privacy.

"Our ESG strategy —[Together We Advance](#)—was designed to improve company health, planet health, community health and human health, all aligned with BD's purpose of *Advancing the World of Health*," said Tom Polen, chairman, CEO and president of BD. "We know that the health of our company, our planet, our communities and the people we serve are directly connected, and when we successfully address the health of one, we often solve for challenges in another. Being featured in the JUST 100 ranking recognizes the progress we are making across all of these areas."

For its annual rankings, JUST collects and analyzes corporate data to evaluate the 1,000 largest publicly traded U.S. companies across 20 stakeholder-focused issues as identified through the most comprehensive ongoing public opinion research since 2015 on Americans' attitudes toward responsible corporate behavior, engaging more than 150,000 participants.

"We've entered a new era of accountability where employees, customers and investors want to understand if companies are not just talking the talk but walking the walk to drive change on the critical issues of our time," said Martin Whittaker, CEO of JUST Capital. "The companies featured in the 2022 JUST 100 are demonstrating that purpose and profits can go hand in hand by delivering value to all stakeholders, including shareholders."

About JUST Capital

The mission of JUST Capital, an independent nonprofit, is to build an economy that works for all Americans by helping companies improve how they serve all their stakeholders – workers, customers, communities, the environment, and shareholders. We believe that business and markets can and must be a greater force for good, and that by shifting the resources of the \$19 trillion private sector, we can address systemic issues at scale, including income inequality and lack of opportunity. Guided by the priorities of the public, our research, rankings, indexes, and data-driven tools help measure and improve corporate performance in the stakeholder economy. To learn more about how data-driven insights are creating a more just future for capitalism, visit: www.JUSTCapital.com.

JUST Capital's Methodology

Since 2015, JUST Capital has surveyed more than 150,000 Americans on what Issues they believe U.S. companies should prioritize most when it comes to just business behavior. Those Issues become the foundation by which we track, analyze, and incentivize corporate behavior change, including the Rankings of America's Most JUST Companies. JUST evaluated 954 companies across 5 stakeholders, 20 Issues, and 241 raw data points to produce the 2022 Rankings, including the JUST 100 and Industry Leader lists. This selection of companies draws from the Russell 1000 Index, which represents over 90% of the U.S. stock market value. The 2021 Annual Issues Survey was conducted in association with SSRS – an objective, non-partisan research institution that provides scientifically rigorous statistical surveys – among a general population sample of 3,000 U.S.

adults.
