

UNITED STATES SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549
Form 10-K

(Mark One)

- ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the fiscal year ended September 30, 2020
- TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the transition period from _____ to _____

COMMISSION FILE NUMBER: 001-4802

BECTON, DICKINSON AND COMPANY

(Exact name of registrant as specified in its charter)

New Jersey

(State or other jurisdiction of incorporation or organization)

1 Becton Drive, Franklin Lakes, New Jersey
(Address of principal executive offices)

22-0760120

(I.R.S. Employer Identification No.)

07417-1880

(Zip code)

Registrant's telephone number, including area code **(201) 847-6800**

Securities registered pursuant to Section 12(b) of the Act:

<u>Title of Each Class</u>	<u>Trading Symbol</u>	<u>Name of Each Exchange on Which Registered</u>
Common stock, par value \$1.00	BDX	New York Stock Exchange
Depository Shares, each representing a 1/20th interest in a share of 6.00% Mandatory Convertible Preferred Stock, Series B	BDXB	New York Stock Exchange
1.000% Notes due December 15, 2022	BDX22A	New York Stock Exchange
1.900% Notes due December 15, 2026	BDX26	New York Stock Exchange
1.401% Notes due May 24, 2023	BDX23A	New York Stock Exchange
3.020% Notes due May 24, 2025	BDX25	New York Stock Exchange
0.174% Notes due June 4, 2021	BDX/21	New York Stock Exchange
0.632% Notes due June 4, 2023	BDX/23A	New York Stock Exchange
1.208% Notes due June 4, 2026	BDX/26A	New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a "large accelerated filer," an "accelerated filer," a "non-accelerated filer," "smaller reporting company," or an "emerging growth company."

Large accelerated filer Accelerated filer Non-accelerated filer

Smaller reporting company Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

As of March 31, 2020, the aggregate market value of the registrant's outstanding common stock held by non-affiliates of the registrant was approximately \$ 62,360,106,701.

As of October 31, 2020, 290,031,363 shares of the registrant's common stock were outstanding.

Documents Incorporated by Reference Portions of the registrant's Proxy Statement for the Annual Meeting of Shareholders to be held January 26, 2021 are incorporated by reference into Part III hereof.

PART I

Item 1. Business.

General

Becton, Dickinson and Company (also referred to herein as "BD") was incorporated under the laws of the State of New Jersey in November 1906, as successor to a New York business started in 1897. BD's executive offices are located at 1 Becton Drive, Franklin Lakes, New Jersey 07417-1880, and its telephone number is (201) 847-6800. All references in this Form 10-K to "BD", "the Company", "we", "our" or "us" refer to Becton, Dickinson and Company and its domestic and foreign subsidiaries, unless otherwise indicated by the context.

BD is a global medical technology company engaged in the development, manufacture and sale of a broad range of medical supplies, devices, laboratory equipment and diagnostic products used by healthcare institutions, physicians, life science researchers, clinical laboratories, the pharmaceutical industry and the general public. We provide customer solutions that are focused on improving medication management and patient safety; supporting infection prevention practices; equipping surgical and interventional procedures; improving drug delivery; aiding anesthesiology care; enhancing the diagnosis of infectious diseases and cancers; advancing cellular research and applications; and supporting the management of diabetes.

Business Segments

BD's operations consist of three worldwide business segments: BD Medical, BD Life Sciences and BD Interventional. As is further described below, BD completed its acquisition of C.R. Bard, Inc. ("Bard") on December 29, 2017, and BD Interventional includes the majority of Bard's product offerings, along with certain product offerings formerly within BD Medical. Additionally, certain of Bard's product offerings are included within BD Medical as part of the Medication Delivery Solutions unit. Information with respect to BD's business segments and the Bard acquisition is included in Note 7 and Note 10, respectively, to the consolidated financial statements contained in Item 8. Financial Statements and Supplementary Data, and is incorporated herein by reference.

BD Medical

BD Medical produces a broad array of medical technologies and devices that are used to help improve healthcare delivery in a wide range of settings. The primary customers served by BD Medical are hospitals and clinics; physicians' office practices; consumers and retail pharmacies; governmental and nonprofit public health agencies; pharmaceutical companies; and healthcare workers. BD Medical consists of the following organizational units:

<u>Organizational Unit</u>	<u>Principal Product Lines</u>
Medication Delivery Solutions	Peripheral intravenous ("IV") catheters (conventional, safety); advanced peripheral catheters (guidewire assisted peripherally inserted venous catheters, midline catheters, port access); central lines (peripherally inserted central catheters); acute dialysis catheters; vascular access technology (ultrasonic imaging); vascular care (lock solutions, prefilled flush syringes, disinfecting caps); vascular preparation (skin antiseptics, dressings, securement); needle-free IV connectors and extensions sets; closed-system drug transfer devices; hazardous drug detection; conventional and safety hypodermic syringes and needles, anesthesia needles (spinal, epidural) and trays; enteral syringes; and sharps disposal systems.
Medication Management Solutions	IV medication safety and infusion therapy delivery systems, including infusion pumps, dedicated disposables, and IV fluids; medication compounding workflow systems; automated medication dispensing; automated supply management systems; medication inventory optimization and tracking systems; and informatics and analytics solutions for enterprise medication management.
Diabetes Care	Syringes, pen needles and other products related to the injection or infusion of insulin and other drugs used in the treatment of diabetes.
Pharmaceutical Systems	Prefillable drug delivery systems - prefillable syringes, safety, shielding and self-injection systems and support services - provided to pharmaceutical companies for use as containers for injectable pharmaceutical products, which are then placed on the market as drug/device combinations.

BD Life Sciences

BD Life Sciences provides products for the safe collection and transport of diagnostics specimens, and instruments and reagent systems to detect a broad range of infectious diseases, healthcare-associated infections and cancers. In addition, BD Life Sciences produces research and clinical tools that facilitate the study of cells, and the components of cells, to gain a better understanding of normal and disease processes. That information is used to aid the discovery and development of new drugs and vaccines, and to improve the diagnosis and management of diseases. The primary customers served by BD Life Sciences are hospitals, laboratories and clinics; blood banks; healthcare workers; public health agencies; physicians' office practices; retail pharmacies; academic and government institutions; and pharmaceutical and biotechnology companies. BD Life Sciences consists of the following organizational units:

<u>Organizational Unit</u>	<u>Principal Product Lines</u>
Integrated Diagnostic Solutions	Integrated systems for specimen collection; safety-engineered blood collection products and systems; automated blood culturing and tuberculosis culturing systems; molecular testing systems for infectious diseases and women's health; microorganism identification and drug susceptibility systems; liquid-based cytology systems for cervical cancer screening; rapid diagnostic assays for testing of respiratory infections; microbiology laboratory automation; and plated media for clinical and industrial applications.
Biosciences	Fluorescence-activated cell sorters and analyzers; antibodies and kits for performing cell analysis; reagent systems for life science research; solutions for high-throughput single-cell gene expression analysis; and clinical oncology, immunological (HIV) and transplantation diagnostic/monitoring reagents and analyzers.

BD Interventional

BD Interventional provides vascular, urology, oncology and surgical specialty products that are intended, with the exception of the V. Muller™ surgical and laparoscopic instrumentation products, to be used once and then discarded or are either temporarily or permanently implanted. The primary customers served by BD Interventional are hospitals, individual healthcare professionals, extended care facilities, alternate site facilities, and patients via our Homecare business. BD Interventional consists of the following organizational units:

<u>Organizational Unit</u>	<u>Principal Product Lines</u>
Surgery	Hernia and soft tissue repair, biological grafts, bioresorbable grafts, biosurgery, and other surgical products; BD ChlorPrep™ surgical infection prevention products; and V. Mueller™ surgical and laparoscopic instrumentation products.
Peripheral Intervention	Percutaneous transluminal angioplasty ("PTA") balloon catheters, peripheral vascular stents, self-expanding and balloon-expandable stent grafts, vascular grafts, drug coated balloons, ports, biopsy, chronic dialysis, feeding, inferior vena catheter filters, endovascular fistula creation devices and drainage products, and atherectomy and thrombectomy system.
Urology and Critical Care	Urine management devices, urological drainage products, intermittent catheters, kidney stone management devices, Targeted Temperature Management, and fecal management devices.

C. R. Bard Acquisition

On December 29, 2017, BD completed the acquisition of Bard, a global medical technology company in the fields of vascular, urology, oncology and surgical specialty products. Under the terms of the transaction, Bard common shareholders received approximately \$222.93 in cash and 0.5077 shares of BD stock per Bard share. BD financed the cash portion of the total consideration transferred with available cash, which included net proceeds raised in the third quarter of fiscal year 2017 through registered public offerings of securities and debt transactions. Additional information regarding the Bard acquisition is contained in Note 10 to the consolidated financial statements contained in Item 8. Financial Statements and Supplementary Data, which is incorporated herein by reference.

Divestitures

Advanced Bioprocessing

In October 2018, BD completed the sale of its Advanced Bioprocessing business pursuant to a definitive agreement that was signed in September 2018.

Respiratory Solutions and Vyair Medical

In April 2018, BD completed the sale of its remaining interest in Vyair Medical. BD received gross cash proceeds of approximately \$435 million and recognized a pre-tax gain on the sale of approximately \$303 million.

Additional information regarding these divestitures is contained in Note 11 to the consolidated financial statements contained in Item 8. Financial Statements and Supplementary Data, which is incorporated herein by reference.

International Operations

BD's products are manufactured and sold worldwide. For reporting purposes, we organize our operations outside the United States as follows: Europe, EMA (which includes the Commonwealth of Independent States, the Middle East and Africa); Greater Asia (which includes countries in Greater China, Japan, South Asia, Southeast Asia, Korea, and Australia and New Zealand); Latin America (which includes Mexico, Central America, the Caribbean and South America); and Canada. The principal products sold by BD outside the United States are hypodermic needles and syringes; insulin syringes and pen needles; BD Hypak™ brand prefilled syringe systems; infusion therapy products, including BD Alaris™ infusion pumps; pharmacy automation equipment, including Pyxis™ systems; devices and services for the treatment of peripheral arterial and venous disease, cancer detection, and end-stage renal disease and maintenance; synthetic and resorbable mesh, biologic implants and fixation systems to complement innovative techniques for inguinal, ventral and other hernia repair procedures; medical devices for urine drainage in the acute care hospital and home care settings; BD Vacutainer™ brand blood collection products; diagnostic systems and laboratory equipment and products; and flow cytometry instruments and reagents. BD has manufacturing operations outside the United States in Bosnia and Herzegovina, Brazil, Canada, China, Dominican Republic, France, Germany, Hungary, India, Ireland, Israel, Italy, Japan, Malaysia, Mexico, the Netherlands, Singapore, Spain, and the United Kingdom. Geographic information with respect to BD's operations is included under the heading "Geographic Information" in Note 7 to the consolidated financial statements included in Item 8. Financial Statements and Supplementary Data.

Foreign economic conditions and exchange rate fluctuations have caused the profitability related to foreign revenues to fluctuate more than the profitability related to domestic revenues. BD believes its activities in some countries outside the United States involve greater risk than its domestic business due to the factors cited herein, as well as the economic environment, local commercial and economic policies and political uncertainties. See further discussion of these risks in Item 1A. Risk Factors.

Distribution

BD's products are marketed and distributed in the United States and internationally through independent distribution channels, and directly to hospitals and other healthcare institutions by BD and independent sales representatives. BD uses acute care, non-acute care, laboratory and drug wholesaler distributors to broadly support our overall disposable product demand from our end user customers in the United States. In international markets, products are distributed either directly or through distributors, with the practice varying by country. Order backlog is not material to BD's business inasmuch as orders for BD products generally are received and filled on a current basis, except for items temporarily out of stock. BD's worldwide sales are not generally seasonal, with the exception of certain medical devices in the Medication Delivery Solutions business unit, and flu diagnostic products in the Integrated Diagnostic Systems business unit, which relate to seasonal diseases such as influenza. In order to service its customers, optimize logistics, lower facilities costs and reduce finished goods inventory levels, BD operates consolidated distribution facilities in both the United States and Europe. Orders are normally shipped within a matter of days after receipt.

Raw Materials and Components

BD purchases many different types of raw materials and components, including plastics, glass, metals, textiles, paper products, agricultural products, electronic and mechanical sub-assemblies and various biological, chemical and petrochemical products. BD seeks to ensure continuity of supply by securing multiple options for sourcing. However, there are situations where raw materials and components are only available from one supplier, which are referred to as sole sourced. The use of sole sourced materials and components may be due to sourcing of proprietary and/or patented technology and processes that are intended to provide a unique market differentiation to our product. In other cases, while a raw material or component can be sourced from multiple manufacturers, only one supplier is qualified due to quality assurance, cost or other considerations. In order to provide alternate sources, BD must complete a rigorous qualification process, which most often includes completion of regulatory registration and approval. If clinical trials are not required, this qualification process can take 3-18 months depending on the criticality of the change. When clinical trials are required, this process may lengthen the qualification phase from one to three years. BD continuously assesses its sole sourced raw materials and components, and maintains business continuity plans with its suppliers. BD's continuity plans may include securing secondary supply with alternate suppliers, qualification of alternate manufacturing facilities, maintaining contingency stock, internal development of supply and establishment of technology escrow accounts. While BD works closely with its suppliers, no assurance can be given that these efforts will be successful, and there may be events that cause supply interruption, reduction or termination that adversely impacts BD's ability to manufacture and sell certain products.

Research and Development

BD conducts its research and development ("R&D") activities at its operating units and at BD Technologies in Research Triangle Park, North Carolina. The majority of BD's R&D activities are conducted in North America. Outside North America, BD primarily conducts R&D activities in China, France, India, Ireland and Singapore. BD also collaborates with certain universities, medical centers and other entities on R&D programs and retains individual consultants and partners to support its efforts in specialized fields.

Intellectual Property and Licenses

BD owns significant intellectual property, including patents, patent applications, technology, trade secrets, know-how, copyrights and trademarks in the United States and other countries. BD is also licensed under domestic and foreign patents, patent applications, technology, trade secrets, know-how, copyrights and trademarks owned by others. In the aggregate, these intellectual property assets and licenses are of material importance to BD's business. BD believes, however, that no single patent, technology, trademark, intellectual property asset or license is material in relation to BD's business as a whole, or to any business segment.

Competition

BD operates in the increasingly complex and challenging medical technology marketplace. Technological advances and scientific discoveries have accelerated the pace of change in medical technology, the regulatory environment of medical products is becoming more complex and vigorous, and economic conditions have resulted in a challenging market. Companies of varying sizes compete in the global medical technology field. Some are more specialized than BD with respect to particular markets, and some have greater financial resources than BD. New companies have entered the field, particularly in the areas of molecular diagnostics, safety-engineered devices and in the life sciences, and established companies have diversified their business activities into the medical technology area. Other firms engaged in the distribution of medical technology products have become manufacturers of medical devices and instruments as well. Acquisitions and collaborations by and among companies seeking a competitive advantage also affect the competitive environment. In addition, the entry into the market of low-cost manufacturers has created increased pricing pressures. BD competes in this evolving marketplace on the basis of many factors, including price, quality, innovation, service, reputation, distribution and promotion. The impact of these factors on BD's competitive position varies among BD's various product offerings. In order to remain competitive in the industries in which it operates, BD continues to make investments in research and development, quality management, quality improvement, product innovation and productivity improvement in support of its core strategies. See further discussion of the risks relating to competition in the medical technology industry in Item 1A. Risk Factors.

Third-Party Reimbursement

Reimbursement is an important strategic consideration in the development and marketing of medical technology. Obtaining coverage, coding and payment is critical to the commercial success of a new product or procedure. Difficulty in achieving market access can lead to slow adoption in the marketplace and inadequate payment levels that can continue for months or even years.

A majority of BD's customers rely on third-party payers, including government programs and private health insurance plans, to reimburse some or all of the cost of the procedures, products and services they provide. Vertical integration has created a very concentrated market among commercial third-party payers in the U.S. Global payers are increasingly focused on strategies to control spending on healthcare and reward improvements in quality and patient outcomes.

BD is actively engaged in identifying and communicating value propositions of its products for payer, provider, and patient stakeholders, and it employs various efforts and resources to attempt to positively impact coverage, coding and payment pathways. However, BD has no direct control over payer decision-making with respect to coverage and payment levels for BD products. The manner and level of reimbursement in any given case may depend on the site of care, the procedure(s) performed, the final patient diagnosis, the device(s) and/or drug(s) utilized, the available budget, or a combination of these factors, and coverage and payment levels are determined at each payer's discretion. As BD's product offerings are diverse across a variety of healthcare settings, they are affected to varying degrees by the many payment pathways that impact the decisions of healthcare providers regarding which medical products they purchase and the prices they are willing to pay for those products. Therefore, changes in reimbursement levels or methods may either positively or negatively impact sales of BD products in any given country for any given product.

As government programs expand healthcare coverage for their citizens, they have at the same time sought to control costs by limiting the amount of reimbursement they will pay for particular procedures, products or services. In addition, most payers are seeking price predictability in order to mitigate future exposure to manufacturer price increases. This is coupled with an increase in high deductible private insurance plans, which transfer more pricing exposure and burden directly to the patient.

Many payers both in the U.S. and globally have developed specific payment and delivery mechanisms to support these cost control efforts and to focus on paying for value. These mechanisms include payment reductions, pay for performance measures, quality-based performance payments, restrictive coverage policies, bidding and tender mechanics, studies to compare the effectiveness of therapies and use of technology

assessments. These changes, whether the result of legislation, new strategic alliances or market consolidations, have created an increased emphasis on the delivery of more cost-effective and quality-driven healthcare.

For example, as a result of the Patient Protection and Affordable Care Act (“PPACA”), the U.S. has implemented value-based payment methodologies and has created alternative payment models such as bundled payments to continue to drive improved value. We see other governments around the world considering similar bundling reform measures, with the utilization of the Diagnosis Related Group (“DRG”) as a payment mechanism to drive toward quality and resource based reimbursement becoming more common in regions outside the U.S.

Regulation

General

BD's operations are global and are affected by complex state, federal and international laws relating to healthcare, environmental protection, antitrust, anti-corruption, marketing, fraud and abuse (including anti-kickback and false claims laws), export control, product safety and efficacy, employment, privacy and other areas.

BD's medical technology products and operations are subject to regulation by the U.S. Food and Drug Administration (“FDA”) and various other federal and state agencies, as well as by foreign governmental agencies. These agencies enforce laws and regulations that govern the development, testing, manufacturing, labeling, advertising, marketing and distribution, and market surveillance of BD's medical products. The scope of the activities of these agencies, particularly in the Europe, Japan, and Asia Pacific regions in which BD operates, has been increasing.

BD actively maintains FDA/ISO Quality Systems that establish standards for its product design, manufacturing, and distribution processes. Prior to marketing or selling most of its products, BD must secure approval from the FDA and counterpart non-U.S. regulatory agencies. Following the introduction of a product, these agencies engage in periodic reviews and inspections of BD's quality systems, as well as product performance and advertising and promotional materials. These regulatory controls, as well as any changes in agency policies, can affect the time and cost associated with the development, introduction and continued availability of new and existing products. Where possible, BD anticipates these factors in its product development and planning processes. These agencies possess the authority to take various administrative and legal actions against BD, such as product recalls, product seizures and other civil and criminal sanctions. BD also undertakes voluntary compliance actions, such as voluntary recalls.

BD also is subject to various federal and state laws, and laws outside the United States, concerning healthcare fraud and abuse (including false claims laws and anti-kickback laws), global anti-corruption, transportation, safety and health, and customs and exports. Many of the agencies enforcing these laws have increased their enforcement activities with respect to medical device manufacturers in recent years. This is part of a general trend toward increased regulation and enforcement activity within and outside the United States.

In addition, as part of PPACA, the federal government has enacted the Sunshine Act provisions requiring BD to publicly report gifts and payments made to physicians and teaching hospitals. Countries outside the United States have enacted similar local laws requiring medical device companies to report transfers of value to health care providers licensed in those countries. Failure to comply with these laws could result in a range of fines, penalties and/or other sanctions.

Consent Decree with FDA

Our infusion pump organizational unit is operating under an amended consent decree entered into by CareFusion with the FDA in 2007. CareFusion's consent decree with the FDA is related to its Alaris™ SE infusion pumps. In February 2009, CareFusion and the FDA amended the consent decree to include all infusion pumps manufactured by or for CareFusion 303, Inc., the organizational unit that manufactures and sells BD Alaris infusion pumps in the United States. The amended consent decree does not apply to intravenous administration sets and accessories.

While this BD organizational unit remains subject to the amended consent decree, which includes the requirements of the original consent decree, it has made substantial progress in its compliance efforts. However, we cannot predict the outcome of this matter, and the amended consent decree authorizes the FDA, in the event of any violations in the future, to order us to cease manufacturing and distributing infusion pumps, recall products and take other actions. We may be required to pay damages of \$15,000 per day per violation if we fail to comply with any provision of the amended consent decree, up to \$15 million per year.

We also cannot currently predict whether additional monetary investment will be incurred to resolve this matter or the matter's ultimate impact on our business. We may be obligated to pay more costs in the future because, among other things, the FDA may determine that we are not fully compliant with the amended consent decree and therefore impose penalties under the amended consent decree, and/or we may be subject to future proceedings and litigation relating to the matters addressed in the amended consent decree. As of September 30, 2020, we do not believe that a loss is probable in connection with the amended consent decree, and accordingly, we have no accruals associated with compliance with the amended consent decree.

We are undertaking certain remediation of our BD Alaris System, and are currently shipping the product in the U.S. only in cases of medical necessity. We will not be able to fully resume commercial operations for the BD Alaris System in the U.S. until a 510(k) submission relating to the product has been filed with and subsequently cleared by the FDA.

Following an inspection that began in March 2020 of our Medication Management Systems facility (CareFusion 303, Inc.) in San Diego, California, the FDA issued to BD a Form 483 Notice that contains a number of observations of non-conformance. BD has provided the FDA with its response to the Form 483 and has begun to implement certain corrective actions to address the observations. However, the FDA's review of the items raised in the Form 483 remains ongoing and no assurances can be given regarding further action by the FDA as a result of the observations.

FDA Warning Letter

On January 11, 2018, BD received a Warning Letter from the FDA with respect to our BD Preanalytical Systems ("PAS") unit, citing certain alleged violations of quality system regulations and of law. The Warning Letter states that, until BD resolves the outstanding issues covered by the Warning Letter, the FDA will not clear or approve any premarket submissions for Class III devices to which the non-conformances are reasonably related or grant requests for certificates to foreign governments. BD has worked closely with the FDA and implemented corrective actions to address the concerns identified in the warning letter. In March 2020, the FDA conducted a subsequent inspection of PAS, which it classified as Voluntary Action Indicated, which means the FDA will not take or recommend any administrative or regulatory action as a result of the unit's response to the observations in the inspection.

Consent Order - Covington, Georgia

On October 28, 2019, BD entered into a consent order with the Environmental Protection Division of the Georgia Department of Natural Resources (the "EPD"), following the filing of a complaint and motion for temporary restraining order by the EPD seeking to enjoin BD from continuing sterilization operations at its Covington, Georgia facility. Under the terms of the consent order, which has been amended two times upon mutual agreement of BD and EPD, BD voluntarily agreed to a number of operational changes at its Covington and Madison, Georgia facilities designed to further reduce ethylene oxide emissions, including but not limited to operating at a reduced capacity. BD does not believe that the consent order will have a material impact on its operations. Violation of the consent order, though, could subject us to additional restrictions on the sterilization operations at our Covington and Madison facilities. BD has business continuity plans in place to mitigate the impact of any additional restrictions on our operations at these facilities, although it is possible that these plans will not be able to fully offset such impact.

For further discussion of risks relating to the regulations to which we are subject, see Item 1A. Risk Factors.

Human Capital Management

As of September 30, 2020, we had approximately 72,000 associates located in over 70 different countries in a variety of different roles. We compete in the highly competitive medical technology industry. Attracting, developing and retaining talented people in technical, marketing, sales, research and other positions is crucial to executing our strategy and our ability to compete effectively. Our ability to recruit and retain such talent depends on a number of factors, including compensation and benefits, talent development and career opportunities, and work environment. To that end, we invest in our associates in order to be an employer of choice.

Diversity & Inclusion

Our associates reflect the communities we live and work in, the customers and patients we serve, and possess a broad range of thought and experiences that have helped BD achieve our leadership position in the medical technology industry and the global marketplace. A key component of our journey to continually build a better BD is our commitment to global inclusion and diversity ("I&D"). We believe this commitment allows us to better our understanding of patient and customer needs and develop technologies to meet those needs. Our I&D efforts have garnered recognitions, including Best Places to Work for Disability and LGBTQ Inclusion, Bloomberg's Gender Equality Index, and Diversity Inc's Noteworthy Companies. Although we have made progress in our workforce diversity representation, we seek to continuously improve in this area. Each year, we establish annual corporate I&D goals to continue improving our hiring, development, advancement, and retention of diverse talent and our overall diversity representation. In addition, our executive leaders serve as sponsors of our nine associate-led resource groups ("ARGs") in support of their efforts to provide meaningful professional development for our workforce, drive business improvement and innovation and contribute to BD's role as a socially responsible community member.

Externally, we are involved in industry I&D efforts as one of several companies taking a leadership role in AdvaMed's efforts to improve diversity in the medical technology industry. We have also committed to leadership in I&D through our support for the Equality Act and the United Nations' Open for Business program and organizations like The Human Rights Campaign, Equal Justice Initiative, and The United Negro College Fund. Through the BD Helping Build Healthy Communities initiative, we committed \$22.6 million to support Direct Relief and the National Association of Community Health Centers in expanding the innovative practices of U.S. community health centers, which collectively serve more than 30 million U.S. patients – the majority of which are in underrepresented communities.

BD 2020 Workforce Diversity Representation

	Gender (Global)	Year-Over-Year Improvement	Race (U.S. Only)	Year-Over-Year Improvement
Executive	28%	+3%	20%	+2%
Management	39%	—	28%	+2%
All associates	49%	—	38%	+1%

For the above table, we define "executives" as associates in positions of vice president and above. "Management" positions are defined as those in manager, director or equivalent roles. Information regarding race and gender is based on information provided by associates.

Associate Growth and Development

We invest significant resources to develop talent with the right capabilities to deliver the growth and innovation needed to support our strategy. We have launched an enhanced Strategic Organizational Planning process to ensure we build the organizational capabilities required in the years to come. We offer associates and their managers a number of tools to help in their personal and professional development, including career development plans, mentoring programs and in-house learning opportunities, including BD University, our in-house continuing education program that follows a "leaders-as-teachers" approach. We also have a deeply-rooted practice of investing in our next generation of leaders and offer associates a number of leadership

development programs, including programs dedicated to certain specific areas, such as finance and technology. We have also launched a set of expectations and curriculum to enhance our more than 7,500 people leaders' ability to develop their teams and create the right work environment for their teams to excel. We believe in and encourage in our associates and leaders a Growth Mindset, a belief that qualities and talents can be developed through dedication and hard work, and have aligned our performance management system to support our culture evolution and increased focus on continuous learning and development.

Associate Engagement

As we work to continually make an impact on how healthcare is delivered, we believe it is critical that our associates are informed and engaged. We communicate frequently and transparently with our associates through a variety of communication methods, including video and written communications, town hall meetings, associate surveys and our company intranet, and acknowledge individual contributions to BD through a number of rewards and recognition award programs. We believe these engagement efforts keep associates informed about our strategy, culture and purpose and motivated to do their best work. As a result of the COVID-19 pandemic, we also further strengthened our digital communication and social networking platforms. Our associate communications during the pandemic have kept our associates informed on critical priorities, important actions being taken by management in response to the pandemic, and continued efforts to protect associate healthy, safety and well-being.

In addition to helping associates stay engaged, we also work to foster and reinforce an inclusive culture where diverse perspectives are valued. This year, our ARGs hosted company-wide dialogues and panel sessions to advance our business and cultural priorities and engage associates on timely topics on racial injustice, health care inequity and access, mental health and parent-caregiver considerations during a pandemic.

We also have a long-standing history of associate volunteerism that we believe has had an impact on local and global communities. Through our public-private partnerships and collaborations with non-government organizations, we sponsor volunteer trips and other meaningful volunteer opportunities to help communities around the world. On a local front, associates are encouraged and empowered to serve organizations and causes that are important to them. This includes a matching gift program, paid time off to volunteer, and an award program to give grants to non-profit organizations in honor of associates who engage in exceptional volunteer efforts.

Compensation and Benefits

We are committed to rewarding, supporting, and developing the associates who make it possible to deliver on our strategy. To that end, we offer a comprehensive total rewards program aimed at the varying health, home-life and financial needs of our diverse and global associates. Our total rewards package includes market-competitive pay, broad-based stock grants and bonuses, healthcare benefits, pension and retirement savings plans, paid time off and family leave, flexible work schedules, on-site health and fitness centers, free physicals and flu vaccinations, and an Employee Assistance Program and other mental health services.

Available Information

BD maintains a website at www.bd.com. BD makes available its Annual Reports on Form 10-K, its Quarterly Reports on Form 10-Q, and its Current Reports on Form 8-K (and amendments to those reports) as soon as reasonably practicable after those reports are electronically filed with, or furnished to, the Securities and Exchange Commission ("SEC"). These filings may be obtained and printed free of charge at www.bd.com/investors.

In addition, the written charters of the Audit Committee; the Compensation and Management Development Committee; the Corporate Governance and Nominating Committee; the Executive Committee; the Quality and Regulatory Committee; and the Science, Marketing, Innovation and Technology Committee of the Board of Directors, BD's Corporate Governance Principles and its Code of Conduct, are available and may be printed free of charge at BD's website at www.bd.com/investors/corporate_governance/. Printed copies of these materials, this 2020 Annual Report on Form 10-K, and BD's reports and statements filed with, or furnished to,

the SEC, may also be obtained, without charge, by contacting the Corporate Secretary, BD, 1 Becton Drive, Franklin Lakes, New Jersey 07417-1880, telephone 201-847-6800. In addition, the SEC maintains an internet site that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC at www.sec.gov.

BD also routinely posts important information for investors on its website at www.bd.com/investors. BD may use this website as a means of disclosing material, non-public information and for complying with its disclosure obligations under Regulation FD adopted by the SEC. Accordingly, investors should monitor the Investor Relations portion of BD's website noted above, in addition to following BD's press releases, SEC filings, and public conference calls and webcasts. Our website and the information contained therein or connected thereto shall not be deemed to be incorporated into this Annual Report.

Forward-Looking Statements

BD and its representatives may from time-to-time make certain forward-looking statements in publicly-released materials, both written and oral, including statements contained in filings with the SEC and in its reports to shareholders. Additional information regarding BD's forward-looking statements is contained in Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Item 1A. Risk Factors.

An investment in BD involves a variety of risks and uncertainties. The following describes some of the material risks that could adversely affect BD's business, financial condition, operating results or cash flows. We may also be adversely impacted by other risks not presently known to us or that we currently consider immaterial.

Business, Economic and Industry Risks

We are subject to risks associated with public health threats, including the ongoing COVID-19 pandemic, which has had, and we expect will continue to have, a material adverse effect on our business. The nature and extent of future impacts are highly uncertain and unpredictable.

We are subject to risks associated with public health threats, including the COVID-19 pandemic. The outbreak of COVID-19 and the travel restrictions, quarantines and other actions taken by governments and the private sector to slow the spread of the virus resulted in a global economic slowdown, and caused healthcare systems to divert resources to manage the pandemic. These measures led to unprecedented restrictions on and disruptions in businesses and personal activities. As a result, we experienced significant reductions in the demand for certain of our products, resulting from reductions in elective and non-essential procedures, lower utilization of routine testing and related specimen collection, reduced capital spend by customers and a decrease in research activity due to laboratory closures and reduced clinical testing.

While the United States and other countries have begun to reopen their economies, utilization rates for many of our products have not returned to pre-pandemic levels. There may also be continued pressure on our margins due to manufacturing variances resulting from lower demand for certain of our products. In addition, in response to the pandemic, we developed and launched multiple products for the detection and identification of COVID-19, including tests for our BD Max™ molecular System and BD Veritor™ Plus System, and there are a number of factors, including the timing and availability of any COVID-19 vaccine and the entry of additional competitive products, that could impact the level of demand and pricing for our COVID-19 diagnostics testing.

Moreover, any resurgence in COVID-19 infections could result in the imposition of new governmental lockdowns, quarantine requirements or other restrictions to slow the spread of the virus, which could weaken demand for certain of our products, as discussed above. Such measures have begun to be implemented again in certain European countries and in the United States as infections have begun to increase again, in some cases

significantly. These measures could include determinations that our or our suppliers' facilities are not essential businesses that could result in closures or other restrictions that significantly disrupt our operations or those of distributors or suppliers in our supply chain. In addition, while we undertook certain financing activities as a precautionary measure during this economic slowdown, no assurance can be given that we will be able to access capital markets in the future without incurring significant costs and expense.

The scope and duration of the pandemic, including the current resurgences in various regions around the world and other future resurgences, the pace at which government restrictions are lifted or whether additional actions may be taken to contain the virus, the speed and extent to which global markets and utilization rates for our products fully recover from the disruptions caused by the pandemic, and the impact of these factors on our business, will depend on future developments that are highly uncertain and cannot be predicted with confidence.

To the extent COVID-19 adversely affects our operations and global economic conditions more generally, it may also have the effect of heightening many of the other risks described herein.

A downturn in economic conditions could adversely affect our operations.

Deterioration in the domestic or international economic environment, particularly in emerging markets and countries with government-sponsored healthcare systems, may cause decreased demand for our products and services and increased competition, which could result in lower sales volume and lower prices for our products, longer sales cycles, and slower adoption of new technologies. A weakening of macroeconomic conditions may also adversely affect our suppliers, which could result in interruptions in supply. We have previously experienced delays in collecting government receivables in certain countries in Western Europe due to economic conditions, and we may experience similar delays in the future in these and other countries or regions experiencing financial problems.

The medical technology industry is very competitive.

We are a global company that faces significant competition from a wide range of companies. These include large medical device companies with multiple product lines, some of which may have greater financial and marketing resources than we do, as well as firms that are more specialized than we are with respect to particular markets or product lines. Non-traditional entrants, such as technology companies, are also entering into the healthcare industry, some of which may have greater financial and marketing resources than we do. We face competition across all our product lines and in each market in which our products are sold on the basis of product features, clinical or economic outcomes, product quality, availability, price, services and other factors. Our ability to compete is also impacted by changing customer preferences and requirements, such as increased demand for more environmentally-friendly products and for products incorporating digital capabilities, as well as changes in the ways health care services are delivered (including the transition of more care from acute to non-acute settings and increased focus on chronic disease management). Cost containment efforts by governments and the private sector are also resulting in increased emphasis on products that reduce costs, improve clinical results and expand patient access. Our ability to remain competitive will depend on how well we meet these changing market demands in terms of our product offerings and marketing approaches.

The medical technology industry is also subject to rapid technological change and discovery and frequent product introductions. The development of new or improved products, processes or technologies by other companies (such as needle-free injection technology) that provide better features, pricing, clinical outcomes or economic value may render our products or proposed products obsolete or less competitive. In some instances, competitors, including pharmaceutical companies, also offer, or are attempting to develop, alternative therapies for disease states that may be delivered without a medical device. Lower cost producers have also created pricing pressure, particularly in developing markets.

The medical technology industry has also experienced a significant amount of consolidation, resulting in companies with greater scale and market presence than BD. Traditional distributors are also manufacturers of medical devices, providing another source of competition. In addition, health care systems and other providers are consolidating, resulting in greater purchasing power for these companies. As a result, competition among medical device suppliers to provide goods and services has increased. Group purchasing organizations and integrated health delivery networks have also served to concentrate purchasing decisions for some customers,

which has led to downward pricing pressure for medical device suppliers. Further consolidation in the industry could intensify competition among medical device suppliers and exert additional pressure on the demand for and prices of our products.

We are subject to foreign currency exchange risk.

A substantial amount of our revenues are derived from international operations, and we anticipate that a significant portion of our sales will continue to come from outside the U.S. in the future. The revenues we report with respect to our operations outside the United States may be adversely affected by fluctuations in foreign currency exchange rates. A discussion of the financial impact of exchange rate fluctuations and the ways and extent to which we may attempt to address any impact is contained in Item 7. Management's Discussion of Financial Condition and Results of Operations. Any hedging activities we engage in may only offset a portion of the adverse financial impact resulting from unfavorable changes in foreign currency exchange rates. We cannot predict with any certainty changes in foreign currency exchange rates or the degree to which we can mitigate these risks.

Changes in reimbursement practices of third-party payers or other cost containment measures could affect the demand for our products and the prices at which they are sold.

Our sales depend, in part, on the extent to which healthcare providers and facilities are reimbursed by government authorities (including Medicare, Medicaid and comparable foreign programs) and private insurers for the costs of our products. The coverage policies and reimbursement levels of third-party payers, which can vary among public and private sources and by country, may affect which products customers purchase and the prices they are willing to pay for those products in a particular jurisdiction. Reimbursement rates can also affect the market acceptance rate of new technologies and products. Reforms to reimbursement systems in the United States or abroad, changes in coverage or reimbursement rates by private payers, or adverse decisions relating to our products by administrators of these systems could significantly reduce reimbursement for procedures using our products or result in denial of reimbursement for those products, which would adversely affect customer demand or the price customers are willing to pay for such products. See "Third-Party Reimbursement" under Item 1. Business.

Initiatives to limit the growth of healthcare costs in the U.S. and other countries where we do business may also put pressure on medical device pricing. In the U.S., these include, among others, value-based purchasing and managed care arrangements. Governments in China and other countries are also using various mechanisms to control healthcare expenditures, including increased use of competitive bidding and tenders, and price regulation.

Our future growth is dependent in part upon the development of new products, and there can be no assurance that such products will be developed.

A significant element of our strategy is to increase revenue growth by focusing on innovation and new product development. New product development requires significant investment in research and development, clinical trials and regulatory approvals. The results of our product development efforts may be affected by a number of factors, including our ability to anticipate customer needs, innovate and develop new products and technologies, successfully complete clinical trials, obtain regulatory approvals and reimbursement in the United States and abroad, manufacture products in a cost-effective manner, obtain appropriate intellectual property protection, and gain and maintain market acceptance of our products. In addition, patents attained by others can preclude or delay our commercialization of a product. There can be no assurance that any products now in development or that we may seek to develop in the future will achieve technological feasibility, obtain regulatory approval or gain market acceptance.

Our international operations subject us to certain business risks.

A substantial amount of our sales come from our operations outside the United States, and we intend to continue to pursue growth opportunities in foreign markets, especially in emerging markets. Our foreign operations subject us to certain risks relating to, among other things, fluctuations in foreign currency exchange (discussed above), local economic and political conditions, competition from local companies, increases in trade

protectionism, U.S. relations with the governments of the foreign countries in which we operate, foreign regulatory requirements or changes in such requirements, changes in local health care payment systems and health care delivery systems, local product preferences and requirements, longer payment terms for account receivables than we experience in the U.S., difficulty in establishing, staffing and managing foreign operations, changes to international trade agreements and treaties, changes in tax laws, weakening or loss of the protection of intellectual property rights in some countries, and import or export licensing requirements. The success of our operations outside the United States also depends, in part, on our ability to make necessary infrastructure enhancements to, among other things, our production facilities and sales and distribution networks. These and other factors may adversely impact our ability to pursue our growth strategy in these markets.

In addition, our international operations are governed by the U.S. Foreign Corrupt Practices Act and similar anti-corruption laws outside the U.S. Global enforcement of anti-corruption laws has increased substantially in recent years, with more enforcement proceedings by U.S. and foreign governmental agencies and the imposition of significant fines and penalties. While we have implemented policies and procedures to enhance compliance with these laws, our international operations, which often involve customer relationships with foreign governments, create the risk that there may be unauthorized payments or offers of payments made by employees, consultants, sales agents or distributors. Any alleged or actual violations of these laws may subject us to government investigations and significant criminal or civil sanctions and other liabilities, and negatively affect our reputation.

Changes in U.S. policy regarding international trade, including import and export regulation and international trade agreements, could also negatively impact our business. The U.S. has imposed tariffs on steel and aluminum as well as on goods imported from China and certain other countries, which has resulted in retaliatory tariffs by China and other countries. Additional tariffs imposed by the U.S. on a broader range of imports, or further retaliatory trade measures taken by China or other countries in response, could result in an increase in supply chain costs that we may not be able to offset or that otherwise adversely impact our results of operations.

The United Kingdom's ("UK") departure from the European Union ("EU") (commonly known as "Brexit") has created uncertainties affecting business operations in the UK, the EU and a number of other countries, including with respect to compliance with the regulatory regimes regarding the labeling and registration of the products we sell in these markets. The UK formally left the EU on January 31, 2020. Pursuant to the withdrawal arrangement agreed between the UK and the EU, there is a transition period through December 31, 2020 for the parties to negotiate their future trading relationship. During this transition period, the UK continues to follow the EU's rules and its trading relationship with the EU remains the same. While we have taken proactive steps to mitigate any disruption to our operations, we could face increased costs, volatility in exchange rates, market instability and other risks, depending on the outcome of the negotiations regarding the future EU/UK trading relationship.

Reductions in customers' research budgets or government funding may adversely affect our business.

We sell products to researchers at pharmaceutical and biotechnology companies, academic institutions, government laboratories and private foundations. Research and development spending of our customers can fluctuate based on spending priorities and general economic conditions. A number of these customers are also dependent for their funding upon grants from U.S. government agencies, such as the U.S. National Institutes of Health ("NIH") and agencies in other countries. The level of government funding of research and development is unpredictable. For instance, there have been instances where NIH grants have been frozen or otherwise unavailable for extended periods. The availability of governmental research funding may be adversely affected by economic conditions and governmental spending reductions. Any reduction or delay in governmental funding could cause our customers to delay or forego purchases of our products.

We need to attract and retain key employees to be competitive.

Our ability to compete effectively depends upon our ability to attract and retain executives and other key employees. Competition for experienced employees, particularly for persons with specialized skills, can be

intense. Our ability to recruit such talent will depend on a number of factors, including compensation and benefits, work location and work environment. If we cannot effectively recruit and retain qualified executives and employees, our business could be adversely affected.

Operational Risks

Breaches of our information systems could have a material adverse effect on our operations.

We rely on information systems to process, transmit, and store electronic information in our day-to-day operations, including sensitive personal or proprietary information. In addition, some of our products include information systems that collect data regarding patients and patient therapy on behalf of our customers and some connect to our systems for maintenance purposes. Our information systems have been subjected to attack via malicious code execution, and cyber- or phishing- attacks, and we have experienced instances of unauthorized access to our systems in the past and expect to be subject to similar cyberattacks in the future. In addition to our own information, in the course of doing business, we sometimes store information with third parties that could be subject to attacks.

Cyberattacks could result in our intellectual property and other confidential information being accessed, destroyed or stolen, which could adversely affect our competitive position in the market. Likewise, we could suffer disruption of our operations and other significant negative consequences, including increased costs for security measures or remediation, diversion of management attention, litigation and damage to our relationships with vendors, business partners and customers. Unauthorized tampering, adulteration or interference with our products may also create issues with product functionality that could result in a loss of data, risk to patient safety, and product recalls or field actions. Cyberattacks could result in unauthorized access to our systems and products which could also impact our compliance with privacy and other laws and regulations, and result in actions by regulatory bodies or civil litigation. While we will continue to dedicate significant resources to protect against unauthorized access to our systems and products, and work with government authorities and third party providers to detect and reduce the risk of future cyber incidents, cyberattacks are becoming more sophisticated, frequent and adaptive. There can be no assurances that these protective measures will prevent future attacks that could have a material adverse impact on our business.

Cost volatility could adversely affect our operations.

Our results of operations could be negatively impacted by volatility in the cost of raw materials, components, freight and energy that, in turn, increases the costs of producing and distributing our products. New laws or regulations adopted in response to climate change could also increase energy and transportation costs, as well as the costs of certain raw materials and components. In particular, we purchase supplies of resins, which are oil-based components used in the manufacture of certain products, and any significant increases in resin costs could adversely impact future operating results. Increases in oil prices can also increase our packaging and transportation costs. We may not be able to offset any increases in our operational costs.

A reduction or interruption in the supply of certain raw materials and components could adversely affect our operating results.

We purchase many different types of raw materials and components used in our products. Certain raw materials and components are not available from multiple sources. In addition, for quality assurance, cost-effectiveness and other reasons, certain raw materials and components are purchased from sole suppliers. The price and supply of these materials and components may be impacted or disrupted for reasons beyond our control. While we work with suppliers to ensure continuity of supply, no assurance can be given that these efforts will be successful. In addition, due to regulatory requirements relating to the qualification of suppliers, we may not be able to establish additional or replacement sources on a timely basis or without excessive cost. The termination, reduction or interruption in supply of these raw materials and components could adversely impact our ability to manufacture and sell certain of our products.

Interruption of our manufacturing or sterilization operations could adversely affect our business.

We have manufacturing sites all over the world. In some instances, however, the manufacturing of certain of our product lines is concentrated in one or more of our plants. Interruption to our manufacturing operations resulting from weather or natural disasters, regulatory requirements or issues in our manufacturing process, equipment failure or other factors, could adversely affect our ability to manufacture our products. In some instances, we may not be able to transition manufacturing to other BD sites or a third party to replace the lost production. A significant interruption of our manufacturing operations could result in lost revenues and damage to our relationships with customers.

In addition, many of our products require sterilization prior to sale, and we utilize both BD facilities and third-parties for this process. In some instances, only a few facilities are qualified under applicable regulations to conduct this sterilization. To the extent we or third-parties are unable to sterilize our products, whether due to lack of capacity, regulatory requirements or otherwise, we may be unable to transition sterilization to other sites or modalities in a timely or cost effective manner, or at all, which could have an adverse impact on our operating results.

Legal, Quality and Regulatory Risks

We are subject to lawsuits.

We are or have been a defendant in a number of lawsuits, including, among others, purported class action lawsuits for alleged antitrust violations and violations of federal securities laws, product liability claims (which may involve lawsuits seeking class action status or seeking to establish multi-district litigation proceedings, including claims relating to our hernia repair implant products, surgical continence and pelvic organ prolapse products for women and vena cava filter products), and suits alleging patent infringement. We have also been subject to government subpoenas and civil investigative demands seeking information with respect to alleged violations of law, including in connection with federal and/or state healthcare programs (such as Medicare or Medicaid), federal contracting requirements and/or sales and marketing practices. A more detailed description of certain litigation to which we are a party is contained in Note 5 to the consolidated financial statements included in Item 8. Financial Statements and Supplementary Data. We could be subject to additional lawsuits or governmental investigations in the future.

Reserves established for estimated losses with respect to legal proceedings do not represent an exact calculation of our actual liability, but instead represent our estimate of the probable loss at the time the reserve is established. Due to the inherent uncertainty of litigation and our underlying loss reserve estimates, additional reserves may be established or current reserves may be significantly increased from time-to-time. Also, in some instances, we are not able to estimate the amount or range of loss that could result from an unfavorable outcome of the litigation to which we are a party. In view of these uncertainties, we could incur charges materially in excess of any currently established accruals and, to the extent available, excess liability insurance. Any such future charges, individually or in the aggregate, could have a material adverse effect on our results of operations, financial condition and/or liquidity.

With respect to our existing product liability litigation, we believe that some settlements and judgments, as well as legal defense costs, may be covered in whole or in part under our product liability insurance policies with a limited number of insurance companies, or, in some circumstances, indemnification obligations to us from other parties. However, amounts recovered under these arrangements may be less than the stated coverage limits or less than otherwise expected and may not be adequate to cover damages and/or costs. In addition, there is no guarantee that insurers or other parties will pay claims or that coverage or indemnity will be otherwise available. For certain product liability claims or lawsuits, BD does not maintain or has limited remaining insurance coverage, and we may not be able to obtain additional insurance on acceptable terms or at all that will provide adequate protection against potential liabilities.

We are subject to extensive regulation.

Our operations are global and are affected by complex state, federal and international laws relating to healthcare, environmental protection, antitrust, anti-corruption, marketing, fraud and abuse (including anti-kickback and false claims laws), export control, product safety and efficacy, employment, privacy and other areas. Violations of these laws can result in criminal or civil sanctions, including substantial fines and, in some cases, exclusion from participation in health care programs such as Medicare and Medicaid. Environmental laws, particularly with respect to the emission of greenhouse gases, are also becoming more stringent throughout the world, which may increase our costs of operations or necessitate closures of or changes to our manufacturing plants or processes or those of our suppliers, or result in liability to BD. The enactment of additional laws in the future may increase our compliance costs or otherwise adversely impact our operations.

We are subject to extensive regulation by the FDA pursuant to the Federal Food, Drug and Cosmetic Act, by comparable agencies in foreign countries, and by other regulatory agencies and governing bodies. Most of our products must receive clearance or approval from the FDA or counterpart regulatory agencies in other countries before they can be marketed or sold. The process for obtaining marketing approval or clearance may require us to incur significant costs in terms of time and resources, and these costs have been increasing due to increased requirements from the FDA for supporting data for submissions. The regulatory process may also require changes to our products or result in limitations on the indicated uses of our products. Governmental agencies may also impose new requirements regarding registration, labeling or prohibited materials that require us to modify or re-register products already on the market or otherwise impact our ability to market our products in those countries.

Following the introduction of a product, these agencies also periodically review our manufacturing processes and product performance. Our failure to comply with the applicable good manufacturing practices, adverse event reporting, and other requirements of these agencies could delay or prevent the production, marketing or sale of our products and result in delays or suspensions of regulatory clearances, warning letters or consent decrees, closure of manufacturing sites, import bans, seizures or recalls of products, civil or criminal sanctions and damage to our reputation. More stringent oversight by the FDA and other agencies in recent years has resulted in increased enforcement activity, which increases our compliance risk.

We are operating under a consent decree with the FDA, entered into by CareFusion in 2007 and amended in 2009, that affects our Alaris™ infusion pump business in the United States. We are also currently operating under a warning letter issued by the FDA. For more information regarding the consent decree and warning letter, see “Regulation” under Item 1. Business.

As previously disclosed, we are undertaking certain remediation of our BD Alaris System, and are currently shipping the product in the U.S. only in cases of medical necessity. We will not be able to fully resume commercial operations for the BD Alaris System in the U.S. until a 510(k) submission relating to the product has been filed with and subsequently cleared by the FDA. No assurance can be given as to the time it may take for us to obtain FDA clearance of the 510(k).

In addition, the European Union (“EU”) has adopted the EU Medical Device Regulation (the “EU MDR”) and the In Vitro Diagnostic Regulation (the “EU IVDR”), each of which impose stricter requirements for the marketing and sale of medical devices, including in the area of clinical evidence requirements, quality systems and post-market surveillance. Manufacturers of currently approved medical devices will have until May 2021 to meet the requirements of the EU MDR for self-certified devices and until May 2024 for medical devices with a valid conformity assessment certificate. Manufacturers of in vitro diagnostic devices have until May 2022 to meet the EU IVDR. Complying with these regulations will require us to incur significant expenditures. Failure to meet these requirements could adversely impact our business in the EU and other regions that tie their product registrations to EU conformity requirements.

We are also subject to complex and frequently changing laws in the U.S. and elsewhere regarding privacy and the collection, use, storage and protection of personal information, and noncompliance with these laws could result in substantial fines or litigation. For instance, the EU has also adopted the General Data Protection Regulation ("GDPR"), which will apply to personal data involved in our operations in the EU or products and services that we offer to EU users involving personal data. The GDPR creates a range of new compliance obligations that could require us to change our existing business practices policies, and significantly increases financial penalties for noncompliance. Privacy regulations are evolving rapidly and we expect to continue to see regional privacy laws emerge, similar to the GDPR and laws adopted in California, that may impact BD businesses to the extent they rely on the use of personal data.

Defects or quality issues associated with our products could adversely affect the results of our operations.

The design, manufacture and marketing of medical devices involve certain inherent risks. Manufacturing or design defects, component failures, unapproved or improper use of our products, or inadequate disclosure of risks or other information relating to the use of our products can lead to injury or other serious adverse events. These events could lead to recalls or safety alerts relating to our products (either voluntary or as required by the FDA or similar governmental authorities in other countries), and could result, in certain cases, in the removal of a product from the market. A recall could result in significant costs and lost sales and customers, enforcement actions and/or investigations by state and federal governments or other enforcement bodies, as well as negative publicity and damage to our reputation that could reduce future demand for our products. Personal injuries relating to the use of our products can also result in significant product liability claims being brought against us. In some circumstances, such adverse events could also cause delays in regulatory approval of new products or the imposition of post-market approval requirements.

Our operations are dependent in part on patents and other intellectual property assets.

Many of our businesses rely on patent, trademark and other intellectual property assets. These intellectual property assets, in the aggregate, are of material importance to our business. We can lose the protection afforded by these intellectual property assets through patent expirations, legal challenges or governmental action. Patents attained by competitors, particularly as patents on our products expire, may also adversely affect our competitive position. In addition, competitors may seek to invalidate patents on our products or claim that our products infringe upon their intellectual property, which could result in a loss of competitive advantage or the payment of significant legal fees, damage awards and past or future royalties, as well as injunctions against future sales of our products. We also operate in countries that do not protect intellectual property rights to the same extent as in the U.S., which could make it easier for competitors to compete with us in those countries. The loss of a significant portion of our portfolio of intellectual property assets may have an adverse effect on our earnings, financial condition or cash flows.

Risks Relating to Our Indebtedness

In connection with the Bard acquisition, we incurred significant additional indebtedness, which could adversely affect us, including by decreasing our business flexibility, and will increase our interest expense.

We substantially increased our indebtedness in connection with the Bard acquisition, in comparison to our indebtedness on a historical basis. This could have the effect of, among other things, reducing our flexibility to respond to business challenges and opportunities, and increasing our interest expense.

The amount of cash required to pay interest on our increased indebtedness levels following completion of the Bard acquisition, and thus the demands on our cash resources, are greater than the amount of cash flows required to service our indebtedness prior to the Bard acquisition. The increased levels of indebtedness following completion of the Bard acquisition may also reduce funds available for working capital, capital expenditures, acquisitions, the repayment or refinancing of our indebtedness as it becomes due and other general corporate purposes, and may create competitive disadvantages for us relative to other companies with lower debt levels. In addition, certain of the indebtedness incurred in connection with the Bard acquisition bears interest at variable interest rates. If interest rates increase, variable rate debt will create higher debt service requirements, which could further adversely affect our cash flows. If we do not achieve the expected benefits

and cost savings from the Bard acquisition, or if the financial performance as a combined company does not meet current expectations, then our ability to service our indebtedness may be adversely impacted.

In addition, our credit ratings affect the cost and availability of future borrowings and, accordingly, our cost of capital. Our ratings reflect each rating organization's opinion of our financial strength, operating performance and ability to meet our debt obligations. There can be no assurance that we will achieve a particular rating or maintain a particular rating in the future or that we will be able to maintain our current rating. Furthermore, our combined company's credit ratings were lowered following the Bard acquisition, including below "investment grade" by Moody's Investors Service, Inc., which may further increase our future borrowing costs and reduce our access to capital.

Moreover, in the future we may be required to raise substantial additional financing to fund the repayment or refinancing of our indebtedness, acquisitions, or working capital, capital expenditures or other general corporate requirements. Our ability to arrange additional financing or refinancing will depend on, among other factors, our financial position and performance, as well as prevailing market conditions and other factors beyond our control. No assurance can be provided that we will be able to obtain additional financing or refinancing on terms acceptable to us or at all.

We may not be able to service all of our indebtedness.

We depend on cash on hand and cash flows from operations to make scheduled debt payments. However, our ability to generate sufficient cash flow from operations of the combined company and to utilize other methods to make scheduled payments will depend on a range of economic, competitive and business factors, many of which are outside of our control. There can be no assurance that these sources will be adequate. If we are unable to service our indebtedness and fund our operations, we will be forced to reduce or delay capital expenditures, seek additional capital, sell assets or refinance our indebtedness. Any such action may not be successful and we may be unable to service our indebtedness and fund our operations, which could have a material adverse effect on our business, financial condition or results of operations.

The agreements that govern the indebtedness incurred in connection with the Bard acquisition impose restrictions that may affect our ability to operate our businesses.

The agreements that govern the indebtedness incurred in connection with the Bard acquisition contain various affirmative and negative covenants that may, subject to certain significant exceptions, restrict the ability of certain of our subsidiaries to incur debt and the ability of us and certain of our subsidiaries to, among other things, have liens on our property, and/or merge or consolidate with any other person or sell or convey certain of our assets to any one person, engage in certain transactions with affiliates and change the nature of our business. In addition, the agreements also require us to comply with certain financial covenants, including financial ratios. Our ability and the ability of our subsidiaries to comply with these provisions may be affected by events beyond our control. Failure to comply with these covenants could result in an event of default, which, if not cured or waived, could accelerate our repayment obligations and could result in a default and acceleration under other agreements containing cross-default provisions. Under these circumstances, we might not have sufficient funds or other resources to satisfy all of our obligations.

General Business Risks

We cannot guarantee that any of our strategic acquisitions, investments or alliances will be successful.

We may seek to supplement our internal growth through strategic acquisitions, investments and alliances. Such transactions are inherently risky, and the integration of any newly-acquired business requires significant effort and management attention. The success of any acquisition, investment or alliance may be affected by a number of factors, including our ability to properly assess and value the potential business opportunity or to successfully integrate any business we may acquire into our existing business. There can be no assurance that any past or future transaction will be successful.

Natural disasters, war and other events could adversely affect our future revenues and operating income.

Natural disasters (including pandemics), war, terrorism, labor disruptions and international conflicts, and actions taken by the United States and other governments or by our customers or suppliers in response to such events, could cause significant economic disruption and political and social instability in the United States and areas outside of the United States in which we operate. These events could result in decreased demand for our products, adversely affect our manufacturing and distribution capabilities, or increase the costs for or cause interruptions in the supply of materials from our suppliers.

Item 1B. Unresolved Staff Comments.

None.

Item 2. Properties.

BD's executive offices are located in Franklin Lakes, New Jersey. As of September 2020, BD owned or leased 323 facilities throughout the world, comprising approximately 25,205,525 square feet of manufacturing, warehousing, administrative and research facilities. The U.S. facilities, including those in Puerto Rico, comprise approximately 8,475,393 square feet of owned and 4,166,494 square feet of leased space. The international facilities comprise approximately 9,582,786 square feet of owned and 2,980,824 square feet of leased space. Sales offices and distribution centers included in the total square footage are also located throughout the world.

Operations in each of BD's business segments are conducted at both U.S. and international locations. Particularly in the international marketplace, facilities often serve more than one business segment and are used for multiple purposes, such as administrative/sales, manufacturing and/or warehousing/distribution. BD generally seeks to own its manufacturing facilities, although some are leased.

BD believes that its facilities are of good construction and in good physical condition, are suitable and adequate for the operations conducted at those facilities, and are, with minor exceptions, fully utilized and operating at normal capacity.

The U.S. facilities are located in Alabama, Arizona, California, Connecticut, Florida, Georgia, Illinois, Indiana, Maryland, Massachusetts, Minnesota, Missouri, Nebraska, New Jersey, New York, North Carolina, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Utah, Virginia, Washington, D.C., Washington, and Puerto Rico.

The international facilities are as follows:

- *Europe, Middle East, Africa*, which includes facilities in Austria, Belgium, Bosnia, the Czech Republic, Denmark, England, Finland, France, Germany, Ghana, Greece, Hungary, Ireland, Israel, Italy, Kenya, Luxembourg, Netherlands, Norway, Pakistan, Poland, Portugal, Russia, Saudi Arabia, South Africa, Spain, Sweden, Switzerland, Turkey, the United Arab Emirates and Zambia.

- *Greater Asia*, which includes facilities in Australia, Bangladesh, China, India, Indonesia, Japan, Malaysia, New Zealand, the Philippines, Singapore, South Korea, Taiwan, Thailand and Vietnam.

- *Latin America*, which includes facilities in Argentina, Brazil, Chile, Colombia, the Dominican Republic, Mexico and Peru.

- *Canada*.

Item 3. Legal Proceedings.

Information with respect to certain legal proceedings is included in Note 5 to the consolidated financial statements contained in Item 8. Financial Statements and Supplementary Data, and is incorporated herein by reference.

Item 4. Mine Safety Disclosures.

Not applicable.

Information about our Executive Officers

The following is a list of the executive officers of BD, their ages and all positions and offices held by each of them during the past five years. There is no family relationship between any executive officer or director of BD.

Name	Age	Position
Vincent A. Forlenza	67	Chairman since July 2012; Chief Executive Officer from October 2011 to January 2020; and President from January 2009 to April 2017.
Thomas E. Polen	47	Chief Executive Officer since January 2020; President since April 2017; Chief Operating Officer from October 2018 to January 2020; and Executive Vice President and President - Medical Segment from October 2014 to April 2017.
Simon D. Champion	49	Executive Vice President and President, Interventional Segment since September 2018; Worldwide President, BD Interventional - Surgery from December 2017 to September 2018; President, Davol (now part of our Surgery business), C.R. Bard, Inc. from July 2015 to December 2017; and prior thereto, Vice President and General Manager, Davol.
Alexandre Conroy	57	Executive Vice President and Chief Integrated Supply Chain Officer since February 2019; Worldwide President, Medication and Procedural Solutions from May 2017 to February 2019; and Executive Vice President and President, Europe, EMA and the Americas from June 2012 to May 2017.
Antoine Ezell	51	President, North America since October 2020; Executive Vice President and Chief Marketing Officer since January 2020; Vice President, Connected Care and Insulins, Eli Lilly and Company from January 2019 to January 2020; and prior thereto, Vice President, Enterprise Capabilities and Solutions, Eli Lilly; Chief Marketing Officer, Elanco Animal Health; and Chief Customer Officer, Eli Lilly.
Roland Goette	58	Executive Vice President and President, EMEA since May 2017; and President, Europe from October 2014 to May 2017.
Patrick K. Kaltenbach	57	Executive Vice President and President, Life Sciences Segment since May 2018; and Senior Vice President and President, Life Sciences and Applied Markets Group, Agilent Technologies, Inc. from November 2014 to April 2018. As previously announced, Mr. Kaltenbach will be leaving BD in January 2021.
Samrat S. Khichi	53	Executive Vice President, Public Policy and Regulatory Affairs since May 2019; Executive Vice President and General Counsel from December 2017 to May 2019; and Senior Vice President, General Counsel and Corporate Secretary, C.R. Bard, Inc. from July 2014 to December 2017.
Betty D. Larson	44	Executive Vice President, Human Resources, and Chief Human Resources Officer since July 2018; Senior Vice President of Human Resources, Interventional Segment from December 2017 to July 2018; and Vice President, Human Resources, C.R. Bard, Inc. from September 2014 to December 2017.
James Lim	56	Executive Vice President and President, Greater Asia since June 2012.
Alberto Mas	59	Executive Vice President and President - Medical Segment since June 2018; Executive Vice President and President - Life Sciences Segment from October 2016 to June 2018; and Worldwide President - Diagnostic Systems from October 2013 to October 2016.
Christopher R. Reidy	63	Executive Vice President, Chief Financial Officer and Chief Administrative Officer since July 2013.

PART II**Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.**

BD's common stock is listed on the New York Stock Exchange under the symbol "BDX". As of October 31, 2020, there were approximately 12,656 shareholders of record.

The table below sets forth certain information regarding BD's purchases of its common stock during the fiscal quarter ended September 30, 2020.

<u>Period</u>	<u>Total Number of Shares Purchased(1)</u>	<u>Average Price Paid per Share</u>	<u>Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs</u>	<u>Maximum Number of Shares that May Yet be Purchased Under the Plans or Programs(2)</u>
July 1-31, 2020	1,144	\$273.36	—	7,857,742
August 1-31, 2020	114	\$261.53	—	7,857,742
September 1-30, 2020	—	—	—	7,857,742
Total	1,258	\$272.29	—	7,857,742

- (1) Includes shares purchased during the quarter in open market transactions by the trust relating to BD's Deferred Compensation and Retirement Benefit Restoration Plan and 1996 Directors' Deferral Plan.
- (2) Represents shares available under the repurchase program authorized by the Board of Directors on September 24, 2013 for 10 million shares, for which there is no expiration date.

Item 6. Selected Financial Data.

FIVE-YEAR SUMMARY OF SELECTED FINANCIAL DATA
Becton, Dickinson and Company

	Years Ended September 30				
	2020	2019	2018	2017	2016
Dollars in millions, except share and per share amounts					
Operations					
Revenues	\$ 17,117	\$ 17,290	\$ 15,983	\$ 12,093	\$ 12,483
Gross Profit	7,577	8,288	7,269	5,965	6,018
Operating Income	1,484	1,760	1,509	1,522	1,481
Income Before Income Taxes	985	1,176	1,173	976	1,074
Income Tax Provision (Benefit)	111	(57)	862	(124)	97

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following commentary should be read in conjunction with the consolidated financial statements and accompanying notes presented in this report. Within the tables presented throughout this discussion, certain columns may not add due to the use of rounded numbers for disclosure purposes. Percentages and earnings per share amounts presented are calculated from the underlying amounts. References to years throughout this discussion relate to our fiscal years, which end on September 30.

Company Overview

Description of the Company and Business Segments

Becton, Dickinson and Company ("BD") is a global medical technology company engaged in the development, manufacture and sale of a broad range of medical supplies, devices, laboratory equipment and diagnostic products used by healthcare institutions, physicians, life science researchers, clinical laboratories, the pharmaceutical industry and the general public. The Company's organizational structure is based upon three principal business segments, BD Medical ("Medical"), BD Life Sciences ("Life Sciences") and BD Interventional ("Interventional").

BD's products are manufactured and sold worldwide. Our products are marketed in the United States and internationally through independent distribution channels and directly to end-users by BD and independent sales representatives. We organize our operations outside the United States as follows: Europe, EMA (which includes the Commonwealth of Independent States, the Middle East and Africa); Greater Asia (which includes countries in Greater China, Japan, South Asia, Southeast Asia, Korea, and Australia and New Zealand); Latin America (which includes Mexico, Central America, the Caribbean and South America); and Canada. We continue to pursue growth opportunities in emerging markets, which include the following geographic regions: Eastern Europe, the Middle East, Africa, Latin America and certain countries within Greater Asia. We are primarily focused on certain countries whose healthcare systems are expanding.

Strategic Objectives

BD remains focused on delivering durable growth and creating shareholder value, while making appropriate investments for the future. BD 2025, our current phase of value creation, is anchored in three key pillars: grow, simplify and empower. BD's management team aligns our operations and investments with these key strategic pillars through continuous focus on the following underlying objectives:

Grow

- Developing and maintaining a strong portfolio of leading products and solutions that address significant unmet clinical needs, improve outcomes, and reduce costs;
- Focusing on our core products, services and solutions that deliver greater benefits to patients, healthcare workers and researchers;
- Investing in research and development that will result in category innovation and a robust product pipeline;
- Leveraging our global scale to expand our reach in providing access to affordable medical technologies around the world, including emerging markets;
- Supplementing our internal growth through strategic acquisitions;
- Driving an efficient capital structure and strong shareholder returns.

Simplify

- Working across our supply chain to minimize environmental impacts;
- Creating more resilient operations based on an enterprise-wide renewable energy strategy;
- Reducing complexity across our manufacturing network and rationalizing our product portfolio;
- Enhancing our quality and risk management systems;
- Simplifying our internal business processes;
- Focusing on cash and expense management in order to improve operating effectiveness and balance sheet productivity.

Empower

- Fostering a purpose-driven culture with a focus on positive impact to all stakeholders—customers, patients, employees and communities;
- Improving our ability to serve customers and enhance customer experiences through the digitalization of internal processes and go-to-market approaches;
- Cultivating an inclusive work environment that welcomes and celebrates diverse talent and perspectives.

In assessing the outcomes of these strategies as well as BD’s financial condition and operating performance, management generally reviews quarterly forecast data, monthly actual results, segment sales and other similar information. We also consider trends related to certain key financial data, including gross profit margin, selling and administrative expense, investment in research and development, return on invested capital, and cash flows.

COVID-19 Pandemic Impacts and Response

A novel strain of coronavirus disease (“COVID-19”) was officially declared a pandemic by the World Health Organization (“WHO”) in March 2020. In efforts to slow and control the spread of COVID-19, governments around the world issued stay at home orders, travel restrictions as well as recommendations or mandates to avoid large gatherings or to self-quarantine. Many governments also instituted restrictions on certain businesses and their activities, particularly those that were deemed non-essential. These various measures led to a sudden and significant decline in economic activity within a number of countries worldwide. Although the global economy has shown signs of recovery, current economic data indicates that full recovery has stalled in some major economies. As further discussed below, disruptions resulting from the ongoing COVID-19 pandemic unfavorably impacted our results of operations in fiscal year 2020. While certain of our organizational units realized positive benefits to revenues from the pandemic, total consolidated revenues in 2020 were unfavorably impacted by an estimated net \$600 million.

Our financial position has remained strong and we continue to generate operating cash flows that are sufficient to meet our short-term liquidity needs. We also further secured our financial flexibility during the economic downturn by increasing the commitments available under our revolving credit facility by \$381 million and issuing \$3.0 billion of equity securities. Our fiscal year 2020 debt and equity transactions are further discussed in Notes 3 and 16 to the consolidated financial statements contained in Item 8. Financial Statements and Supplementary Data. We believe that given our debt ratings and our capital allocation strategy, we would have access to additional short-term and long-term capital should the need arise. We have not observed any impairments of our assets due to the COVID-19 pandemic and its adverse impact on global economic activity in 2020.

As noted above, due to government restrictions and a shift in healthcare priorities, there was a significant decline in medical procedures that resulted in weakened demand for our products in our fiscal year 2020. A decline in procedure volumes across acute and non-acute settings led to a decline in demand for general medical devices. We also saw a deferral in elective procedures and delays in instrument placements relating to our medication management solutions, including Pyxis™. There was also a decrease in routine diagnostic testing and specimen collections, which was offset by demand for COVID-19 testing. Additionally, there was a decrease in research activity due to laboratory closures, delays in clinical trial enrollment and reduced clinical testing.

During the last half of our fiscal year 2020, we noted moderate recovery in the demand for certain products, including those products that are driven by the volume of elective procedures. However, demand for our products has not yet fully recovered and due to the continued, significant uncertainty that exists relative to the duration and overall impact of the COVID-19 pandemic, our future operating performance, particularly in the short-term, will be subject to volatility. The ultimate impact of the COVID-19 pandemic on our business, results of operations, financial condition and cash flows is dependent on future developments, which are uncertain at this time, including:

- The preparedness and effectiveness of countries around the world in preventing or responding to the ongoing spread of COVID-19, or in countries where the spread has been controlled, any resurgence of the virus;
- The degree to which COVID-19 testing solutions continue to be made available and are utilized by governments, healthcare providers and institutions, retail pharmacies and the general public;

- The pace at which hospitals and clinical laboratories fully resume patient care that is not related to the COVID-19 pandemic;
- The timing of when research performed by research laboratories and institutions will resume to normal operations; and
- The timing and strength of any global economic recovery and the degree of pressure that the weaker macroeconomic environment will put on future healthcare utilization and the global demand for our products.

As part of our overall response to the COVID-19 pandemic, we have deployed our capabilities, expertise and scale to address critical health needs related to COVID-19 as follows:

- Our COVID-19 antigen detection test that can provide results in 15 minutes using a simple nasal swab and our portable BD Veritor™ Plus System was approved for Emergency Use Authorization by the U.S. Food and Drug Administration (“FDA”) and received the CE marking for use in the European Union.
- In addition to this immunoassay test, BD's portfolio of molecular solutions for COVID-19 testing includes three other tests that have been registered for use with our BD Max™ molecular system.
- We have leveraged our category leading position as a manufacturer of needles and syringes to enter into partnerships with governments around the world to help prepare for a future COVID-19 vaccination campaign.

Additionally, we have been adhering to guidance provided by the WHO, as well as by health officials in various countries affected by the COVID-19 pandemic, to protect the health and safety of BD employees while ensuring continued availability of BD's critical medical devices and technologies at this unprecedented time. We have worked closely with governmental officials to keep our manufacturing facilities (and those of our suppliers) open due to the essential nature of our products. Due to our enactment of business continuity plans, we have not experienced any significant disruption to our operations and supply chain to date. We also enacted certain cost containment measures to mitigate the unfavorable impact of the COVID-19 pandemic on our results of operations. Such actions have included travel restrictions, temporary reductions in executive compensation, a temporary suspension of matching contributions to certain voluntary defined contribution and other benefit plans, as well as temporary work reductions for certain manufacturing teams.

Further discussion regarding the impacts of the COVID-19 pandemic on our results in 2020 is provided below.

Summary of Financial Results

Worldwide revenues in 2020 of \$17.117 billion decreased 1.0% from the prior-year period. This decrease reflected unfavorable impacts from foreign currency translation and price of approximately 1.0% and 0.2%, respectively. Volume increased by approximately 0.2%. We estimate that the COVID-19 pandemic reduced volume growth in 2020 by approximately 3.3%. Volume in 2020 reflected the following:

- The Medical segment's revenues in 2020 reflected declines in the Medication Delivery Solutions, Medication Management Solutions and Diabetes Care units that were partially offset by growth in the Pharmaceutical Systems unit.
- The Life Sciences segment's revenues in 2020 reflected growth that was driven by the Integrated Diagnostic Solutions unit's sales related to COVID-19 diagnostic testing on the BD Veritor™ Plus and BD Max™ Systems.
- Interventional segment revenues in 2020 were negatively impacted by decreased demand associated with the deferral of elective medical procedures as a result of the COVID-19 pandemic.

We continue to invest in research and development, geographic expansion, and new product market programs to drive further revenue and profit growth. Our ability to sustain our long-term growth will depend on a number of factors, including our ability to expand our core business (including geographical expansion), develop innovative new products, and continue to improve operating efficiency and organizational effectiveness. As discussed above, current global economic conditions are highly volatile due to the COVID-19 pandemic. In addition, pricing pressure exists globally which could adversely impact our businesses.

As noted above, our financial position remains strong, with cash flows from operating activities totaling \$3.539 billion in 2020. At September 30, 2020, we had \$2.937 billion in cash and equivalents and short-term investments, including restricted cash. We continued to return value to our shareholders in the form of

dividends. During fiscal year 2020, we paid cash dividends of \$1.026 billion, including \$888 million paid to common shareholders and \$137 million paid to preferred shareholders.

Each reporting period, we face currency exposure that arises from translating the results of our worldwide operations to the U.S. dollar at exchange rates that fluctuate from the beginning of such period. A stronger U.S. dollar in 2020, compared with 2019, resulted in an unfavorable foreign currency translation impact to our revenues and earnings during 2020. We evaluate our results of operations on both a reported and a foreign currency-neutral basis, which excludes the impact of fluctuations in foreign currency exchange rates. As exchange rates are an important factor in understanding period-to-period comparisons, we believe the presentation of results on a foreign currency-neutral basis in addition to reported results helps improve investors' ability to understand our operating results and evaluate our performance in comparison to prior periods. Foreign currency-neutral ("FXN") information compares results between periods as if exchange rates had remained constant period-over-period. We use results on a foreign currency-neutral basis as one measure to evaluate our performance. We calculate foreign currency-neutral percentages by converting our current-period local currency financial results using the prior-period foreign currency exchange rates and comparing these adjusted amounts to our current-period results. These results should be considered in addition to, not as a substitute for, results reported in accordance with U.S. generally accepted accounting principles ("GAAP"). Results on a foreign currency-neutral basis, as we present them, may not be comparable to similarly titled measures used by other companies and are not measures of performance presented in accordance with U.S. GAAP.

Results of Operations

Medical Segment

The following summarizes Medical revenues by organizational unit:

(Millions of dollars)				2020 vs. 2019			2019 vs. 2018		
	2020	2019	2018	Total Change	Estimated FX Impact	FXN Change	Total Change	Estimated FX Impact	FXN Change
Medication Delivery Solutions (a)	\$ 3,555	\$ 3,848	\$ 3,627	(7.6)%	(1.4)%	(6.2)%	6.1 %	(2.7)%	8.8 %
Medication Management Solutions (a)	2,454	2,640	2,487	(7.1)%	(0.5)%	(6.6)%	6.2 %	(1.0)%	7.2 %
Diabetes Care	1,084	1,110	1,105	(2.4)%	(1.4)%	(1.0)%	0.5 %	(2.4)%	2.9 %
Pharmaceutical Systems	1,588	1,465	1,397	8.4 %	(1.0)%	9.4 %	4.8 %	(3.4)%	8.2 %
Total Medical revenues	\$ 8,680	\$ 9,064	\$ 8,616	(4.2)%	(1.0)%	(3.2)%	5.2 %	(2.3)%	7.5 %

- (a) The presentation of amounts in 2019 and 2018 reflects the reclassification of \$11 million and \$17 million, respectively, associated with the movement of certain products from the Medication Delivery Solutions unit to the Medication Management Solutions unit, which was effective on October 1, 2019.

The Medical segment's revenues in 2020 reflected declines in the Medication Delivery Solutions, Medication Management Solutions and Diabetes Care units that were partially offset by growth in the Pharmaceutical Systems unit. The Medication Delivery Solutions unit's revenues in 2020 reflected an unfavorable impact relating to the COVID-19 pandemic due to a decline in healthcare utilization, particularly in the United States, China and Europe. As expected, the Medication Delivery Solutions unit's 2020 revenues in China were also unfavorably impacted by a new volume-based procurement process which has been adopted by several of China's provinces. The Medication Management Solutions unit's revenues in 2020 reflected a hold on U.S. shipments of BD Alaris™ infusion pumps pending compliance with certain 510(k) filing requirements of the FDA. This unfavorable impact was partially offset by international sales of infusion pumps and pandemic-related infusion pump orders placed in the United States with medical necessity certification. We continue to make progress on our regulatory filing related to the BD Alaris™ infusion pumps and we currently expect the filing to be made with the FDA either at the end of the second quarter or early in the third quarter of BD's fiscal

year 2021. Fiscal year 2020 revenues in the Diabetes Care unit were unfavorably impacted by pricing pressures in the United States. The Pharmaceutical Systems unit's revenues in 2020 reflected continued strength in demand for prefillable products.

The Medical segment's revenues in 2019 were favorably impacted by the inclusion of revenues associated with certain C.R. Bard, Inc. ("Bard") products within the Medication Delivery Solutions unit in the first quarter of fiscal year 2019 but not in the first quarter of the prior-year period as operating activities of Bard, which was acquired on December 29, 2017, were not included in our consolidated results of operations until January 1, 2018. The Medication Delivery Solution unit's 2019 revenues also reflected strong growth in global sales of vascular access devices. The Medication Management Solutions unit's revenues in 2019 reflected sales growth attributable to the installations of infusion and dispensing systems, as well as growth in sales of disposables. The Pharmaceutical Systems unit's 2019 revenue growth was driven by sales of prefillable products and self-injection systems. Strength in the Diabetes Care unit's sales of pen needles in emerging markets was partially offset by lower growth in U.S. sales.

Medical segment operating income was as follows:

(Millions of dollars)	2020		2019		2018	
Medical segment operating income	\$	2,274	\$	2,824	\$	2,624
<i>Segment operating income as % of Medical revenues</i>		<i>26.2 %</i>		<i>31.2 %</i>		<i>30.5 %</i>

As discussed in greater detail below, the Medical segment's operating income in 2020 was primarily driven by a decline in gross profit margin. Operating income in 2019 was driven by improved gross profit margin and operating expense performance.

- The Medical segment's gross profit margin in 2020 was lower compared with 2019 which reflected a charge to record a probable estimate of future costs associated with incremental remediation efforts relating to BD Alaris™ infusion pumps. Gross profit margin in 2020 also reflected unfavorable product mix and increased levels of manufacturing overhead costs that were recognized in the period, rather than capitalized within inventory, as a result of the COVID-19 pandemic. Unfavorable product mix in 2020 was also driven by the decline of sales in China due to the volume-based procurement process noted above. Gross profit margin in 2020 was also lower due to charges of \$41 million recorded to write down the carrying value of certain fixed assets, primarily within the Medication Delivery Solutions and Pharmaceutical Systems units. These unfavorable impacts were partially offset by lower manufacturing costs resulting from continuous improvement projects which enhanced the efficiency of our operations. The Medical segment's gross profit margin in 2019 was higher as compared with 2018 primarily due to lower manufacturing costs resulting from continuous improvement projects which enhanced the efficiency of our operations. Additionally, the comparison of gross profit margin in 2019 with gross profit margin in 2018 reflected the unfavorable impacts in 2018 of a fair value step-up adjustment relating to Bard's inventory on the acquisition date and charges to write down the value of fixed assets, primarily in the Diabetes Care unit. These favorable impacts to the Medical segment's gross margin in 2019 were partially offset by unfavorable foreign currency translation, higher raw material costs and pricing pressures.
- Selling and administrative expense as a percentage of revenues in 2020 was slightly lower compared with 2019 primarily due to lower expenses resulting from cost containment measures. Selling and administrative expense as a percentage of revenues in 2019 was relatively flat compared with 2018.
- Research and development expense as a percentage of revenues was higher in 2020 which reflected the decline in revenues in 2020, as well as our continued commitment to drive innovation with new products and platforms. Research and development expense as a percentage of revenues was lower in 2019 compared with 2018 due to recent completion of projects and the timing of project spending.
- The Medical segment's income in 2019 additionally reflected the estimated cumulative costs of a product recall of \$75 million recorded within *Other operating expense, net*. The recall related to a product component, which generally pre-dated our acquisition of CareFusion in fiscal year 2015, within the Medication Management Solutions unit's infusion systems platform.

Life Sciences Segment

The following summarizes Life Sciences revenues by organizational unit:

(Millions of dollars)				2020 vs. 2019			2019 vs. 2018		
	2020	2019	2018	Total Change	Estimated FX Impact	FXN Change	Total Change	Estimated FX Impact	FXN Change
Integrated Diagnostic Solutions (a)									
Preanalytical Systems	\$ 1,487	\$ 1,558	\$ 1,553	(4.6)%	(1.5)%	(3.1)%	0.3 %	(3.0)%	3.3 %
Diagnostic Systems	\$ 2,045	\$ 1,547	\$ 1,536	32.1 %	(1.3)%	33.4 %	0.7 %	(2.6)%	3.3 %
Total Integrated Diagnostic Solutions	\$ 3,532	\$ 3,106	\$ 3,089	13.7 %	(1.4)%	15.1 %	0.5 %	(2.8)%	3.3 %
Biosciences	\$ 1,143	\$ 1,194	\$ 1,241	(4.3)%	(0.8)%	(3.5)%	(3.8)%	(2.2)%	(1.6)%
Total Life Sciences revenues	\$ 4,675	\$ 4,300	\$ 4,330	8.7 %	(1.2)%	9.9 %	(0.7)%	(2.6)%	1.9 %

- (a) Effective October 1, 2019, the Life Sciences segment's former Preanalytical Systems and Diagnostic Systems units were joined to create the new Integrated Diagnostic Solutions unit. Additional disclosures regarding this change are provided in Note 7 to the consolidated financial statements contained in Item 8. Financial Statements and Supplementary Data.

The Life Sciences segment's revenue growth in 2020 was driven by the Integrated Diagnostic Solutions unit's sales related to COVID-19 diagnostic testing on the BD Veritor™ Plus and BD Max™ Systems. This growth in the Integrated Diagnostic Solutions unit was partially offset by pandemic-related declines in routine diagnostic testing and specimen collections. The Biosciences unit's revenues in 2020 reflected a decline in demand for instruments and reagents as routine research and clinical lab activity slowed due to the COVID-19 pandemic.

The Life Sciences segment's revenues in 2019 reflected continued strength in sales of the Preanalytical Systems unit's sales of core products in emerging markets. The Diagnostic Systems unit's 2019 revenues reflected growth in its BD MAX™ molecular platform as well as growth in sales of core microbiology products. This sales growth in the Diagnostic Systems unit was partially offset by an unfavorable comparison of the unit's U.S. revenues in 2019 to revenues in 2018, as the prior-year period benefited from a more severe influenza season. Revenues in the Biosciences unit in 2019 reflected growth in research reagent sales, as well as growth in U.S. research instrument sales, but were unfavorably impacted by the unit's divestiture of the Advanced Bioprocessing business. The Biosciences unit's results for 2018 included revenues associated with the Advanced Bioprocessing business of \$106 million.

Life Sciences segment operating income was as follows:

(Millions of dollars)	2020	2019	2018
Life Sciences segment operating income	\$ 1,405	\$ 1,248	\$ 1,207
Segment operating income as % of Life Sciences revenues	30.0 %	29.0 %	27.9 %

As discussed in greater detail below, the Life Sciences segment's operating income in 2020 reflected improved operating expense performance, partially offset by a decline in gross profit margin. Operating income in 2019 was driven by improved gross profit margin and operating expense performance.

- The Life Sciences segment's gross profit margin as a percentage of revenues in fiscal year 2020 was lower compared with the 2019 which primarily reflected unfavorable product mix and increased levels of manufacturing overhead costs that were recognized in the period, rather than capitalized within

inventory, as a result of the COVID-19 pandemic. Gross margin in 2020 was also unfavorably impacted by a charge of \$39 million recorded to write down the carrying value of certain intangible assets in the Biosciences unit and charges of \$17 million recorded to write down fixed assets in the Integrated Diagnostic Solutions unit. These unfavorable impacts were partially offset by a favorable impact on product mix from the Integrated Diagnostic Solutions unit's sales related to COVID-19 testing. The Life Sciences segment's gross profit margin as a percentage of revenues in fiscal year 2019 was relatively flat compared with gross margin in 2018. Gross margin in 2019 was favorably impacted by lower manufacturing costs resulting from continuous improvement projects which enhanced the efficiency of our operations, as well as by the unfavorable prior-year impact of the Biosciences unit's write-down of certain intangible and other assets. These favorable impacts to gross margin in 2019 were offset by unfavorable foreign currency translation and higher raw material costs.

- Selling and administrative expense as a percentage of Life Sciences revenues in 2020 was lower compared to 2019 primarily due to the increase in revenues that was attributable to COVID-19 testing. Lower selling and administrative expense as a percentage of revenues in 2020 was also the result of expense synergies realized from the combination of the Preanalytical Systems and Diagnostic Systems units, as noted above, and lower expenses resulting from cost containment measures. Selling and administrative expense as a percentage of Life Sciences revenues in 2019 was lower compared to 2018 primarily due to reduced general and administrative spending.
- Research and development expense as a percentage of revenues in 2020 was flat compared with 2019 as the increase in revenues that was attributable to COVID-19 testing was largely offset by investments in COVID-19 testing solutions. Research and development expense as a percentage of revenues in 2019 was lower compared with 2018 primarily due to the Biosciences unit's recognition of write-downs in the prior-year period and also due to the timing of project spending.

Interventional Segment

The following summarizes Interventional revenues by organizational unit:

<u>(Millions of dollars)</u>				<u>2020 vs. 2019</u>			<u>2019 vs. 2018</u>		
	<u>2020</u>	<u>2019</u>	<u>2018</u>	<u>Total Change</u>	<u>Estimated FX Impact</u>	<u>FXN Change</u>	<u>Total Change</u>	<u>Estimated FX Impact</u>	<u>FXN Change</u>
Surgery (a)	\$ 1,121	\$ 1,242	\$ 1,022	(9.7)%	(0.3)%	(9.4)%	21.5 %	(1.2)%	22.7 %
Peripheral Intervention (a)	1,511	1,574	1,239	(4.0)%	(0.9)%	(3.1)%	27.1 %	(2.6)%	29.7 %
Urology and Critical Care (a)	1,130	1,110	777	1.8 %	(0.2)%	2.0 %	43.0 %	(1.4)%	44.4 %
Total Interventional revenues	<u>\$ 3,762</u>	<u>\$ 3,926</u>	<u>\$ 3,037</u>	<u>(4.2)%</u>	<u>(0.5)%</u>	<u>(3.7)%</u>	<u>29.3 %</u>	<u>(1.8)%</u>	<u>31.1 %</u>

(a) The presentation of amounts in 2019 and 2018 reflects the reclassification of \$185 million and \$194 million, respectively, associated with the movement of certain products from the Surgery unit and the Urology and Critical Care unit to the Peripheral Intervention unit, which was effective on October 1, 2019.

The Interventional segment's revenues in 2020, particularly within the Surgery and Peripheral Intervention units, were negatively impacted by decreased demand associated with the deferral of elective medical procedures as a result of the COVID-19 pandemic. Pandemic-related revenue declines in the Urology and Critical Care unit were offset by demand for the unit's home care and targeted temperature management businesses.

The Interventional segment's revenues in 2019 were favorably impacted by the inclusion of revenues associated with Bard's products in the segment's results for the first quarter of fiscal year 2019, as noted above. Interventional segment revenues in 2019 also reflected growth in the Urology and Critical Care unit's sales of acute urology products and sales by the unit's home care and targeted temperature management businesses. Fiscal year 2019 revenues in the Surgery unit reflected growth in sales of the unit's biosurgery and infection prevention products. The Peripheral Intervention unit's 2019 revenues reflected growth in emerging

market sales. This growth was partially offset by an unfavorable impact related to a letter issued in March 2019 by the FDA to healthcare professionals regarding the use of paclitaxel-coated devices in the treatment of peripheral artery disease, which impacted sales of our drug-coated balloon products.

Interventional segment operating income was as follows:

<u>(Millions of dollars)</u>	<u>2020</u>	<u>2019</u>	<u>2018</u>
Interventional segment operating income	\$ 724	\$ 903	\$ 306
<i>Segment operating income as % of Interventional revenues</i>	<i>19.2 %</i>	<i>23.0 %</i>	<i>10.1 %</i>

As discussed in greater detail below, the Interventional segment's operating income in 2020 was primarily driven by a decline in gross profit margin. Operating income in 2019 was driven by improved gross profit margin and operating expense performance.

- Gross profit margin was lower in 2020 as compared with 2019 primarily due to unfavorable product mix and increased levels of manufacturing overhead costs that were recognized in the period, rather than capitalized within inventory, as a result of the COVID-19 pandemic. Gross profit margin was higher in 2019 as compared with 2018 primarily due to the unfavorable prior-year impact of recognizing a fair value step-up adjustment relating to Bard's inventory on the acquisition date and lower manufacturing costs resulting from continuous improvement projects, which enhanced the efficiency of our operations, and synergy initiatives. These favorable impacts to the Interventional segment's gross margin were partially offset by unfavorable product mix and unfavorable foreign currency translation.
- Selling and administrative expense as a percentage of revenues in 2020 was lower compared with 2019 primarily due to lower expenses resulting from cost containment measures. Selling and administrative expense as a percentage of revenues in 2019 was relatively flat compared with 2018.
- Lower research and development expense as a percentage of revenues in 2020 as compared with 2019 primarily reflected the prior-period impact of a write-down recorded by the Surgery unit. This write-down drove higher research and development expense as a percentage of revenues in 2019 as compared with 2018.
- The Interventional segment's lower income in 2020 additionally reflected the expiration in 2019 of a royalty income stream acquired in the Bard transaction.

Geographic Revenues

BD's worldwide revenues by geography were as follows:

<u>(Millions of dollars)</u>				<u>2020 vs. 2019</u>			<u>2019 vs. 2018</u>		
	<u>2020</u>	<u>2019</u>	<u>2018</u>	<u>Total Change</u>	<u>Estimated FX Impact</u>	<u>FXN Change</u>	<u>Total Change</u>	<u>Estimated FX Impact</u>	<u>FXN Change</u>
United States	\$ 9,716	\$ 9,730	\$ 8,768	(0.1)%	—	(0.1)%	11.0 %	—	11.0 %
International	7,401	7,560	7,215	(2.1)%	(2.2)%	0.1 %	4.8 %	(5.0)%	9.8 %
Total revenues	\$ 17,117	\$ 17,290	\$ 15,983	(1.0)%	(1.0)%	— %	8.2 %	(2.3)%	10.5 %

U.S. revenues in 2020 were relatively flat compared with 2019 as the Life Sciences segment's Integrated Diagnostic Solutions unit's sales related to COVID-19 diagnostic testing largely offset the declines noted above for the Medical segment's Medication Management Solutions and Medication Delivery Solutions units, as well as for the Interventional segment's Surgery and Peripheral Intervention units.

U.S. revenues in 2019 reflected growth in all three segments. U.S. revenues in 2019 were favorably impacted by the inclusion of revenues associated with Bard's products in results for the first quarter of fiscal year 2019, as noted above. Revenue growth in 2019 was also attributable to sales in the Medical segment's Medication Management Solutions unit as well as to sales in the Interventional segment's Urology and Critical Care and Surgery units. U.S. revenue growth in 2019 was unfavorably impacted by results in the Medical

segment's Diabetes Care unit, the Life Sciences segment's Diagnostic Systems unit and the Interventional segment's Peripheral Intervention unit, as previously noted in the discussions above.

International revenues in 2020 were favorably impacted by sales in the Medical segment's Pharmaceutical Systems and Medication Management Solutions units as well as by sales in the Life Sciences segment's Integrated Diagnostic Solutions unit, as discussed further above. International revenues in 2020 were unfavorably impacted by revenue declines in China and Europe for the Medical segment's Medication Delivery Solutions unit, as previously discussed.

International revenue growth in 2019 reflected growth in all three segments. International revenues in 2019 were favorably impacted by the inclusion of revenues associated with Bard's products in results for the first quarter of fiscal year 2019, as noted above. Fiscal year 2019 international revenue growth was also driven by sales in the Medical segment's Medication Delivery Solutions and Pharmaceutical Systems units as well as by sales in the Life Sciences segment's Diagnostic Systems and Preanalytical Systems units.

Emerging market revenues were \$2.42 billion, \$2.71 billion and \$2.53 billion in 2020, 2019 and 2018, respectively. Foreign currency translation unfavorably impacted emerging market revenues in 2020 and 2019 by an estimated \$100 million and \$155 million, respectively. Revenues in emerging markets in 2020 were unfavorably impacted by a decline in healthcare utilization as a result of the COVID-19 pandemic. As previously discussed above, revenues in our Medication Delivery Solutions unit were also unfavorably impacted by a new volume-based procurement process which has been adopted by several of China's provinces. To date, the impact of these procurement initiatives to our revenues in China has been limited to our Medication Delivery Solutions unit. Emerging market revenue growth in 2019 was favorably impacted by the inclusion of revenues associated with Bard's products in our results for the first quarter of fiscal year 2019, as noted above. Underlying growth in 2019 was particularly driven by sales in China and EMA.

Specified Items

Reflected in the financial results for 2020, 2019 and 2018 were the following specified items:

(Millions of dollars)	2020	2019	2018
Integration costs ^(a)	\$ 214	\$ 323	\$ 344
Restructuring costs ^(a)	95	180	344
Transaction costs ^(a)	1	1	56
Financing costs ^(b)	—	—	49
Purchase accounting adjustments ^(c)	1,356	1,499	1,733
Transaction gain/loss, product and other litigation-related matters ^(d)	631	646	—
Investment gains/losses and asset impairments ^(e)	100	17	(151)
European regulatory initiative-related costs ^(f)	106	51	—
Impacts of debt extinguishment	8	54	16
Hurricane recovery-related impacts	—	(24)	17
Total specified items	2,510	2,749	2,409
Less: tax impact of specified items and tax reform ^(g)	395	622	(265)
After-tax impact of specified items	\$ 2,114	\$ 2,127	\$ 2,674

- (a) Represents integration, restructuring and transaction costs, recorded in *Acquisitions and other restructurings*, which are further discussed below.
- (b) Represents financing impacts associated with the Bard acquisition, which were recorded in *Interest income* and *Interest expense*.
- (c) Includes amortization and other adjustments related to the purchase accounting for acquisitions impacting identified intangible assets and valuation of fixed assets and debt. BD's amortization expense is primarily recorded in *Cost of products sold*. The amount in 2018 also included fair value step-up adjustments of \$478 million relating to Bard's inventory on the acquisition date.
- (d) Includes amounts recorded to *Other operating expense, net* to record product liability reserves, including related legal defense costs, as further discussed below. The amount in 2020 also includes net charges, which were recorded to *Cost of products sold* and *Other income, net*, related to the estimates of probable future product remediation costs. Additional items recorded to *Other operating expense, net* in

- 2019 included the estimated cumulative costs of a product recall, as well as the pre-tax gain related to BD's sale of its Advanced Bioprocessing business.
- (e) The amounts in 2020, 2019 and 2018 included total charges of \$98 million, \$30 million and \$139 million, respectively, recorded in *Cost of products sold* and *Research and development expense* to write down the carrying value of certain assets, as previously noted in the segment operating income discussions above. The amount in 2019 also included an unrealized gain of \$13 million recorded within *Other income, net* relating to an investment. The amount in 2018 also included a net income amount of \$303 million recorded to *Other income, net* related to BD's sale of its non-controlling interest in Vyair Medical.
 - (f) Represents costs required to develop processes and systems to comply with emerging regulations such as the European Union Medical Device Regulation ("EUMDR") and General Data Protection Regulation ("GDPR"). These costs were recorded in *Cost of products sold* and *Research and development expense*.
 - (g) The amounts in 2019 and 2018 included additional tax (benefit) expense, net, of \$(50) million and \$640 million, respectively relating to new U.S. tax legislation which is further discussed in Note 17 to the consolidated financial statements contained in Item 8. Financial Statements and Supplementary Data.

Gross Profit Margin

The comparison of gross profit margins in 2020 and 2019 and the comparison of gross profit margins in 2019 and 2018 reflected the following impacts:

	2020	2019
Gross profit margin % prior-year period	47.9 %	45.5 %
Impact of purchase accounting adjustments, asset write-downs and other specified items	(2.0)%	2.9 %
Operating performance	(1.5)%	0.1 %
Foreign currency translation	(0.1)%	(0.6)%
Gross profit margin % current-year period	44.3 %	47.9 %

The impacts of purchase accounting adjustments and other specified items include the following:

- The impact in 2020 includes a net full-year charge of \$244 million to record a probable estimate of future costs within the Medication Management Solutions unit associated with remediation efforts related to BD Alaris™ infusion pumps. Based on the course of our remediation efforts, it is possible that this estimate could change over time. Any remediation actions will continue to be guided by our proactive commitment to patient safety and we will work closely with our customers to minimize the disruption of patient care.
- The impact in 2020 also includes \$59 million of charges that were recorded to write down the carrying value of certain fixed assets in the Medical and Life Sciences segments, as discussed further above, and a \$39 million charge to write down the carrying value of certain intangible assets in the Biosciences unit.
- The impact of purchase accounting adjustments and other specified items in 2019 was favorable due to a comparison to 2018, which included the recognition of fair value step-up adjustments relating to Bard's inventory on the acquisition date, as well as write-downs of certain assets in the Biosciences and Diabetes Care units in 2018 as further discussed above.

Operating performance in 2020 primarily reflected unfavorable product mix and increased levels of manufacturing overhead costs that were recognized in the period, rather than capitalized within inventory, as a result of the COVID-19 pandemic. The higher levels of manufacturing overhead costs incurred in the current-year periods were driven, to a large extent, by the impact of lower plant utilization in our highly automated manufacturing sites. These unfavorable impacts to operating performance were partially offset by the favorable impact on product mix from the Integrated Diagnostic Solutions unit's sales related to COVID-19 testing, as further discussed above, as well as by lower manufacturing costs resulting from continuous operations improvement projects and synergy initiatives.

The operating performance impact in 2019 reflected lower manufacturing costs resulting from the continuous improvement projects and synergy initiatives, as well as the favorable impact of Bard on product mix. Operating performance in 2019 was unfavorably impacted by higher raw material costs and unfavorable product mix.

Operating Expenses

Operating expenses in 2020, 2019 and 2018 were as follows:

<u>(Millions of dollars)</u>	2020	2019	2018	Increase (decrease) in basis points	
				2020 vs. 2019	2019 vs. 2018
Selling and administrative expense	\$ 4,325	\$ 4,332	\$ 4,016		
% of revenues	25.3 %	25.1 %	25.1 %	20	—
Research and development expense	\$ 1,096	\$ 1,062	\$ 1,004		
% of revenues	6.4 %	6.1 %	6.3 %	30	(20)
Acquisitions and other restructurings	\$ 309	\$ 480	\$ 740		
Other operating expense, net	\$ 363	\$ 654	\$ —		

Selling and administrative

Slightly higher selling and administrative expense as a percentage of revenues in 2020 compared with 2019 reflected the decline in revenues in 2020, higher shipping costs as a result of expedited shipments relating to COVID-19, as well as \$25 million of funding for the BD Foundation. These unfavorable impacts were partially offset by lower selling expenses and favorable foreign currency translation. Selling and administrative spending in 2020 reflected our ongoing focus on disciplined spending and the achievement of cost synergies resulting from our acquisition of Bard, as well as cost containment measures we enacted to mitigate the impact of the COVID-19 pandemic on our results of operations. Selling and administrative expense as a percentage of revenues in 2019 was flat compared with 2018 as higher revenues and the achievement of cost synergies offset the impact of higher selling and general administrative costs attributable to Bard, which had a higher selling and administrative spending profile than BD, in our results for the first quarter of fiscal year 2019, as noted above.

Research and development

Research and development expense as a percentage of revenues in 2020 was higher compared with 2019 primarily due to investments in compliance with emerging regulations and investments in COVID-19 testing solutions, as further discussed above. Research and development expense as a percentage of revenues in 2019 was relatively flat compared with 2018. Spending in 2020, 2019 and 2018 reflected our continued commitment to invest in new products and platforms. As further discussed above, expenses in 2019 included certain write-down charges in the Surgery unit and expenses in 2018 included write-down charges in the Biosciences unit.

Acquisitions and other restructurings

Costs relating to acquisitions and other restructurings in 2020 and 2019 largely represented integration and restructuring costs incurred due to our acquisition of Bard in the first quarter of fiscal year 2018. Restructuring costs in 2020 also included costs related to simplification and other cost saving initiatives. Costs relating to acquisitions and other restructurings in 2018 also included integration and restructuring costs related to our fiscal year 2015 CareFusion acquisition and portfolio rationalization initiatives. For further disclosures regarding the costs relating to acquisitions and other restructurings, refer to Notes 10 and 12 to the consolidated financial statements contained in Item 8. Financial Statements and Supplementary Data.

Other operating expense, net

Other operating expense in 2020 primarily represents charges of \$378 million to record product liability reserves, including related legal defense costs. Net other operating expense in 2019 included charges of approximately \$914 million relating to product liability matters, a charge to record the estimated cost of \$75

million relating to a product recall in the Medical segment, as further discussed above, and a pre-tax gain of \$336 million recognized on BD's sale of its Advanced Bioprocessing business. Additional disclosures regarding the product liability matters and divestiture transaction are provided in Notes 5 and 11, respectively, to the consolidated financial statements contained in Item 8. Financial Statements and Supplementary Data.

Net Interest Expense

(Millions of dollars)	2020	2019	2018
Interest expense	\$ (528)	\$ (639)	\$ (706)
Interest income	7	12	65
Net interest expense	<u>\$ (521)</u>	<u>\$ (627)</u>	<u>\$ (641)</u>

Lower interest expense in 2020 and 2019 compared with the prior-year periods reflected debt repayments during fiscal year 2019, as well as lower overall interest rates on debt outstanding as a result of refinancing activities. The decrease in interest expense in 2019 compared with 2018 also reflected higher fees incurred in 2018 to draw from a term loan facility we entered in September 2018. Additional disclosures regarding our financing arrangements and debt instruments are provided in Note 16 to the consolidated financial statements contained in Item 8. Financial Statements and Supplementary Data.

The decrease in interest income in 2019 compared with 2018 reflected higher levels of cash on hand in the first quarter of fiscal year 2018 in anticipation of closing the Bard acquisition at the end of the quarter.

Income Taxes

The income tax rates in 2020, 2019 and 2018 were as follows:

	2020	2019	2018
Effective income tax rate	11.3 %	(4.8)%	73.5 %
<i>Impact, in basis points, from specified items and tax reform</i>	<i>(320)</i>	<i>(1,920)</i>	<i>5,680</i>

The impact from specified items in 2020 was less favorable compared with the benefit associated with specified items in 2019. The effective income tax rate in 2019 reflected a favorable impact relating to the timing of certain discrete items, as well as the recognition of \$50 million of tax benefit recorded for the impacts of U.S. tax legislation that was enacted in December 2017, compared with additional tax expense of \$640 million that was recognized as a result of this legislation in 2018. For further disclosures regarding our accounting for this U.S. tax legislation, refer to Note 17 to the consolidated financial statements contained in Item 8. Financial Statements and Supplementary Data.

Net Income and Diluted Earnings per Share

Net Income and Diluted Earnings per Share in 2020, 2019 and 2018 were as follows:

	2020	2019	2018
Net income (Millions of dollars)	\$ 874	\$ 1,233	\$ 311
Diluted Earnings per Share	\$ 2.71	\$ 3.94	\$ 0.60
Unfavorable impact-specified items	\$ (7.49)	\$ (7.74)	\$ (10.11)
(Unfavorable) favorable impact-foreign currency translation	\$ (0.15)	\$ (0.62)	\$ 0.32
Dilutive impact from share issuances	\$ —	\$ —	\$ (0.30)

The dilutive impact from share issuances in 2018 represents the impact of BD shares issued in connection with the Bard acquisition. Our equity transactions and the Bard acquisition are further discussed in Notes 3 and 10 to the consolidated financial statements contained in Item 8. Financial Statements and Supplementary Data.

Financial Instrument Market Risk

We selectively use financial instruments to manage market risk, primarily foreign currency exchange risk and interest rate risk relating to our ongoing business operations. The counterparties to these contracts are highly rated financial institutions. We do not enter into financial instruments for trading or speculative purposes.

Foreign Exchange Risk

BD and its subsidiaries transact business in various foreign currencies throughout Europe, Greater Asia, Canada and Latin America. We face foreign currency exposure from the effect of fluctuating exchange rates on payables and receivables relating to transactions that are denominated in currencies other than our functional currency. These payables and receivables primarily arise from intercompany transactions. We hedge substantially all such exposures, primarily through the use of forward contracts. We also face currency exposure that arises from translating the results of our worldwide operations, including sales, to the U.S. dollar at exchange rates that have fluctuated from the beginning of a reporting period. From time to time, we may purchase forward contracts and options to hedge certain forecasted transactions that are denominated in foreign currencies in order to partially protect against a reduction in the value of future earnings resulting from adverse foreign exchange rate movements. Gains or losses on derivative instruments are largely offset by the gains or losses on the underlying hedged transactions. We did not enter into contracts to hedge cash flows against foreign currency fluctuations in fiscal year 2020 or 2019.

Derivative financial instruments are recorded on our balance sheet at fair value. For foreign currency derivatives, market risk is determined by calculating the impact on fair value of an assumed change in foreign exchange rates relative to the U.S. dollar. Fair values were estimated based upon observable inputs, specifically spot currency rates and foreign currency prices for similar assets and liabilities.

With respect to the foreign currency derivative instruments outstanding at September 30, 2020 and 2019, the impact that changes in the U.S. dollar would have on pre-tax earnings was estimated as follows:

(Millions of dollars)	Increase (decrease)	
	2020	2019
10% appreciation in U.S. dollar	\$ (52)	\$ (16)
10% depreciation in U.S. dollar	\$ 52	\$ 16

These calculations do not reflect the impact of exchange gains or losses on the underlying transactions that would substantially offset the results of the derivative instruments.

Interest Rate Risk

When managing interest rate exposures, we strive to achieve an appropriate balance between fixed and floating rate instruments. We may enter into interest rate swaps to help maintain this balance and manage debt and interest-bearing investments in tandem, since these items have an offsetting impact on interest rate exposure. For interest rate derivative instruments, fair values are measured based upon the present value of expected future cash flows using market-based observable inputs including credit risk and interest rate yield curves. Market risk for these instruments is determined by calculating the impact to fair value of an assumed change in interest rates across all maturities.

The impact that changes in interest rates would have on interest rate derivatives outstanding at September 30, 2020 and 2019, as well as the effect that changes in interest rates would have on our earnings or cash flows over a one-year period, based upon our overall interest rate exposure, were estimated as follows:

(Millions of dollars)	Increase (decrease) to fair value of interest rate derivatives outstanding				Increase (decrease) to earnings or cash flows			
	2020		2019		2020	2019		
10% increase in interest rates	\$	13	\$	19	\$	—	\$	(4)
10% decrease in interest rates	\$	(14)	\$	(19)	\$	—	\$	4

Liquidity and Capital Resources

The following table summarizes our consolidated statement of cash flows in 2020, 2019 and 2018:

(Millions of dollars)	2020		2019		2018	
Net cash provided by (used for)						
Operating activities	\$	3,539	\$	3,330	\$	2,865
Investing activities	\$	(1,232)	\$	(741)	\$	(15,733)
Financing activities	\$	22	\$	(3,223)	\$	(58)

Net Cash Flows from Operating Activities

Cash flows from operating activities in 2020 reflected net income, adjusted by a change in operating assets and liabilities that was a net source of cash. This net source of cash primarily reflected higher levels of accounts payable and accrued expenses and lower levels of prepaid expenses, partially offset by higher levels of inventory and trade receivables.

Cash flows from operating activities in 2019 reflected net income, adjusted by a change in operating assets and liabilities that was a net use of cash. This net use of cash primarily reflected lower levels of accounts payable and accrued expenses and higher levels of inventory, partially offset by lower levels of prepaid expenses. The lower levels of accounts payable and accrued expenses were primarily attributable to cash paid related to income taxes and our product liability matters, as well as the timing and amount of interest payments due in the period. Cash flows from operating activities in 2019 additionally reflected \$200 million of discretionary cash contributions to fund our pension obligation.

Cash flows from operating activities in 2018 reflected net income, adjusted by a change in operating assets and liabilities that was a net source of cash. This net source of cash primarily reflected higher levels of accounts payable and accrued expenses, primarily due to higher income taxes payable as a result of new U.S. tax legislation, as well as lower levels of inventory, partially offset by higher levels of trade receivables. The change in cash flows from operating activities in 2018 also reflected a change to deferred tax asset and liability balances which were remeasured under new tax legislation, which is further discussed in Note 17 to the consolidated financial statements contained in Item 8. Financial Statements and Supplementary Data. The change in cash flows from operating activities in 2018 additionally reflected discretionary cash contributions of \$287 million to fund our pension obligation.

Net Cash Flows from Investing Activities

Capital expenditures

Our investments in capital expenditures are focused on projects that enhance our cost structure and manufacturing capabilities, and support our strategy of geographic expansion with select investments in growing markets. Capital expenditures of \$810 million, \$957 million and \$895 million in 2020, 2019 and 2018, respectively, primarily related to manufacturing capacity expansions. Details of spending by segment are contained in Note 7 to the consolidated financial statements contained in Item 8. Financial Statements and Supplementary Data.

Acquisitions

Cash outflows for acquisitions in 2020 primarily reflected our acquisition of Straub Medical AG in the third quarter of 2020. Cash outflows for acquisitions in 2018 primarily related to our acquisition of Bard. For further discussion regarding the Bard acquisition, refer to Note 10 to the consolidated financial statements contained in Item 8. Financial Statements and Supplementary Data.

Divestitures

Cash inflows relating to divestitures in 2019 and 2018 were \$477 million and \$534 million, respectively. For further discussion, refer to Note 11 to the consolidated financial statements contained in Item 8. Financial Statements and Supplementary Data.

Net Cash Flows from Financing Activities

Net cash from financing activities in 2020, 2019 and 2018 included the following significant cash flows:

<u>(Millions of dollars)</u>	<u>2020</u>	<u>2019</u>	<u>2018</u>
Cash inflow (outflow)			
Change in credit facility borrowings	\$ (485)	\$ 485	\$ —
Proceeds from long-term debt and term loans	\$ 3,389	\$ 2,224	\$ 5,086
Payments of debt and term loans	\$ (4,664)	\$ (4,744)	\$ (3,996)
Proceeds from issuances of equity securities	\$ 2,917	\$ —	\$ —
Dividends paid	\$ (1,026)	\$ (984)	\$ (927)

Additional disclosures regarding the equity and debt-related financing activities detailed above are provided in Notes 3 and 16 to the consolidated financial statements contained in Item 8. Financial Statements and Supplementary Data.

Debt-Related Activities

Certain measures relating to our total debt were as follows:

	<u>2020</u>	<u>2019</u>	<u>2018</u>
Total debt (Millions of dollars)	\$ 17,931	\$ 19,390	\$ 21,496
Short-term debt as a percentage of total debt	3.9 %	6.8 %	12.1 %
Weighted average cost of total debt	2.8 %	2.9 %	3.2 %
Total debt as a percentage of total capital (a)	41.3 %	45.6 %	47.8 %

(a) Represents shareholders' equity, net non-current deferred income tax liabilities, and debt.

The decreases in our total debt at September 30, 2020 and September 30, 2019 reflected repayments and redemptions of certain notes, partially offset by issuances of long-term notes in 2020 and 2019. Additional disclosures regarding our debt instruments are provided in Note 16 to the consolidated financial statements contained in Item 8. Financial Statements and Supplementary Data.

Cash and Short-term Investments

At September 30, 2020, total worldwide cash and short-term investments were \$2.937 billion, including restricted cash, which were largely held in the United States.

Financing Facilities

We have a five-year senior unsecured revolving credit facility in place which will expire in December 2022. The facility agreement includes a provision that enabled BD, subject to additional commitments made by the lenders, to access up to an additional \$500 million in financing through the facility for a maximum aggregate commitment of \$2.75 billion. In April 2020, we entered into a supplement to the facility agreement which increased the revolving commitments available under the facility by \$381 million. As such, borrowings provided for under the agreement increased from \$2.25 billion to \$2.63 billion. We are also able to issue up to \$100 million in letters of credit under this revolving credit facility. We use proceeds from this facility to fund general corporate needs. There were no borrowings outstanding under the revolving credit facility at September 30, 2020.

The agreement for our revolving credit facility and the supplement entered into in April 2020 contained the following financial covenants. We were in compliance with these covenants as of September 30, 2020.

- We are required to maintain an interest expense coverage ratio of not less than 4-to-1 as of the last day of each fiscal quarter.
- We are required to have a leverage coverage ratio of no more than:
 - 6-to-1 from the closing date of the Bard acquisition until and including the first fiscal quarter-end thereafter;
 - 5.75-to-1 for the subsequent four fiscal quarters thereafter;
 - 5.25-to-1 for the subsequent four fiscal quarters thereafter;
 - 4.5-to-1 for the subsequent four fiscal quarters thereafter;
 - 4-to-1 for the subsequent four fiscal quarters thereafter;
 - 3.75-to-1 thereafter.

In March 2020, we entered into a 364-day senior unsecured term loan facility with borrowing capacity available of \$2.0 billion. During the third quarter of fiscal year 2020, we repaid \$1.9 billion of borrowings outstanding under this term loan with cash on hand and terminated the facility. We also have informal lines of credit outside the United States. We may, from time to time, access the commercial paper market as we manage working capital over the normal course of our business activities. We had no commercial paper borrowings outstanding as of September 30, 2020. Also over the normal course of our business activities, we transfer certain trade receivable assets to third parties under factoring agreements. Additional disclosures regarding these sales of trade receivable assets are provided in Note 15 to the consolidated financial statements contained in Item 8. Financial Statements and Supplementary Data.

Access to Capital and Credit Ratings

Our corporate credit ratings with the rating agencies Standard & Poor's Ratings Services ("S&P"), Moody's Investor Service (Moody's) and Fitch Ratings ("Fitch") were as follows at September 30, 2020:

	S&P	Moody's	Fitch
Ratings:			
Senior Unsecured Debt	BBB	Ba1	BBB-
Commercial Paper	A-2	NP	
Outlook	Negative	Positive	Stable

In March 2020, Standard & Poor's Ratings Services affirmed our September 30, 2019 ratings and revised the agency's outlook regarding the likely direction of these ratings from Stable to Negative.

Lower corporate debt ratings and further downgrades of our corporate credit ratings or other credit ratings may increase our cost of borrowing. We believe that given our debt ratings, our financial management policies, our ability to generate cash flow and the non-cyclical, geographically diversified nature of our businesses, we would have access to additional short-term and long-term capital should the need arise. A rating reflects only the view of a rating agency and is not a recommendation to buy, sell or hold securities. Ratings can be revised

upward or downward at any time by a rating agency if such rating agency decides that circumstances warrant such a change.

Contractual Obligations

In the normal course of business, we enter into contracts and commitments that obligate us to make payments in the future. The table below sets forth BD's significant contractual obligations and related scheduled payments as of September 30, 2020:

	Total	2021	2022 to 2023	2024 to 2025	2026 and Thereafter
	(Millions of dollars)				
Short-term debt	\$ 708	\$ 708	\$ —	\$ —	\$ —
Long-term debt (a)	23,303	491	6,385	4,369	12,057
Operating leases	489	115	159	73	142
Purchase obligations (b)	1,436	1,248	183	5	—
Unrecognized tax benefits (c)	—	—	—	—	—
Total (d)	<u>\$ 25,936</u>	<u>\$ 2,562</u>	<u>\$ 6,727</u>	<u>\$ 4,446</u>	<u>\$ 12,200</u>

(a) Long-term debt obligations include expected principal and interest obligations.

(b) Purchase obligations are for purchases made in the normal course of business to meet operational and capital requirements.

(c) Unrecognized tax benefits at September 30, 2020 of \$620 million were all long-term in nature. Due to the uncertainty related to the timing of the reversal of these tax positions, the related liability has been excluded from the table.

(d) Required funding obligations for 2021 relating to pension and other postretirement benefit plans are not expected to be material.

Critical Accounting Policies

The following discussion supplements the descriptions of our accounting policies contained in Note 1 to the consolidated financial statements contained in Item 8. Financial Statements and Supplementary Data. The preparation of the consolidated financial statements requires management to use estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, as well as the disclosure of contingent assets and liabilities at the date of the consolidated financial statements. Some of those judgments can be subjective and complex and, consequently, actual results could differ from those estimates. Management bases its estimates and judgments on historical experience and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. For any given estimate or assumption made by management, it is possible that other people applying reasonable judgment to the same facts and circumstances could develop different estimates. Actual results that differ from management's estimates could have an unfavorable effect on our consolidated financial statements. Management believes the following critical accounting policies reflect the more significant judgments and estimates used in the preparation of the consolidated financial statements:

Revenue Recognition

Our revenues are primarily recognized when the customer obtains control of the product sold, which is generally upon shipment or delivery, depending on the delivery terms specified in the sales agreement. Revenues associated with certain instruments and equipment for which installation is complex, and therefore significantly affects the customer's ability to use and benefit from the product, are recognized when customer acceptance of these installed products has been confirmed. For certain service arrangements, including extended warranty and software maintenance contracts, revenue is recognized ratably over the contract term. The majority of revenues relating to extended warranty contracts associated with certain instruments and equipment is generally recognized within a few years whereas deferred revenue relating to software maintenance contracts is generally recognized over a longer period.

Our agreements with customers within certain organizational units including Medication Management Solutions, Integrated Diagnostic Solutions and Biosciences, contain multiple performance obligations including

both products and certain services noted above. Determining whether products and services are considered distinct performance obligations that should be accounted for separately may require judgment. The transaction price for these agreements is allocated to each performance obligation based upon its relative standalone selling price. Standalone selling price is the amount at which we would sell a promised good or service separately to a customer. We generally estimate standalone selling prices using list prices and a consideration of typical discounts offered to customers. The use of alternative estimates could result in a different amount of revenue deferral.

Our gross revenues are subject to a variety of deductions, which include rebates and sales discounts. These deductions represent estimates of the related obligations and judgment is required when determining the impact on gross revenues for a reporting period. Additional factors considered in the estimate of our rebate liability include the quantification of inventory that is either in stock at or in transit to our distributors, as well as the estimated lag time between the sale of product and the payment of corresponding rebates.

Impairment of Assets

Goodwill assets are subject to impairment reviews at least annually, or whenever indicators of impairment arise. Intangible assets with finite lives, including developed technology, and other long-lived assets, are periodically reviewed for impairment when impairment indicators are present.

We assess goodwill for impairment at the reporting unit level, which is defined as an operating segment or one level below an operating segment, referred to as a component. Our reporting units generally represent one level below reporting segments. Potential impairment of goodwill is generally identified by comparing the fair value of a reporting unit with its carrying value. Our annual goodwill impairment test performed on July 1, 2020 did not result in any impairment charges, as the fair value of each reporting unit exceeded its carrying value.

We generally use the income approach to derive the fair value for impairment assessments. This approach calculates fair value by estimating future cash flows attributable to the assets and then discounting these cash flows to a present value using a risk-adjusted discount rate. We selected this method because we believe the income approach most appropriately measures the value of our income producing assets. This approach requires significant management judgment with respect to future volume, revenue and expense growth rates, changes in working capital use, appropriate discount rates, terminal values and other assumptions and estimates. The estimates and assumptions used are consistent with BD's business plans. The use of alternative estimates and assumptions could increase or decrease the estimated fair value of the asset. Actual results may differ from management's estimates.

Income Taxes

BD maintains valuation allowances where it is more likely than not that all or a portion of a deferred tax asset will not be realized. Changes in valuation allowances are included in our tax provision in the period of change. In determining whether a valuation allowance is warranted, management evaluates factors such as prior earnings history, expected future earnings, carry back and carry forward periods, and tax strategies that could potentially enhance the likelihood of realization of a deferred tax asset.

BD conducts business and files tax returns in numerous countries and currently has tax audits in progress in a number of tax jurisdictions. In evaluating the exposure associated with various tax filing positions, we record accruals for uncertain tax positions based on the technical support for the positions, our past audit experience with similar situations, and the potential interest and penalties related to the matters. BD's effective tax rate in any given period could be impacted if, upon resolution with taxing authorities, we prevailed in positions for which reserves have been established, or we were required to pay amounts in excess of established reserves.

We have reviewed our needs in the United States for possible repatriation of undistributed earnings of our foreign subsidiaries and we continue to invest foreign subsidiaries earnings outside of the United States to fund foreign investments or meet foreign working capital and property, plant and equipment expenditure needs. As a result, we are permanently reinvested with respect to all of our historical foreign earnings as of September 30, 2020. Additional disclosures regarding our accounting for income taxes are provided in Note 17 to the consolidated financial statements contained in Item 8. Financial Statements and Supplementary Data.

Contingencies

We are involved, both as a plaintiff and a defendant, in various legal proceedings that arise in the ordinary course of business, including, without limitation, product liability and environmental matters, as further discussed in Note 5 to the consolidated financial statements contained in Item 8. Financial Statements and Supplementary Data. We assess the likelihood of any adverse judgments or outcomes to these matters as well as potential ranges of probable losses. We establish accruals to the extent probable future losses are estimable (in the case of environmental matters, without considering possible third-party recoveries). A determination of the amount of accruals for these contingencies is made after careful analysis of each individual matter. When appropriate, the accrual is developed with the consultation of outside counsel and, as in the case of certain mass tort litigation, the expertise of an actuarial specialist regarding the nature, timing and extent of each matter. The accruals may change in the future due to new developments in each matter or changes in our litigation strategy. We record expected recoveries from product liability insurance carriers or other parties when realization of recovery is deemed probable.

Given the uncertain nature of litigation generally, we are not able in all cases to estimate the amount or range of loss that could result from an unfavorable outcome of the litigation to which we are a party. In view of these uncertainties, we could incur charges in excess of any currently established accruals and, to the extent available, liability insurance. In the opinion of management, any such future charges, individually or in the aggregate, could have a material adverse effect on BD's consolidated results of operations and consolidated net cash flows.

Benefit Plans

We have significant net pension and other postretirement and postemployment benefit obligations that are measured using actuarial valuations which include assumptions for the discount rate and the expected return on plan assets. These assumptions have a significant effect on the amounts reported. In addition to the analysis below, see Note 9 to the consolidated financial statements contained in Item 8. Financial Statements and Supplementary Data for additional discussion.

The discount rate is selected each year based on investment grade bonds and other factors as of the measurement date (September 30). Specifically for the U.S. pension plan, we will use a discount rate of 2.80% for 2021, which was based on an actuarially-determined, company-specific yield curve to measure liabilities as of the measurement date. To calculate the pension expense in 2021, we will apply the individual spot rates along the yield curve that correspond with the timing of each future cash outflow for benefit payments in order to calculate interest cost and service cost. Additional disclosures regarding the method to be used in calculating the interest cost and service cost components of pension expense for 2021 are provided in Note 9 to the consolidated financial statements contained in Item 8. Financial Statements and Supplementary Data. The expected long-term rate of return on plan assets assumption, although reviewed each year, changes less frequently due to the long-term nature of the assumption. This assumption does not impact the measurement of assets or liabilities as of the measurement date; rather, it is used only in the calculation of pension expense. To determine the expected long-term rate of return on pension plan assets, we consider many factors, including our historical assumptions compared with actual results; benchmark data; expected returns on various plan asset classes, as well as current and expected asset allocations. We will use a long-term expected rate of return on plan assets assumption of 6.25% for the U.S. pension plan in 2021. We believe our discount rate and expected long-term rate of return on plan assets assumptions are appropriate based upon the above factors.

Sensitivity to changes in key assumptions for our U.S. pension and other postretirement and postemployment plans are as follows:

- Discount rate — A change of plus (minus) 25 basis points, with other assumptions held constant, would have an estimated \$12 million favorable (unfavorable) impact on the total U.S. net pension and other postretirement and postemployment benefit plan costs. This estimate assumes no change in the shape or steepness of the company-specific yield curve used to plot the individual spot rates that will be applied to the future cash outflows for future benefit payments in order to calculate interest and service cost.
- Expected return on plan assets — A change of plus (minus) 25 basis points, with other assumptions held constant, would have an estimated \$5 million favorable (unfavorable) impact on U.S. pension plan costs.

Cautionary Statement Regarding Forward-Looking Statements

This report includes forward-looking statements within the meaning of the federal securities laws. BD and its representatives may also, from time to time, make certain forward-looking statements in publicly released materials, both written and oral, including statements contained in filings with the Securities and Exchange Commission, press releases, and our reports to shareholders. Forward-looking statements may be identified by the use of words such as “plan,” “expect,” “believe,” “intend,” “will,” “may,” “anticipate,” “estimate” and other words of similar meaning in conjunction with, among other things, discussions of future operations and financial performance (including volume growth, pricing, sales and earnings per share growth, and cash flows) and statements regarding our strategy for growth, future product development, regulatory approvals, competitive position and expenditures. All statements that address our future operating performance or events or developments that we expect or anticipate will occur in the future are forward-looking statements.

Forward-looking statements are, and will be, based on management’s then-current views and assumptions regarding future events, developments and operating performance, and speak only as of their dates. Investors should realize that if underlying assumptions prove inaccurate, or risks or uncertainties materialize, actual results could vary materially from our expectations and projections. Investors are therefore cautioned not to place undue reliance on any forward-looking statements. Furthermore, we undertake no obligation to update or revise any forward-looking statements after the date they are made, whether as a result of new information, future events and developments or otherwise, except as required by applicable law or regulations.

The following are some important factors that could cause our actual results to differ from our expectations in any forward-looking statements. For further discussion of certain of these factors, see Item 1A. Risk Factors in this report.

- Any impact of the COVID-19 pandemic on our business, including, without limitation, continued decreases in the demand for our products or disruptions to our operations and our supply chain, and factors that could impact the demand and pricing for our COVID-19 diagnostics testing.
- Weakness in the global economy and financial markets, which could increase the cost of operating our business, weaken demand for our products and services, negatively impact the prices we can charge for our products and services, or impair our ability to produce our products.
- Competitive factors that could adversely affect our operations, including new product introductions and technologies (for example, new forms of drug delivery) by our current or future competitors, consolidation or strategic alliances among healthcare companies, distributors and/or payers of healthcare to improve their competitive position or develop new models for the delivery of healthcare, increased pricing pressure due to the impact of low-cost manufacturers, patents attained by competitors (particularly as patents on our products expire), new entrants into our markets and changes in the practice of medicine.
- Risks relating to the significant additional indebtedness we incurred in connection with the financing of the Bard acquisition and the impact it may have on our ability to operate the combined company.
- The adverse financial impact resulting from unfavorable changes in foreign currency exchange rates.
- Regional, national and foreign economic factors, including inflation, deflation, and fluctuations in interest rates, and their potential effect on our operating performance.
- Our ability to achieve our projected level or mix of product sales, as our earnings forecasts are based on projected sales volumes and pricing of many product types, some of which are more profitable than others.
- Changes in reimbursement practices of governments or third-party payers, or adverse decisions relating to our products by such payers, which could reduce demand for our products or the price we can charge for such products.
- Cost containment efforts in the U.S. or in other countries in which we do business, such as alternative payment reform and increased use of competitive bidding and tenders, including, without limitation, any expansion of the volume-based procurement process in China.

- Changes in the domestic and foreign healthcare industry or in medical practices that result in a reduction in procedures using our products or increased pricing pressures, including the continued consolidation among healthcare providers.
- The impact of changes in U.S. federal laws and policy that could affect fiscal and tax policies, healthcare, and international trade, including import and export regulation and international trade agreements. In particular, tariffs or other trade barriers imposed by the U.S. or other countries could adversely impact our supply chain costs or otherwise adversely impact our results of operations.
- Increases in operating costs, including fluctuations in the cost and availability of oil-based resins and other raw materials, as well as certain components, used in our products, the ability to maintain favorable supplier arrangements and relationships (particularly with respect to sole-source suppliers), and the potential adverse effects of any disruption in the availability of such items.
- Security breaches of our information systems or our products, which could impair our ability to conduct business, result in the loss of BD trade secrets or otherwise compromise sensitive information of BD or its customers, suppliers and other business partners, or of customers' patients, or result in product efficacy or safety concerns for certain of our products, and result in actions by regulatory bodies or civil litigation.
- Difficulties inherent in product development, including the potential inability to successfully continue technological innovation, successfully complete clinical trials, obtain regulatory approvals in the United States and abroad, obtain intellectual property protection for our products, obtain coverage and adequate reimbursement for new products, or gain and maintain market approval of products, as well as the possibility of infringement claims by competitors with respect to patents or other intellectual property rights, all of which can preclude or delay commercialization of a product. Delays in obtaining necessary approvals or clearances from United States Food and Drug Administration ("FDA") or other regulatory agencies or changes in the regulatory process may also delay product launches and increase development costs.
- The impact of business combinations or divestitures, including any volatility in earnings relating to acquisition-related costs, and our ability to successfully integrate any business we may acquire.
- Our ability to penetrate or expand our operations in emerging markets, which depends on local economic and political conditions, and how well we are able to make necessary infrastructure enhancements to production facilities and distribution networks.
- Conditions in international markets, including social and political conditions, civil unrest, terrorist activity, governmental changes, restrictions on the ability to transfer capital across borders, tariffs and other protectionist measures, difficulties in protecting and enforcing our intellectual property rights and governmental expropriation of assets. This includes the possible impact of the United Kingdom's exit from the European Union ("EU"), which has created uncertainties affecting our business operations in the United Kingdom and the EU, and possibly other countries. Our international operations also increase our compliance risks, including risks under the Foreign Corrupt Practices Act and other anti-corruption laws, as well as regulatory and privacy laws.
- Deficit reduction efforts or other actions that reduce the availability of government funding for healthcare and research, which could weaken demand for our products and result in additional pricing pressures, as well as create potential collection risks associated with such sales.
- Fluctuations in university or U.S. and international governmental funding and policies for life sciences research.
- Fluctuations in the demand for products we sell to pharmaceutical companies that are used to manufacture, or are sold with, the products of such companies, as a result of funding constraints, consolidation or otherwise.
- The effects of weather, regulatory or other events that adversely impact our supply chain, including our ability to manufacture our products (particularly where production of a product line or sterilization operations are concentrated in one or more plants), source materials or components or services from suppliers (including sole-source suppliers) that are needed for such manufacturing (including sterilization), or provide products to our customers, including events that impact key distributors.

- Natural disasters (including pandemics), war, terrorism, labor disruptions and international conflicts that could cause significant economic disruption and political and social instability, resulting in decreased demand for our products, adversely affect our manufacturing and distribution capabilities, or cause interruptions in our supply chain.
- Pending and potential future litigation or other proceedings asserting, and/or subpoenas seeking information with respect to, alleged violations of law (including in connection with federal and/or state healthcare programs (such as Medicare or Medicaid) and/or sales and marketing practices (such as investigative subpoenas and the civil investigative demands received by BD and Bard)), antitrust claims, securities law claims, product liability (which may involve lawsuits seeking class action status or seeking to establish multi-district litigation proceedings, including claims relating to our hernia repair implant products, surgical continence products for women and vena cava filter products), claims with respect to environmental matters, and patent infringement, and the availability or collectability of insurance relating to any such claims.
- New or changing laws and regulations affecting our domestic and foreign operations, or changes in enforcement practices, including laws relating to trade, monetary and fiscal policies, taxation (including tax reforms that could adversely impact multinational corporations), sales practices, environmental protection, price controls, and licensing and regulatory requirements for new products and products in the postmarketing phase. In particular, the U.S. and other countries may impose new requirements regarding registration, labeling or prohibited materials that may require us to re-register products already on the market or otherwise impact our ability to market our products. Environmental laws, particularly with respect to the emission of greenhouse gases, are also becoming more stringent throughout the world, which may increase our costs of operations or necessitate changes in our manufacturing plants or processes or those of our suppliers, or result in liability to BD.
- Product efficacy or safety concerns regarding our products resulting in product holds or recalls, regulatory action on the part of the FDA or foreign counterparts (including restrictions on future product clearances and civil penalties), declining sales and product liability claims, and damage to our reputation. As a result of the CareFusion acquisition, we are operating under a consent decree with the FDA relating to our U.S. infusion pump business. The consent decree authorizes the FDA, in the event of any violations in the future, to order us to cease manufacturing and distributing products, recall products or take other actions, and we may be required to pay significant monetary damages if we fail to comply with any provision of the consent decree. We are undertaking remediation of our BD Alaris System and cannot fully commercialize the product until a 510(k) filing has been submitted and cleared by the FDA. No assurances can be given as to when clearance of the submission will be obtained from the FDA.
- The effect of adverse media exposure or other publicity regarding BD's business or operations, including the effect on BD's reputation or demand for its products.
- The effect of market fluctuations on the value of assets in BD's pension plans and on actuarial interest rate and asset return assumptions, which could require BD to make additional contributions to the plans or increase our pension plan expense.
- Our ability to obtain the anticipated benefits of restructuring programs, if any, that we may undertake.
- Issuance of new or revised accounting standards by the Financial Accounting Standards Board or the Securities and Exchange Commission.

The foregoing list sets forth many, but not all, of the factors that could impact our ability to achieve results described in any forward-looking statements. Investors should understand that it is not possible to predict or identify all such factors and should not consider this list to be a complete statement of all potential risks and uncertainties.

Item 7A. *Quantitative and Qualitative Disclosures About Market Risk.*

The information required by this item is included in Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations, and in Notes 1, 14 and 15 to the consolidated financial statements contained in Item 8. Financial Statements and Supplementary Data, and is incorporated herein by reference.

Item 8. Financial Statements and Supplementary Data.

Reports of Management

Management's Responsibilities

The following financial statements have been prepared by management in conformity with U.S. generally accepted accounting principles and include, where required, amounts based on the best estimates and judgments of management. The integrity and objectivity of data in the financial statements and elsewhere in this Annual Report are the responsibility of management.

In fulfilling its responsibilities for the integrity of the data presented and to safeguard the Company's assets, management employs a system of internal accounting controls designed to provide reasonable assurance, at appropriate cost, that the Company's assets are protected and that transactions are appropriately authorized, recorded and summarized. This system of control is supported by the selection of qualified personnel, by organizational assignments that provide appropriate delegation of authority and division of responsibilities, and by the dissemination of written policies and procedures. This control structure is further reinforced by a program of internal audits, including a policy that requires responsive action by management.

The Board of Directors monitors the internal control system, including internal accounting and financial reporting controls, through its Audit Committee, which consists of eight independent Directors. The Audit Committee meets periodically with the independent registered public accounting firm, the internal auditors and management to review the work of each and to satisfy itself that they are properly discharging their responsibilities. The independent registered public accounting firm and the internal auditors have full and free access to the Audit Committee and meet with its members, with and without management present, to discuss the scope and results of their audits including internal control, auditing and financial reporting matters.

Management's Report on Internal Control Over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Rule 13a-15(f) under the Securities Act of 1934. Management conducted an assessment of the effectiveness of internal control over financial reporting based on the criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework).

Based on the Company's assessment of the effectiveness of internal control over financial reporting and the criteria noted above, management concluded that internal control over financial reporting was effective as of September 30, 2020.

The financial statements and internal control over financial reporting have been audited by Ernst & Young LLP, an independent registered public accounting firm. Ernst & Young's reports with respect to fairness of the presentation of the financial statements, and the effectiveness of internal control over financial reporting, are included herein.

Report of Independent Registered Public Accounting Firm

To the Shareholders and the Board of Directors of
Becton, Dickinson and Company

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of Becton, Dickinson and Company (the Company) as of September 30, 2020 and 2019, the related consolidated statements of income, comprehensive income and cash flows for each of the three years in the period ended September 30, 2020, and the related notes (collectively referred to as the “consolidated financial statements”). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company at September 30, 2020 and 2019, and the results of its operations and its cash flows for each of the three years in the period ended September 30, 2020, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of September 30, 2020, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) and our report dated November 25, 2020 expressed an unqualified opinion.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matters

The critical audit matters communicated below are matters arising from the current period audit of the financial statements that were communicated or required to be communicated to the audit committee and that: (1) relate to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matters below, providing separate opinions on the critical audit matters or on the accounts or disclosures to which they relate.

Estimation of Product Liability Reserves

Description of the Matter

As described in Note 5 to the consolidated financial statements, the Company is a defendant in various product liability matters in which the plaintiffs allege a wide variety of claims associated with the use of certain Company devices. At September 30, 2020, the Company's product liability reserves totaled approximately \$2.5 billion. The Company engaged an actuarial specialist to perform an analysis to estimate the outstanding liability for indemnity costs related to claims arising from these product liability matters. The methods used by the Company to estimate these reserves are based on reported claims, historical settlement amounts, and stage of litigation, among other items.

Auditing management's estimate of certain of the Company's product liability reserves and the related disclosure was challenging due to the significant judgment required to determine the methods used to estimate the amount of unreported product liability claims and the indemnity costs and the key assumptions utilized in those methods given the stages of these matters and the amount of claims history.

How We Addressed the Matter in Our Audit

We obtained an understanding, evaluated the design and tested the operating effectiveness of the controls over the Company's evaluation of the product liability reserve. For example, we tested controls over management's review of the methods, significant assumptions and the underlying data used by the actuary to estimate the product liability reserve.

To evaluate management's estimate of the product liability reserves, our audit procedures included, among others, testing the completeness and accuracy of the underlying data used by management's actuarial specialist to estimate the amount of unreported claims and the indemnity cost. For example, we compared filed and settled claims data to legal letters obtained from external counsel, and, on a sample basis, compared settlement amounts to the underlying agreements. In addition, we involved our actuarial specialists to assist us in evaluating the methods used to estimate the unreported claims and the indemnity cost used in the calculation of the product liability reserves. We have also assessed the adequacy of the Company's disclosures in relation to these matters.

Income taxes - Uncertain tax positions

Description of the Matter

As discussed in Notes 1 and 17 of the consolidated financial statements, the Company has recorded a liability of \$719 million related to uncertain tax positions as of September 30, 2020. The Company conducts business in numerous countries and is therefore subject to income taxes in multiple jurisdictions, which impacts the provision for income taxes. Due to the multinational operations of the Company, changes in global income tax laws and regulation result in complexity in the accounting for and monitoring of income taxes including the provision for uncertain tax positions.

Auditing the completeness of management's identification of uncertain tax positions involved complex analysis and auditor judgment related to the evaluation of the income tax consequences of significant transactions, including internal restructurings, and changes in income tax law and regulations in various jurisdictions, which is often subject to interpretation.

How We Addressed the Matter in Our Audit

We obtained an understanding, evaluated the design and tested the operating effectiveness of controls over the Company's income tax provision process, such as controls over management's identification and assessment of changes to tax laws and income tax positions to account for uncertain tax positions, including management's review of the related tax technical analyses.

We performed audit procedures, among others, to evaluate the Company's assumptions used to develop its uncertain tax positions and related unrecognized income tax benefit amounts by jurisdiction. We obtained an understanding of the Company's legal structure through our review of organizational charts and related legal documents. We further considered the income tax consequences of significant transactions, including internal restructurings, and assessed management's interpretation of those changes under the relevant jurisdiction's tax law. Due to the complexity of tax law, we involved our tax subject matter professionals to assess the Company's interpretation of and compliance with tax laws in these jurisdictions, as well as to identify tax law changes. We also involved our tax subject matter professionals to evaluate the technical merits of the Company's accounting for its tax positions, including assessing the Company's correspondence with the relevant tax authorities and evaluating third-party advice obtained by the Company. We also evaluated the Company's income tax disclosures included in Note 17 to the consolidated financial statements in relation to these matters.

Goodwill impairment - Interventional segment

Description of the Matter

At September 30, 2020, the Company's goodwill assigned to the Interventional segment was \$12.7 billion. As discussed in Note 1 of the consolidated financial statements, goodwill is tested for impairment at least annually at the reporting unit level using quantitative models.

Auditing management's annual goodwill impairment test was complex and highly judgmental due to the significant estimation required in determining the fair value of the reporting units. In particular, the fair value estimates were sensitive to significant assumptions such as the discount rate, revenue growth rate, operating margin, and terminal value, which are affected by expectations about future market or economic conditions, including the impact of the pandemic.

How We Addressed the Matter in Our Audit

We obtained an understanding, evaluated the design and tested the operating effectiveness of controls over the Company's goodwill impairment review process. For example, we tested controls over management's review of the inputs and assumptions to the goodwill impairment analysis.

To test the estimated fair value of the Company's reporting units, our audit procedures included, among others, assessing fair value methodology, evaluating the prospective financial information used by the Company in its valuation analysis and involving our valuation specialists to assist in testing the significant assumptions discussed above. We compared the significant assumptions used by management to current industry and economic trends, historical financial results, and other relevant factors that would affect the significant assumptions. We assessed the historical accuracy of management's estimates and performed sensitivity analyses of significant assumptions to evaluate the changes in the fair value of the reporting units. In addition, we tested the reconciliation of the fair value of the reporting units to the market capitalization of the Company.

We have served as the Company's auditor since 1959.

New York, New York

November 25, 2020

Report of Independent Registered Public Accounting Firm

To the Shareholders and the Board of Directors of
Becton, Dickinson and Company

Opinion on Internal Control over Financial Reporting

We have audited Becton, Dickinson and Company's internal control over financial reporting as of September 30, 2020, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission, (2013 framework), (the COSO criteria). In our opinion, Becton, Dickinson and Company (the Company) maintained, in all material respects, effective internal control over financial reporting as of September 30, 2020, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated balance sheets of the Company as of September 30, 2020 and 2019, the related consolidated statements of income, comprehensive income and cash flows for each of the three years in the period ended September 30, 2020, and the related notes and our report dated November 25, 2020 expressed an unqualified opinion thereon.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects.

Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control Over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Notes to Consolidated Financial Statements
Becton, Dickinson and Company
Millions of dollars, except per share amounts or as otherwise specified

Note 1 — Summary of Significant Accounting Policies

Basis of Presentation

The accompanying Consolidated Financial Statements and Notes to Consolidated Financial Statements of Becton, Dickinson and Company (the "Company" or "BD") have been prepared in accordance with U.S. generally accepted accounting principles ("U.S. GAAP"). Within the financial statements and tables presented, certain columns and rows may not add due to the use of rounded numbers for disclosure purposes. Percentages and earnings per share amounts presented are calculated from the underlying amounts. Our fiscal year ends on September 30.

Principles of Consolidation

The consolidated financial statements include the Company's accounts and those of its majority-owned subsidiaries after the elimination of intercompany transactions. The Company has no material interests in variable interest entities.

Cash Equivalents

Cash equivalents consist of all highly liquid investments with a maturity of three months or less at time of purchase.

Restricted Cash

Restricted cash consists of cash restricted from withdrawal and usage and largely represents funds that are restricted for certain product liability matters assumed in the acquisition of C.R. Bard, Inc. ("Bard"), which are further discussed in Note 5.

Trade Receivables

The Company grants credit to customers in the normal course of business and the resulting trade receivables are stated at their net realizable value. The allowance for doubtful accounts represents the Company's estimate of probable credit losses relating to trade receivables and is determined based on historical experience and other specific account data. Amounts are written off against the allowances for doubtful accounts when the Company determines that a customer account is uncollectable.

Inventories

Inventories are stated at the lower of approximate cost determined on the first-in, first-out basis or market.

Property, Plant and Equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and amortization. Depreciation and amortization are principally provided on the straight-line basis over estimated useful lives, which range from 20 to 45 years for buildings, four to 13 years for machinery and equipment and one to 20 years for leasehold improvements. Depreciation and amortization expense was \$646 million, \$633 million and \$600 million in fiscal years 2020, 2019 and 2018, respectively.

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

Goodwill and Other Intangible Assets

The Company's unamortized intangible assets include goodwill which arise from acquisitions of businesses. The Company currently reviews goodwill for impairment using quantitative models. Goodwill is reviewed at least annually for impairment at the reporting unit level, which is defined as an operating segment or one level below an operating segment, referred to as a component. The Company's reporting units generally represent one level below reporting segments. Potential impairment of goodwill is generally identified by comparing the fair value of a reporting unit, estimated using an income approach, with its carrying value. The annual impairment review performed on July 1, 2020 indicated that all identified reporting units' fair values exceeded their respective carrying values.

Amortized intangible assets include developed technology assets which arise from acquisitions. These assets represent acquired intellectual property that is already technologically feasible upon the acquisition date or acquired in-process research and development assets that are completed subsequent to acquisition. Developed technology assets are generally amortized over periods ranging from 15 to 20 years, using the straight-line method. Customer relationship assets are generally amortized over periods ranging from 10 to 15 years, using the straight-line method. Other intangibles with finite useful lives, which include patents, are amortized over periods principally ranging from one to 40 years, using the straight-line method. Finite-lived intangible assets, including developed technology assets, are periodically reviewed when impairment indicators are present to assess recoverability from future operations using undiscounted cash flows. The carrying values of these finite-lived assets are compared to the undiscounted cash flows they are expected to generate and an impairment loss is recognized in operating results to the extent any finite-lived intangible asset's carrying value exceeds its calculated fair value.

Foreign Currency Translation

Generally, foreign subsidiaries' functional currency is the local currency of operations and the net assets of foreign operations are translated into U.S. dollars using current exchange rates. The U.S. dollar results that arise from such translation, as well as exchange gains and losses on intercompany balances of a long-term investment nature, are included in the foreign currency translation adjustments in *Accumulated other comprehensive income (loss)*.

Revenue Recognition

The Company recognizes revenue from product sales when the customer obtains control of the product, which is generally upon shipment or delivery, depending on the delivery terms specified in the sales agreement. Revenues associated with certain instruments and equipment for which installation is complex, and therefore significantly affects the customer's ability to use and benefit from the product, are recognized upon customer acceptance of these installed products. Revenue for certain service arrangements, including extended warranty and software maintenance contracts, is recognized ratably over the contract term. When arrangements include multiple performance obligations, the total transaction price of the contract is allocated to each performance obligation based on the estimated relative standalone selling prices of the promised goods or services underlying each performance obligation. Variable consideration such as rebates, sales discounts and sales returns are estimated and treated as a reduction of revenue in the same period the related revenue is recognized. These estimates are based on contractual terms, historical practices, and current trends, and are adjusted as new information becomes available. Revenues exclude any taxes that the Company collects from customers and remits to tax authorities.

Equipment lease transactions with customers are evaluated and classified as either operating or sales-type leases. Generally, these arrangements are accounted for as operating leases and therefore, revenue is recognized at the contracted rate over the rental period defined within the customer agreement.

Additional disclosures regarding the Company's accounting for revenue recognition are provided in Note 6.

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

Shipping and Handling Costs

The Company considers its shipping and handling costs to be contract fulfillment costs and records them within *Selling and administrative expense*. Shipping expense was \$551 million, \$511 million and \$479 million in 2020, 2019 and 2018, respectively.

Derivative Financial Instruments

All derivatives are recorded in the balance sheet at fair value and changes in fair value are recognized currently in earnings unless specific hedge accounting criteria are met. Any deferred gains or losses associated with derivative instruments are recognized in income in the period in which the underlying hedged transaction is recognized. Additional disclosures regarding the Company's accounting for derivative instruments are provided in Note 14.

Income Taxes

The Company has reviewed its needs in the United States for possible repatriation of undistributed earnings of its foreign subsidiaries and continues to invest foreign subsidiaries earnings outside of the United States to fund foreign investments or meet foreign working capital and property, plant and equipment expenditure needs. As a result, the Company is permanently reinvested with respect to all of its historical foreign earnings as of September 30, 2020. Deferred taxes are not provided on undistributed earnings of foreign subsidiaries that are indefinitely reinvested. The determination of the amount of the unrecognized deferred tax liability related to the undistributed earnings is not practicable because of the complexities associated with its hypothetical calculation.

The Company conducts business and files tax returns in numerous countries and currently has tax audits in progress in a number of tax jurisdictions. In evaluating the exposure associated with various tax filing positions, the Company records accruals for uncertain tax positions based on the technical support for the positions, past audit experience with similar situations, and the potential interest and penalties related to the matters.

The Company maintains valuation allowances where it is more likely than not that all or a portion of a deferred tax asset will not be realized. Changes in valuation allowances are included in the tax provision in the period of change. In determining whether a valuation allowance is warranted, management evaluates factors such as prior earnings history, expected future earnings, carryback and carryforward periods and tax strategies that could potentially enhance the likelihood of the realization of a deferred tax asset. Additional disclosures regarding the Company's accounting for income taxes are provided in Note 17.

Earnings per Share

Basic earnings per share are computed by dividing income available to common stockholders by the weighted average number of common shares outstanding. Diluted earnings per share reflect the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock. In computing diluted earnings per share, only potential common shares that are dilutive (i.e., those that reduce earnings per share or increase loss per share) are included in the calculation.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions. These estimates or assumptions affect reported assets, liabilities, revenues and expenses as reflected in the consolidated financial statements. Actual results could differ from these estimates.

Note 2 — Accounting Changes

New Accounting Principles Adopted

In February 2016, the Financial Accounting Standards Board ("FASB") issued a new lease accounting standard which requires lessees to recognize lease assets and lease liabilities on the balance sheet, as well as

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

expanded disclosures regarding leasing arrangements. The Company adopted this standard on October 1, 2019, and elected certain practical expedients permitted under the transition guidance, including a transition method which allows application of the new standard at its adoption date, rather than at the earliest comparative period presented in the financial statements. The Company also elected not to perform any reassessments relative to its expired and existing leases upon its adoption of the new requirements. The Company's adoption of this standard did not materially impact its consolidated financial statements. Additional disclosures regarding the Company's lease arrangements are provided in Note 18.

In August 2018, the FASB issued a new accounting standard to align the requirements for capitalizing implementation costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software (and hosting arrangements that include an internal use software license). The Company early adopted this standard as of April 1, 2020 on a prospective basis. The adoption of this standard did not materially impact the Company's consolidated financial statements.

In July 2018, the FASB issued accounting standard update ("ASU") ASU 2018-09, "Codification Improvements", which, among other items, amended an illustrative example of a fair value hierarchy disclosure to indicate that a certain type of investment should not always be considered to be eligible to use the net asset value ("NAV") per share practical expedient. Also, it further clarified that an entity should evaluate whether a readily determinable fair value exists or whether its investments qualify for the NAV practical expedient. The Company early adopted this standard in the fourth quarter of fiscal year 2020 on a prospective basis, which is reflected in the fair value hierarchy classification of pension assets in Note 9, but does not change the fair value measurements of the investments.

On October 1, 2018, the Company adopted Accounting Standards Codification Topic 606, "Revenue from Contracts with Customers" ("ASC 606") using the modified retrospective method. Under ASC 606, revenue is recognized upon the transfer of control of goods or services to customers and reflects the amount of consideration to which a reporting entity expects to be entitled in exchange for those goods or services. The Company assessed the impact of this new standard on its consolidated financial statements based upon a review of contracts that were not completed as of October 1, 2018. Amounts presented in the Company's financial statements for the prior-year periods were not revised and are reflective of the revenue recognition requirements which were in effect for those periods. This accounting standard adoption, which is further discussed in Note 6, did not materially impact any line items of the Company's consolidated income statements and balance sheet.

On October 1, 2018, the Company retrospectively adopted an accounting standard update which requires all components of net periodic pension and postretirement benefit costs to be disaggregated from the service cost component and to be presented on the income statement outside a subtotal of income from operations, if one is presented. Upon the Company's adoption of the accounting standard update, which did not have a material impact on its consolidated financial statements, all components of the Company's net periodic pension and postretirement benefit costs, aside from service cost, are recorded to *Other income, net* on its consolidated income statements for all periods presented. Revisions of prior-year amounts were estimated based upon previously disclosed amounts.

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

On October 1, 2018, the Company adopted an accounting standard update which requires that the income tax effects of intercompany sales or transfers of assets, except those involving inventory, be recognized in the income statement as income tax expense (or benefit) in the period that the sale or transfer occurs. The Company adopted this accounting standard update, which did not have a material impact on its consolidated financial statements, using the modified retrospective method.

In the second quarter of its fiscal year 2018, the Company prospectively adopted an accounting standard update relating to the stranded income tax effects on items within *Accumulated other comprehensive income (loss)* resulting from the enactment of new U.S. tax legislation, which legislation is further discussed in Note 17. Additional disclosures regarding this accounting standard adoption are provided in Note 3.

New Accounting Principle Not Yet Adopted

In June 2016, the FASB issued a new accounting standard which requires earlier recognition of credit losses on loans and other financial instruments held by entities, including trade receivables. The new standard requires entities to measure all expected credit losses for financial assets held at each reporting date based on historical experience, current conditions, and reasonable and supportable forecasts. Adoption of this new accounting standard on October 1, 2020 will not have a material impact on the Company's consolidated financial statements.

(a) Common stock held in trusts represents rabbi trusts in connection with deferred compensation under the Company's employee salary and bonus deferral plan and directors' deferral plan.

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

Common and Preferred Stock Conversions and Offerings

In accordance with their terms, the Company's 2.475 million mandatory convertible preferred shares that were issued in May 2017 in connection with the Company's acquisition of Bard were converted into 11.703 million shares of BD common stock on the mandatory conversion date of May 1, 2020.

Also in May 2020, the Company completed registered public offerings of equity securities including:

- 6.250 million shares of the Company's common stock for net proceeds of \$1.459 billion (gross proceeds of \$1.500 billion).
- 1.500 million shares of the Company's mandatory convertible preferred stock (ownership is held in the form of depositary shares, each representing a 1/20th interest in a share of preferred stock) for net proceeds of \$1.459 billion (gross proceeds of \$1.500 billion). If and when declared, dividends on the mandatory convertible preferred stock will be payable on a cumulative basis at an annual rate of 6.00% on the liquidation preference of \$1,000 per preferred share (\$50 per depositary share). The shares of preferred stock are convertible to a minimum of 5.2 million and up to a maximum of 6.2 million shares of Company common stock at an exchange ratio, based on the market price of the Company's common stock at the date of conversion, and no later than the mandatory conversion date of June 1, 2023.

The net proceeds from these offerings have been and will be used by the Company for general corporate purposes, which may include funding for the Company's growth strategy through organic investments and acquisitions, working capital, capital expenditures and repayment of outstanding indebtedness.

The components and changes of *Accumulated other comprehensive income (loss)* were as follows:

(Millions of dollars)	Total	Foreign Currency Translation	Benefit Plans	Cash Flow Hedges
Balance at September 30, 2017	\$ (1,723)	\$ (1,001)	\$ (703)	\$ (18)
Other comprehensive (loss) income before reclassifications, net of taxes	(142)	(161)	19	—
Amounts reclassified into income, net of taxes	57	—	52	5
Tax effects reclassified to retained earnings	(103)	—	(99)	(4)
Balance at September 30, 2018	\$ (1,909)	\$ (1,162)	\$ (729)	\$ (17)
Other comprehensive loss before reclassifications, net of taxes	(427)	(93)	(325)	(9)
Amounts reclassified into income, net of taxes	52	—	49	3
Balance at September 30, 2019	\$ (2,283)	\$ (1,256)	\$ (1,005)	\$ (23)
Other comprehensive loss before reclassifications, net of taxes	(338)	(161)	(101)	(76)
Amounts reclassified into income, net of taxes	74	—	66	8
Balance at September 30, 2020	\$ (2,548)	\$ (1,416)	\$ (1,040)	\$ (91)

The amount of foreign currency translation recognized in other comprehensive income during the years ended September 30, 2020, 2019 and 2018 included net gains (losses) relating to net investment hedges, as further discussed in Note 14. The amounts recognized in other comprehensive income relating to cash flow hedges in 2020 and 2019 related to forward starting interest rate swaps. Additional disclosures regarding the Company's derivatives are provided in Note 14.

During the second quarter of fiscal 2018, as permitted under U.S. GAAP, the Company reclassified stranded income tax effects on items within *Accumulated other comprehensive income (loss)* resulting from the enactment of new U.S. tax legislation, which legislation is further discussed in Note 17, to *Retained earnings*. The reclassified tax effects related to prior service credits and net actuarial losses relating to benefit plans, as

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

well as to terminated cash flow hedges. The tax effects relating to these items are generally recognized as such amounts are amortized into earnings.

The tax impacts for amounts recognized in other comprehensive income before reclassifications were as follows:

(Millions of dollars)	2020	2019	2018
<i>Benefit Plans</i>			
Income tax benefit (provision) for net (losses) gains recorded in other comprehensive income	\$ 30	\$ 91	\$ (19)

The tax impacts for cash flow hedges recognized in other comprehensive income before reclassifications in 2020 were \$5 million. The tax impacts recognized in 2019 for cash flow hedges were immaterial to the Company's consolidated financial results. Reclassifications out of *Accumulated other comprehensive income (loss)* and the related tax impacts relating to benefit plans and cash flow hedges in 2020, 2019 and 2018 were also immaterial to the Company's consolidated financial results.

Note 4 — Earnings per Share

The weighted average common shares used in the computations of basic and diluted earnings per share (shares in thousands) for the years ended September 30 were as follows:

	2020	2019	2018
Average common shares outstanding	278,971	269,943	258,354
Dilutive share equivalents from share-based plans (a)	3,431	4,832	6,267
Average common and common equivalent shares outstanding — assuming dilution	282,402	274,775	264,621

- (a) For the years ended September 30, 2020, 2019 and 2018, dilutive share equivalents associated with mandatory convertible preferred stock of 9 million, 12 million and 12 million, respectively, were excluded from the diluted shares outstanding calculation because the result would have been antidilutive. The issuance of the convertible preferred stock is further discussed in Note 3. For the years ended September 30, 2020, 2019 and 2018, there were no options to purchase shares of common stock which were excluded from the diluted earnings per share calculation.

Note 5 — Commitments and Contingencies

Commitments

The Company has certain future purchase commitments entered in the normal course of business to meet operational and capital requirements. As of September 30, 2020, these commitments aggregated to approximately \$1.436 billion and will be expended over the next several years.

Contingencies

Given the uncertain nature of litigation generally, the Company is not able, in all cases, to estimate the amount or range of loss that could result from an unfavorable outcome of the litigation to which the Company is a party. In accordance with U.S. GAAP, the Company establishes accruals to the extent probable future losses are estimable (in the case of environmental matters, without considering possible third-party recoveries). With respect to putative class action lawsuits in the United States and certain of the Canadian lawsuits described below relating to product liability matters, the Company is unable to estimate a range of reasonably possible losses for the following reasons: (i) all or certain of the proceedings are in early stages; (ii) the Company has not received and reviewed complete information regarding all or certain of the plaintiffs and their medical conditions; and/or (iii) there are significant factual issues to be resolved. In addition, there is uncertainty as to the likelihood of a class being certified or the ultimate size of the class. With respect to the civil investigative

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

demand served by the Department of Justice, as discussed below, the Company is unable to estimate a range of reasonably possible losses for the following reasons: (i) all or certain of the proceedings are in early stages; and/or (ii) there are significant factual and legal issues to be resolved.

In view of the uncertainties discussed below, the Company could incur charges in excess of any currently established accruals and, to the extent available, liability insurance. In the opinion of management, any such future charges, individually or in the aggregate, could have a material adverse effect on the Company's consolidated results of operations and consolidated cash flows.

Product Liability Matters

The Company believes that certain settlements and judgments, as well as legal defense costs, relating to product liability matters are or may be covered in whole or in part under its product liability insurance policies with a limited number of insurance carriers, or, in some circumstances, indemnification obligations to the Company from other parties, which if disputed, the Company intends to vigorously contest. Amounts recovered under the Company's product liability insurance policies or indemnification arrangements may be less than the stated coverage limits or less than otherwise expected and may not be adequate to cover damages and/or costs relating to claims. In addition, there is no guarantee that insurers or other parties will pay claims or that coverage or indemnity will be otherwise available.

Hernia Product Claims

As of September 30, 2020, the Company is defending approximately 21,370 product liability claims involving the Company's line of hernia repair devices (collectively, the "Hernia Product Claims"). The majority of those claims are currently pending in a coordinated proceeding in Rhode Island State Court, but claims are also pending in other state and/or federal court jurisdictions. In addition, those claims include multiple putative class actions in Canada. Generally, the Hernia Product Claims seek damages for personal injury allegedly resulting from use of the products. From time to time, the Company engages in resolution discussions with plaintiffs' law firms regarding certain of the Hernia Product Claims, but the Company also intends to vigorously defend Hernia Product Claims that do not settle, including through litigation. The Company expects additional trials of Hernia Product Claims to take place over the next 12 months. In August 2018, a hernia multi-district litigation ("MDL") was ordered to be established in the Southern District of Ohio. Trials are scheduled throughout fiscal year 2021 in various state and/or federal courts, with the first trial currently scheduled for April 2021 in the MDL. A second trial is likely to be scheduled for April 2021 in Rhode Island. The Company cannot give any assurances that the resolution of the Hernia Product Claims that have not settled, including asserted and unasserted claims and the putative class action lawsuits, will not have a material adverse effect on the Company's business, results of operations, financial condition and/or liquidity.

Women's Health Product Claims

As of September 30, 2020, the Company is defending approximately 525 product liability claims involving the Company's line of pelvic mesh devices. The majority of those claims are currently pending in various federal court jurisdictions, and a coordinated proceeding in New Jersey State Court, but claims are also pending in other state court jurisdictions. In addition, those claims include putative class actions filed in the United States. Not included in the figures above are approximately 980 filed and unfiled claims that have been asserted or threatened against the Company but lack sufficient information to determine whether a pelvic mesh device of the Company is actually at issue.

The claims identified above also include products manufactured by both the Company and two subsidiaries of Medtronic plc (as successor in interest to Covidien plc) ("Medtronic"), each a supplier of the Company. Medtronic has an obligation to defend and indemnify the Company with respect to any product defect liability relating to products its subsidiaries had manufactured. In July 2015, the Company reached an agreement with Medtronic in which Medtronic agreed to take responsibility for pursuing settlement of certain of the Women's Health Product Claims that relate to products distributed by the Company under supply agreements with Medtronic. In June 2017, the Company amended the agreement with Medtronic to transfer responsibility for settlement of additional Women's Health Product Claims to Medtronic on terms similar to the

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

July 2015 agreement, including with respect to the obligation to make payments to Medtronic towards these potential settlements. As of September 30, 2020, the Company has paid Medtronic \$148 million towards these potential settlements. The Company also may, in its sole discretion, transfer responsibility for settlement of additional Women's Health Product Claims to Medtronic on similar terms. The agreements do not resolve the dispute between the Company and Medtronic with respect to Women's Health Product Claims that do not settle, if any. The foregoing lawsuits, unfiled claims, putative class actions, and other claims, together with claims that have settled or are the subject of agreements or agreements in principle to settle, are referred to collectively as the "Women's Health Product Claims." The Women's Health Product Claims generally seek damages for personal injury allegedly resulting from use of the products.

As of September 30, 2020, the Company has reached agreements or agreements in principle with various plaintiffs' law firms to settle their respective inventories of cases totaling approximately 15,235 of the Women's Health Product Claims. The Company believes that these Women's Health Product Claims are not the subject of Medtronic's indemnification obligation. These settlement agreements and agreements in principle include unfiled and previously unknown claims held by various plaintiffs' law firms, which are not included in the approximate number of lawsuits set forth in the first paragraph of this section. Each agreement is subject to certain conditions, including requirements for participation in the proposed settlements by a certain minimum number of plaintiffs. The Company continues to engage in discussions with other plaintiffs' law firms regarding potential resolution of unsettled Women's Health Product Claims, which may include additional inventory settlements.

Starting in 2014 in the MDL, the court entered certain pre-trial orders requiring trial work up and remand of a significant number of Women's Health Product Claims, including an order entered in the MDL on January 30, 2018, that requires the work up and remand of all remaining unsettled cases (the "WHP Pre-Trial Orders"). The WHP Pre-Trial Orders may result in material additional costs or trial verdicts in future periods in defending Women's Health Product Claims. Trials are anticipated throughout 2021 in state and federal courts. A trial in the New Jersey coordinated proceeding began in March 2018, and in April 2018 a jury entered a verdict against the Company in the total amount of \$68 million (\$33 million compensatory; \$35 million punitive). The Company is in the process of appealing that verdict. The Company expects additional trials of Women's Health Product Claims to take place over the next 12 months, which may potentially include consolidated trials.

During the course of engaging in settlement discussions with plaintiffs' law firms, the Company has learned, and may in future periods learn, additional information regarding these and other unfiled claims, or other lawsuits, which could materially impact the Company's estimate of the number of claims or lawsuits against the Company.

Filter Product Claims

As of September 30, 2020, the Company is defending approximately 1,650 product liability claims involving the Company's line of inferior vena cava filters (collectively, the "Filter Product Claims"). The majority of those claims were previously pending in an MDL in the United States District Court for the District of Arizona, but those MDL claims either have been, or are in the process of being, remanded to various federal jurisdictions. Filter Product Claims are also pending in various state court jurisdictions, including a coordinated proceeding in Arizona State Court. In addition, those claims include putative class actions filed in the United States and Canada. The Filter Product Claims generally seek damages for personal injury allegedly resulting from use of the products. The Company has limited information regarding the nature and quantity of certain of the Filter Product Claims. The Company continues to receive claims and lawsuits and may in future periods learn additional information regarding other unfiled or unknown claims, or other lawsuits, which could materially impact the Company's estimate of the number of claims or lawsuits against the Company. On May 31, 2019, the MDL Court ceased accepting direct filings or transfers into the Filter Product Claims MDL and, as noted above, remands for non-settled cases have begun and are expected to continue over the next three months. Federal and state court trials are scheduled throughout fiscal year 2021. As of September 30, 2020, the Company entered into settlement agreements and/or settlement agreements in principle for approximately 8,120 cases. On March 30, 2018, a jury in the first MDL trial found the Company liable for negligent failure to warn and entered a verdict in favor of plaintiffs. The jury found the Company was not liable for (a) strict liability

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

design defect; (b) strict liability failure to warn; and (c) negligent design. In August 2020, the Ninth Circuit affirmed that verdict on appeal. On June 1, 2018, a jury in the second MDL trial unanimously found in favor of the Company on all claims. On August 17, 2018, the Court entered summary judgment in favor of the Company on all claims in the third MDL trial. On October 5, 2018, a jury in the fourth MDL trial unanimously found in favor of the Company on all claims. The Company expects additional trials of Filter Product Claims may take place over the next 12 months.

In most product liability litigations (like those described above), plaintiffs allege a wide variety of claims, ranging from allegations of serious injury caused by the products to efforts to obtain compensation notwithstanding the absence of any injury. In many of these cases, the Company has not yet received and reviewed complete information regarding the plaintiffs and their medical conditions and, consequently, is unable to fully evaluate the claims. The Company expects that it will receive and review additional information regarding any remaining unsettled product liability matters.

In connection with the settlement of a prior litigation with certain of the Company's insurance carriers, an agreement with the Company's insurance carriers was reached to reimburse the Company for certain future costs incurred in connection with Filter Product Claims up to an agreed amount. For certain product liability claims or lawsuits, the Company does not maintain or has limited remaining insurance coverage.

Other Legal Matters

Since early 2013, the Company has received subpoenas or Civil Investigative Demands from a number of State Attorneys General seeking information related to the sales and marketing of certain of the Company's products that are the subject of the Hernia Product Claims and the Women's Health Product Claims. On September 24, 2020, the Company and the State Attorneys General announced that this matter has been resolved for a total of \$60 million payable by the Company, which is included in *Accrued expenses* and *Deferred Income Taxes and Other Liabilities* on the Company's consolidated balance sheet as of September 30, 2020.

The Company is a potentially responsible party to a number of federal administrative proceedings in the United States brought under the Comprehensive Environment Response, Compensation and Liability Act, also known as "Superfund," and similar state laws. The affected sites are in varying stages of development. In some instances, the remedy has been completed, while in others, environmental studies are underway or commencing. For several sites, there are other potentially responsible parties that may be jointly or severally liable to pay all or part of cleanup costs. While it is not feasible to predict the outcome of these proceedings, based upon the Company's experience, current information and applicable law, the Company does not expect these proceedings to have a material adverse effect on its financial condition and/or liquidity. However, one or more of the proceedings could be material to the Company's business and/or results of operations.

On February 27, 2020, a putative class action captioned *Kabak v. Becton, Dickinson and Company, et al.*, Civ. No. 2:20-cv-02155 (SRC) (CLW), was filed in the U.S. District Court for the District of New Jersey against the Company and certain of its officers. The complaint, which purports to be brought on behalf of all persons (other than defendants) who purchased or otherwise acquired the Company's common stock from November 5, 2019 through February 5, 2020, asserts claims for purported violations of Sections 10 and 20 of the Securities Exchange Act of 1934 and SEC Rule 10b-5 promulgated thereunder, and seeks, among other things, damages and costs. The complaint alleges that defendants concealed material information regarding AlarisTM infusion pumps, including that (1) certain pumps exhibited software errors, (2) the Company was investing in remediation efforts as opposed to other enhancements and (3) the Company was thus reasonably likely to recall certain pumps and/or experience regulatory delays. These alleged omissions, the complaint asserts, rendered certain public statements about the Company's business, operations and prospects false or misleading, causing investors to purchase stock at an inflated price. The Company believes these claims are without merit and intends to vigorously defend this action.

On November 2, 2020, a civil action captioned *Jankowski v. Forlenza, et al.*, Civ. No. 2:20-cv-15474, was filed in the U.S. District Court for the District of New Jersey by a shareholder, Ronald Jankowski, derivatively on behalf of the Company, against its individual directors and certain of its officers. The complaint seeks

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

recovery for breach of fiduciary duties by directors and various officers; violations of the Securities Exchange Act of 1934; and insider trading. In general, the complaint alleges, among other things, that various directors and/or officers (1) caused the Company to issue purportedly misleading statements and SEC filings regarding Alaris infusion pumps (2) issued a misleading proxy statement (3) engaged in improper insider trading and (4) caused or contributed to various violations of the Securities Exchange Act of 1934, including sections 10(b), 14(a) and 21D. The complaint seeks damages, including restitution and disgorgement of profits, and an injunction requiring the Company to undertake remedial measures with respect to certain corporate governance and internal procedures. The Company believes these claims are without merit and intends to vigorously defend this action. Consistent with New Jersey law, this action will be stayed pending a formal response by the Board of Directors to the shareholder's presuit demand for an investigation of his claims.

The Company is also involved both as a plaintiff and a defendant in other legal proceedings and claims that arise in the ordinary course of business. The Company believes that it has meritorious defenses to these suits pending against the Company and is engaged in a vigorous defense of each of these matters.

Litigation Accruals

The Company regularly monitors and evaluates the status of product liability and other legal matters, and may, from time-to-time, engage in settlement and mediation discussions taking into consideration developments in the matters and the risks and uncertainties surrounding litigation. These discussions could result in settlements of one or more of these claims at any time.

During fiscal years 2020 and 2019, the Company recorded pre-tax charges to *Other operating expense, net*, of approximately \$378 million and \$914 million, respectively, related to certain of the product liability matters discussed above under the heading "Product Liability Matters," including the related legal defense costs. The Company recorded these charges based on additional information obtained during fiscal years 2020 and 2019 including but not limited to: the nature and quantity of unfiled and filed claims and the continued rate of claims being filed in certain product liability matters; the status of certain settlement discussions with plaintiffs' counsel; the allegations and documentation supporting or refuting such allegations; publicly available information regarding similar medical device mass tort settlements; historical information regarding other product liability settlements involving the Company; and the stage of litigation.

Accruals for the Company's product liability claims which are discussed above, as well as the related legal defense costs, amounted to approximately \$2.5 billion at September 30, 2020 and 2019. These accruals, which are generally long-term in nature, are largely recorded within *Deferred Income Taxes and Other Liabilities* on the Company's consolidated balance sheets. As of September 30, 2020 and 2019, the Company had \$92 million and \$53 million, respectively, in qualified settlement funds ("QSFs"), subject to certain settlement conditions, for certain product liability matters. Payments to QSFs are recorded as a component of *Restricted cash*. The Company's expected recoveries related to product liability claims and related legal defense costs were approximately \$139 million and \$150 million at September 30, 2020 and 2019, respectively. A substantial amount of these expected recoveries at September 30, 2020 and 2019 related to the Company's agreements with Medtronic related to certain Women's Health Product Claims.

The expected recoveries at September 30, 2020 related to the indemnification obligation are not in dispute with respect to claims that Medtronic settles pursuant to the agreements.

Note 6 — Revenues

As previously discussed in Note 2, the Company adopted ASC 606 in fiscal year 2019 using the modified retrospective method. The Company sells a broad range of medical supplies, devices, laboratory equipment and diagnostic products which are distributed through independent distribution channels and directly by BD through

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

sales representatives. End-users of the Company's products include healthcare institutions, physicians, life science researchers, clinical laboratories, the pharmaceutical industry and the general public.

Timing of Revenue Recognition

The Company's revenues are primarily recognized when the customer obtains control of the product sold, which is generally upon shipment or delivery, depending on the delivery terms specified in the sales agreement. Revenues associated with certain instruments and equipment for which installation is complex, and therefore significantly affects the customer's ability to use and benefit from the product, are recognized when customer acceptance of these installed products has been confirmed. For certain service arrangements, including extended warranty and software maintenance contracts, revenue is recognized ratably over the contract term. The majority of revenues relating to extended warranty contracts associated with certain instruments and equipment is generally recognized within a few years whereas deferred revenue relating to software maintenance contracts is generally recognized over a longer period.

Measurement of Revenues

The Company acts as the principal in substantially all of its customer arrangements and as such, generally records revenues on a gross basis. Revenues exclude any taxes that the Company collects from customers and remits to tax authorities. The Company considers its shipping and handling costs to be costs of contract fulfillment and has made the accounting policy election to record these costs within *Selling and administrative expense*.

Payment terms extended to the Company's customers are based upon commercially reasonable terms for the markets in which the Company's products are sold. Because the Company generally expects to receive payment within one year or less from when control of a product is transferred to the customer, the Company does not generally adjust its revenues for the effects of a financing component. The Company's estimate of probable credit losses relating to trade receivables is determined based on historical experience and other specific account data. Amounts are written off against the allowances for doubtful accounts when the Company determines that a customer account is uncollectable. Such amounts are not material to the Company's consolidated financial results.

The Company's gross revenues are subject to a variety of deductions which are recorded in the same period that the underlying revenues are recognized. Such variable consideration includes rebates, sales discounts and sales returns. Because these deductions represent estimates of the related obligations, judgment is required when determining the impact of these revenue deductions on gross revenues for a reporting period. Rebates provided by the Company are based upon prices determined under the Company's agreements with its end-user customers. Additional factors considered in the estimate of the Company's rebate liability include the quantification of inventory that is either in stock at or in transit to the Company's distributors, as well as the estimated lag time between the sale of product and the payment of corresponding rebates. The impact of other forms of variable consideration, including sales discounts and sales returns, is not material to the Company's revenues. Additional disclosures relating to sales discounts and sales returns are provided in Note 19.

The Company's agreements with customers within certain organizational units including Medication Management Solutions, Integrated Diagnostic Solutions and Biosciences, contain multiple performance obligations including both products and certain services noted above. The transaction price for these agreements is allocated to each performance obligation based upon its relative standalone selling price. Standalone selling price is the amount at which the Company would sell a promised good or service separately to a customer. The Company generally estimates standalone selling prices using its list prices and a consideration of typical discounts offered to customers.

Effects of Revenue Arrangements on Consolidated Balance Sheets

Due to the nature of the majority of the Company's products and services, the Company typically does not incur costs to fulfill a contract in advance of providing the customer with goods or services. Capitalized

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

contract costs associated with the costs to fulfill contracts for certain products in the Medication Management Solutions organizational unit are immaterial to the Company's consolidated balance sheets. The Company's costs to obtain contracts are comprised of sales commissions which are paid to the Company's employees or third party agents. The majority of the sales commissions incurred by the Company relate to revenue that is recognized over a period that is less than one year and as such, the Company has elected a practical expedient provided under ASC 606 to record the majority of its expense associated with sales commissions as it is incurred. Commissions relating to revenues recognized over a period longer than one year are recorded as assets which are amortized over the period over which the revenues underlying the commissions are recognized. Capitalized contract costs related to such commissions are immaterial to the Company's consolidated balance sheets.

The Company records contract liabilities for unearned revenue that is allocable to performance obligations, such as extended warranty and software maintenance contracts, which are performed over time as discussed further above. These contract liabilities are immaterial to the Company's consolidated financial results. The Company's liability for product warranties provided under its agreements with customers is not material to its consolidated balance sheets.

Remaining Performance Obligations

The Company's obligations relative to service contracts, which are further discussed above, and pending installations of equipment, primarily in the Company's Medication Management Solutions unit, represent unsatisfied performance obligations of the Company. The revenues under existing contracts with original expected durations of more than one year, which are attributable to products and/or services that have not yet been installed or provided, are estimated to be approximately \$1.9 billion at September 30, 2020. The Company expects to recognize the majority of this revenue over the next three years.

Within the Company's Medication Management Solutions, Medication Delivery Solutions, Integrated Diagnostic Solutions, and Biosciences units, some contracts also contain minimum purchase commitments of reagents or other consumables and the future sales of these consumables represent additional unsatisfied performance obligations of the Company. The revenue attributable to the unsatisfied minimum purchase commitment-related performance obligations, for contracts with original expected durations of more than one year, is estimated to be approximately \$2.6 billion at September 30, 2020. This revenue will be recognized over the customer relationship periods.

Disaggregation of Revenues

A disaggregation of the Company's revenues by segment, organizational unit and geographic region is provided in Note 7.

Note 7 — Segment Data

The Company's organizational structure is based upon three worldwide business segments: BD Medical ("Medical"), BD Life Sciences ("Life Sciences") and BD Interventional ("Interventional"). The Company's segments are strategic businesses that are managed separately because each one develops, manufactures and markets distinct products and services.

Medical

Medical produces a broad array of medical technologies and devices that are used to help improve healthcare delivery in a wide range of settings. The primary customers served by Medical are hospitals and clinics; physicians' office practices; consumers and retail pharmacies; governmental and nonprofit public health agencies; pharmaceutical companies; and healthcare workers. Medical consists of the following organizational units: Medication Delivery Solutions; Medication Management Solutions; Diabetes Care; Pharmaceutical Systems.

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

Life Sciences

Life Sciences provides products for the safe collection and transport of diagnostics specimens, and instruments and reagent systems to detect a broad range of infectious diseases, healthcare-associated infections and cancers. In addition, Life Sciences produces research and clinical tools that facilitate the study of cells, and the components of cells, to gain a better understanding of normal and disease processes. That information is used to aid the discovery and development of new drugs and vaccines, and to improve the diagnosis and management of diseases. The primary customers served by Life Sciences are hospitals, laboratories and clinics; blood banks; healthcare workers; public health agencies; physicians' office practices; retail pharmacies; academic and government institutions; and pharmaceutical and biotechnology companies.

Effective October 1, 2019, Life Sciences joined its former Preanalytical Systems and Diagnostic Systems organizational units to create a new Integrated Diagnostic Solutions organizational unit which focuses on driving growth and innovation around integrated specimen management to diagnostic solutions. Life Sciences consists of the following organizational units: Integrated Diagnostic Solutions and Biosciences.

Interventional

Interventional provides vascular, urology, oncology and surgical specialty products that are intended, with the exception of the V. MulleTM surgical and laparoscopic instrumentation products, to be used once and then discarded or are either temporarily or permanently implanted. The primary customers served by Interventional are hospitals, individual healthcare professionals, extended care facilities, alternate site facilities and patients via the segment's Homecare business. The Interventional segment consists of the following organizational units: Surgery; Peripheral Intervention; Urology and Critical Care.

Additional Segment Information

Distribution of products is primarily through independent distribution channels, and directly to end-users by BD and independent sales representatives. No customer accounted for 10% or more of revenues in any of the three years presented.

Segment disclosures are on a performance basis consistent with internal management reporting. The Company evaluates performance of its business segments and allocates resources to them primarily based upon operating income, which represents revenues reduced by product costs and operating expenses.

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

Financial information for the Company's segments is detailed below. The Company has no material intersegment revenues. As discussed in Note 10, the Company completed its acquisition of Bard on December 29, 2017. Bard's operating results were included in the Company's consolidated results of operations beginning on January 1, 2018.

- (a) The amount in 2020 includes a probable estimate of future costs within the Medication Management Solutions unit associated with remediation efforts related to BD Alaris™ infusion pumps of \$244 million, which was recorded to *Cost of products sold*. Based on the course of remediation efforts, it is possible that the estimate of future costs could increase over time.
- (b) The amounts in 2019 included \$75 million of estimated remediation costs recorded to *Other operating expense, net* relating to a recall of a product component, which generally pre-dated the Company's acquisition of CareFusion in fiscal year 2015, within the Medication Management Solutions unit's infusion systems platform.
- (c) The amounts in 2018 included expense related to the recognition of a \$478 million fair value step-up adjustment related to Bard's inventory on the acquisition date. The step-up adjustments recognized by the Medical and Interventional segments in 2018 were \$60 million and \$418 million, respectively.
- (d) The amounts in 2020 included \$41 million of charges to *Cost of products sold* to write down the value of fixed assets primarily in the Medication Delivery Solutions and Pharmaceutical Systems units; 2018

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

included \$58 million of charges to *Cost of products sold* to write down the value of fixed assets primarily in the Diabetes Care unit.

- (e) The amounts in 2020 included charges of \$57 million to write down the carrying value of certain intangible and other assets in the Biosciences and Integrated Diagnostic Solutions units; 2018 included charges of \$81 million to write down the carrying value of certain intangible and other assets in the Biosciences unit.
- (f) The amount in 2019 included a charge of \$30 million recorded to write down the carrying value of certain intangible assets in the Surgery unit.
- (g) Primarily comprised of foreign exchange, certain general and administrative expenses and share-based compensation expense. The amounts in 2020 and 2019 included pre-tax charges of \$378 million and \$914 million, respectively, related to certain product liability matters, which is further discussed in Note 5. The 2019 amount also included the pre-tax gain recognized on the Company's sale of its Advanced Bioprocessing business of approximately \$336 million, which is further discussed in Note 11. The amount in 2018 included the pre-tax gain recognized on the Company's sale of its non-controlling interest in Vyaire Medical of approximately \$303 million.
- (h) Includes cash and investments and corporate assets.

Geographic Information

The countries in which the Company has local revenue-generating operations have been combined into the following geographic areas: the United States (including Puerto Rico); Europe; Greater Asia (which includes countries in Greater China, Japan, South Asia, Southeast Asia, Korea, and Australia and New Zealand); and Other, which is comprised of Latin America (which includes Mexico, Central America, the Caribbean and South America), Canada, and EMA (which includes the Commonwealth of Independent States, Middle East and Africa).

Revenues to unaffiliated customers are generally based upon the source of the product shipment. Long-lived assets, which include net property, plant and equipment, are based upon physical location.

(Millions of dollars)	2020	2019	2018

Note 8 — Share-Based Compensation

The Company grants share-based awards under the 2004 Employee and Director Equity-Based Compensation Plan ("2004 Plan"), which provides long-term incentive compensation to employees and directors consisting of: stock appreciation rights ("SARs"), performance-based restricted stock units, time-vested restricted stock units and other stock awards.

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

The fair value of share-based payments is recognized as compensation expense in net income. The amounts and location of compensation cost relating to share-based payments included in the consolidated statements of income is as follows:

(Millions of dollars)	2020	2019	2018
Cost of products sold	\$ 40	\$ 37	\$ 36
Selling and administrative expense	150	145	136
Research and development expense	34	32	29
Acquisitions and other restructurings	20	50	130
	<u>\$ 245</u>	<u>\$ 265</u>	<u>\$ 332</u>
Tax benefit associated with share-based compensation costs recognized	\$ 57	\$ 62	\$ 79

Upon the Company's acquisition of Bard in 2018, certain pre-acquisition equity awards of Bard were converted into either BD SARs or BD restricted stock awards, as applicable. These awards have substantially the same terms and conditions as the converted Bard awards immediately prior to the acquisition date. Compensation expense of \$16 million, \$40 million and \$126 million associated with these replacement awards was recorded in *Acquisitions and other restructurings* in 2020, 2019 and 2018, respectively.

Stock Appreciation Rights

SARs represent the right to receive, upon exercise, shares of common stock having a value equal to the difference between the market price of common stock on the date of exercise and the exercise price on the date of grant. SARs vest over a period of four years and have a term of ten years. The fair value was estimated on the date of grant using a lattice-based binomial option valuation model that uses the following weighted-average assumptions:

	2020	2019	2018
Risk-free interest rate	1.69%	3.05%	2.32%
Expected volatility	19.0%	18.0%	19.0%
Expected dividend yield	1.24%	1.27%	1.33%
Expected life	7.4 years	7.2 years	7.4 years
Fair value derived	\$48.82	\$51.86	\$46.10

Expected volatility is based upon historical volatility for the Company's common stock and other factors. The expected life of SARs granted is derived from the output of the lattice-based model, using assumed exercise rates based on historical exercise and termination patterns, and represents the period of time that SARs granted are expected to be outstanding. The risk-free interest rate used is based upon the published U.S. Treasury yield curve in effect at the time of grant for instruments with a similar life. The dividend yield is based upon the most recently declared quarterly dividend as of the grant date. The Company issued 0.8 million shares during 2020 to satisfy the SARs exercised.

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

A summary of SARs outstanding as of September 30, 2020 and changes during the year then ended is as follows:

	SARs (in thousands)	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value (Millions of dollars)
Balance at October 1	6,899	\$ 144.84		
Granted	874	255.22		
Exercised	(1,295)	101.81		
Forfeited, canceled or expired	(140)	220.82		
Balance at September 30	6,337	\$ 167.17	5.66	\$ 441
Vested and expected to vest at September 30	6,152	\$ 165.02	5.58	\$ 440
Exercisable at September 30	4,483	\$ 137.60	4.59	\$ 429

A summary of SARs exercised 2020, 2019 and 2018 is as follows:

(Millions of dollars)	2020	2019	2018
Total intrinsic value of SARs exercised	\$ 212	\$ 260	\$ 333
Total fair value of SARs vested	\$ 46	\$ 66	\$ 107

Performance-Based and Time-Vested Restricted Stock Units

Performance-based restricted stock units cliff vest three years after the date of grant. These units are tied to the Company's performance against pre-established targets over a performance period of three years. The performance measures for fiscal year 2020 were average annual currency-neutral revenue growth and average annual return on invested capital, with the combined factor subject to adjustment based on the Company's relative total shareholder return (measures the Company's stock performance during the performance period against that of peer companies). For fiscal years 2019 and 2018, the performance measures were relative total shareholder return and average annual return on invested capital. Under the Company's long-term incentive program, the actual payout under these awards may vary from zero to 200% of an employee's target payout, based on the Company's actual performance over the performance period of three years. In fiscal year 2020, the Company also issued additional performance-based time-vested units to certain key executives, which cliff vest three years after the date of grant and are tied to the Company's performance against average annual growth in the Company's Adjusted EPS over a performance period of three years. No shares will be issuable if the performance targets have not been met. The fair value is based on the market price of the Company's stock on the date of grant. Compensation cost initially recognized assumes that the target payout level will be achieved and is adjusted for subsequent changes in the expected outcome of performance-related conditions. For units for which the performance conditions are modified after the date of grant, any incremental increase in the fair value of the modified units, over the original units, is recorded as compensation expense on the date of the modification for vested units, or over the remaining performance period for units not yet vested.

Time-vested restricted stock unit awards vest on a graded basis over a period of three years, except for certain key executives of the Company, including the executive officers, for which such units generally vest one year following the employee's retirement. The related share-based compensation expense is recorded over the requisite service period, which is the vesting period or is based on retirement eligibility. The fair value of all time-vested restricted stock units is based on the market value of the Company's stock on the date of grant.

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

A summary of restricted stock units outstanding as of September 30, 2020 and changes during the year then ended is as follows:

	Performance-Based		Time-Vested	
	Stock Units (in thousands)	Weighted Average Grant Date Fair Value	Stock Units (in thousands)	Weighted Average Grant Date Fair Value
Balance at October 1	955	\$ 221.73	2,068	\$ 210.48
Granted	371	245.06	736	249.94
Distributed	(77)	174.92	(676)	211.19
Forfeited or canceled	(286)	188.32	(431)	215.56
Balance at September 30	962	(a) \$ 244.42	1,697	\$ 226.01
Expected to vest at September 30	241	(b) \$ 244.82	1,622	\$ 225.22

(a) Based on 200% of target payout for performance based restricted units and 100% of the performance based time-vested units.

(b) Net of expected forfeited units and units in excess of the expected performance payout of 66 thousand and 655 thousand shares, respectively.

The weighted average grant date fair value of restricted stock units granted during the years 2020, 2019 and 2018 are as follows:

	Performance-Based			Time-Vested		
	2020	2019	2018	2020	2019	2018
Weighted average grant date fair value of units granted	\$ 245.06	\$ 237.55	\$ 251.75	\$ 249.94	\$ 235.50	\$ 216.06

The total fair value of stock units vested during 2020, 2019 and 2018 was as follows:

(Millions of dollars)	Performance-Based			Time-Vested		
	2020	2019	2018	2020	2019	2018
Total fair value of units vested	\$ 27	\$ 33	\$ 31	\$ 211	\$ 254	\$ 362

At September 30, 2020, the weighted average remaining vesting term of performance-based and time vested restricted stock units is 1.26 and 0.84 years, respectively.

Unrecognized Compensation Expense and Other Stock Plans

The amount of unrecognized compensation expense for all non-vested share-based awards as of September 30, 2020, is approximately \$245 million, which is expected to be recognized over a weighted-average remaining life of approximately 1.89 years. At September 30, 2020, 10.2 million shares were authorized for future grants under the 2004 Plan. The Company has a policy of satisfying share-based payments through either open market purchases or shares held in treasury. At September 30, 2020, the Company has sufficient shares held in treasury to satisfy these payments.

As of September 30, 2020, 96 thousand shares were held in trust relative to a Director's Deferral plan, which provides a means to defer director compensation, from time to time, on a deferred stock or cash basis. Also as of September 30, 2020, 289 thousand shares were issuable under a Deferred Compensation Plan that allows certain highly-compensated employees, including executive officers, to defer salary, annual incentive awards and certain equity-based compensation.

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

Note 9 — Benefit Plans

The Company has defined benefit pension plans covering certain employees in the United States and certain international locations. Postretirement healthcare and life insurance benefits provided to qualifying domestic retirees as well as other postretirement benefit plans in international countries are not material. The measurement date used for the Company's employee benefit plans is September 30.

As a result of the Company's conclusion to merge the legacy Bard pension plan into the BD defined benefit cash balance pension plan, the assets and liabilities of the legacy Bard U.S. defined pension benefit plan will be remeasured as of October 31, 2020. Amendments to this plan were approved and communicated to affected employees in the first quarter of fiscal year 2021. The legacy Bard U.S. pension plan has been frozen to prevent new participants since January 1, 2011.

Effective January 1, 2018, the legacy BD U.S. pension plan was frozen to limit the participation of employees who are hired or re-hired by the Company, or who transfer employment to the Company, on or after January 1, 2018.

Net pension cost for the years ended September 30 included the following components:

(Millions of dollars)	Pension Plans		
	2020	2019	2018
Service cost	\$ 153	\$ 134	\$ 136
Interest cost	84	107	90
Expected return on plan assets	(188)	(180)	(154)
Amortization of prior service credit	(13)	(13)	(13)
Amortization of loss	97	78	78
Settlements	4	10	2
Net pension cost	<u>\$ 137</u>	<u>\$ 135</u>	<u>\$ 137</u>
Net pension cost included in the preceding table that is attributable to international plans	<u>\$ 41</u>	<u>\$ 32</u>	<u>\$ 34</u>

The amounts provided above for amortization of prior service credit and amortization of loss represent the reclassifications of prior service credits and net actuarial losses that were recognized in *Accumulated other comprehensive income (loss)* in prior periods. The settlement losses recorded in 2020, 2019 and 2018 included lump sum benefit payments associated with certain plans. The Company recognizes pension settlements when payments from the plan exceed the sum of service and interest cost components of net periodic pension cost associated with the plan for the fiscal year.

All components of the Company's net periodic pension and postretirement benefit costs, aside from service cost, are recorded to *Other income, net* on its consolidated statements of income.

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

The change in benefit obligation, change in fair value of pension plan assets, funded status and amounts recognized in the Consolidated Balance Sheets for these plans were as follows:

(Millions of dollars)	Pension Plans	
	2020	2019
Change in benefit obligation:		
Beginning obligation	\$ 3,731	\$ 3,246
Service cost	153	134
Interest cost	84	107
Plan amendments	—	3
Benefits paid	(186)	(153)
Impact of acquisitions (divestitures)	10	(9)
Actuarial loss	104	514
Settlements	(17)	(63)
Other, includes translation	74	(49)
Benefit obligation at September 30	\$ 3,953	\$ 3,731
Change in fair value of plan assets:		
Beginning fair value	\$ 2,926	\$ 2,642
Actual return on plan assets	222	279
Employer contribution	42	258
Benefits paid	(186)	(153)
Impact of acquisitions (divestitures)	7	(7)
Settlements	(17)	(63)
Other, includes translation	51	(30)
Plan assets at September 30	\$ 3,045	\$ 2,926
Funded Status at September 30:		
Unfunded benefit obligation	\$ (908)	\$ (804)
Amounts recognized in the Consolidated Balance Sheets at September 30:		
Other	\$ 16	\$ 11
Salaries, wages and related items	(23)	(22)
Long-term Employee Benefit Obligations	(901)	(793)
Net amount recognized	\$ (908)	\$ (804)
Amounts recognized in Accumulated other comprehensive income (loss) before income taxes at September 30:		
Prior service credit	\$ 31	\$ 44
Net actuarial loss	(1,281)	(1,289)
Net amount recognized	\$ (1,250)	\$ (1,246)

International pension plan assets at fair value included in the preceding table were \$935 million and \$859 million at September 30, 2020 and 2019, respectively. The international pension plan projected benefit obligations were \$1.321 billion and \$1.244 billion at September 30, 2020 and 2019, respectively.

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

The benefit obligation associated with postretirement healthcare and life insurance plans provided to qualifying domestic retirees, which was largely recorded to *Long-Term Employee Benefit Obligations*, was \$148 million and \$153 million at September 30, 2020 and 2019, respectively.

Pension plans with accumulated benefit obligations in excess of plan assets and plans with projected benefit obligations in excess of plan assets consist of the following at September 30:

(Millions of dollars)	Accumulated Benefit Obligation Exceeds the Fair Value of Plan Assets		Projected Benefit Obligation Exceeds the Fair Value of Plan Assets	
	2020	2019	2020	2019
Projected benefit obligation	\$ 3,844	\$ 3,623	\$ 3,920	\$ 3,698
Accumulated benefit obligation	\$ 3,703	\$ 3,476		
Fair value of plan assets	\$ 2,936	\$ 2,821	\$ 2,996	\$ 2,882

The estimated net actuarial loss and prior service credit that will be amortized from *Accumulated other comprehensive income (loss)* into net pension costs over the next fiscal year for pension benefits and other postretirement benefits are not material.

The weighted average assumptions used in determining pension plan information were as follows:

	2020	2019	2018
Net Cost			
Discount rate:			
U.S. plans (a)	3.21 %	4.26 %	3.71 %
International plans	1.39	2.30	2.30
Expected return on plan assets:			
U.S. plans	7.25	7.25	7.20
International plans	5.05	4.98	4.95
Rate of compensation increase:			
U.S. plans	4.29	4.29	4.51
International plans	2.35	2.36	2.31
Benefit Obligation			
Discount rate:			
U.S. plans	2.80	3.21	4.26
International plans	1.44	1.39	2.30
Rate of compensation increase:			
U.S. plans	4.30	4.29	4.29
International plans	2.20	2.35	2.36

(a) The Company calculated the service and interest components utilizing an approach that discounts the individual expected cash flows using the applicable spot rates derived from the yield curve over the projected cash flow period.

Expected Rate of Return on Plan Assets

The expected rate of return on plan assets is based upon expectations of long-term average rates of return to be achieved by the underlying investment portfolios. In establishing this assumption, the Company considers many factors, including historical assumptions compared with actual results; benchmark data; expected returns on various plan asset classes, as well as current and expected asset allocations.

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

Expected Funding

The Company's funding policy for its defined benefit pension plans is to contribute amounts sufficient to meet legal funding requirements, plus any additional amounts that may be appropriate considering the funded status of the plans, tax consequences, the cash flow generated by the Company and other factors. The Company made a discretionary contribution of \$200 million to its BD U.S. pension in October 2018. The Company did not make any required contributions in 2020 and does not anticipate any significant required contributions to its pension plans in 2021.

Expected benefit payments are as follows:

(Millions of dollars)	Pension Plans
2021	\$ 209
2022	162
2023	171
2024	176
2025	186
2026-2030	1,068

Expected benefit payments associated with postretirement healthcare plans are immaterial to the Company's consolidated financial results.

Investments

The Company's primary objective is to achieve returns sufficient to meet future benefit obligations. It seeks to generate above market returns by investing in more volatile asset classes such as equities while at the same time controlling risk through diversification in non-correlated asset classes and through allocations to more stable asset classes like fixed income.

U.S. Plans

The Company's U.S. pension plans comprise 69% of total benefit plan investments, based on September 30, 2020 market values, and have a target asset mix of 40% fixed income, 25% diversifying investments and 35% equities. This mix was established based on an analysis of projected benefit payments and estimates of long-term returns, volatilities and correlations for various asset classes. The asset allocations to diversifying investments include high-yield bonds, hedge funds, real estate, infrastructure, leveraged loans and emerging markets bonds.

The actual portfolio investment mix may, from time to time, deviate from the established target mix due to various factors such as normal market fluctuations, the reliance on estimates in connection with the determination of allocations and normal portfolio activity such as additions and withdrawals. Rebalancing of the asset portfolio on a quarterly basis is required to address any allocations that deviate from the established target allocations in excess of defined allowable ranges. The target allocations are subject to periodic review, including a review of the asset portfolio's performance, by the named fiduciary of the plans. Any tactical deviations from the established asset mix require the approval of the named fiduciary.

The U.S. plans may enter into both exchange traded and non-exchange traded derivative transactions in order to manage interest rate exposure, volatility, term structure of interest rates, and sector and currency exposures within the fixed income portfolios. The Company has established minimum credit quality standards for counterparties in such transactions.

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

The following table provides the fair value measurements of U.S. plan assets, as well as the measurement techniques and inputs utilized to measure fair value of these assets, at September 30, 2020 and 2019. The categorization of fund investments is based upon the categorization of these funds' underlying assets.

(Millions of dollars)	Total U.S. Plan Asset Balances		Investments Measured at Net Asset Value (a)		Quoted Prices in Active Markets for Identical Assets (Level 1)		Significant Other Observable Inputs (Level 2)		Significant Unobservable Inputs (Level 3)	
	2020	2019	2020	2019	2020	2019	2020	2019	2020	2019
Fixed Income:										
Corporate bonds	656	401	—	—	273	48	383	353	—	—
Government and agency-U.S.	95	108	—	—	74	85	21	23	—	—
Government and agency-Foreign	40	85	—	—	—	69	40	16	—	—
Other fixed income	141	37	—	—	—	—	141	37	—	—
Equity securities	737	922	43	782	694	140	—	—	—	—
Cash and cash equivalents	147	254	—	—	147	254	—	—	—	—
Other	291	261	151	124	141	138	—	—	—	—
Fair value of plan assets	<u>\$ 2,108</u>	<u>\$ 2,068</u>	<u>\$ 193</u>	<u>\$ 906</u>	<u>\$ 1,330</u>	<u>\$ 733</u>	<u>\$ 584</u>	<u>\$ 429</u>	<u>\$ —</u>	<u>\$ —</u>

(a) As per applicable disclosure requirements, certain investments that were measured at net asset value per share or its equivalent have not been categorized within the fair value hierarchy. Values of such assets are based on the corroborated net asset value provided by the fund administrator.

Fixed Income Securities

U.S. pension plan assets categorized above as fixed income securities include fund investments comprised of corporate and government and agency investments. Investments in corporate bonds are diversified across industry and sector and consist of investment-grade, as well as high-yield debt instruments. U.S. government investments consist of obligations of the U.S. Treasury, other U.S. government agencies, state governments and local municipalities. Assets categorized as foreign government and agency debt securities included investments in developed and emerging markets.

The values of fixed income investments classified within Level 1 are based on the closing price reported on the major market on which the investments are traded. A portion of the fixed income instruments classified within Level 2 are valued based upon estimated prices from independent vendors' pricing models and these prices are derived from market observable sources including: benchmark yields, reported trades, broker/dealer quotes, issuer spreads, benchmark securities, bids, offers and other market-related data.

Equity Securities

U.S. pension plan assets categorized as equity securities consist of fund investments in publicly-traded U.S. and non-U.S. equity securities. In order to achieve appropriate diversification, these portfolios are invested across market sectors, investment styles, capitalization weights and geographic regions. The values of equity securities classified within Level 1 are based on the closing price reported on the major market on which the investments are traded. Upon the adoption of ASU 2018-09, as previously discussed in Note 2, equity securities measured at NAV in prior periods have been classified within Level 1 at September 30, 2020. These assets have a readily determinable fair value based on published prices obtained from fund managers which represent

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

the price at which the instruments can be redeemed at period end. The U.S. pension plan has no future funding commitments associated with these investments and has the right to redeem them upon one day's notice, at any time and without restriction.

Cash and Cash Equivalents

A portion of the U.S. plans' assets consists of investments in cash and cash equivalents, primarily to accommodate liquidity requirements relating to trade settlement and benefit payment activity, and the values of these assets are based upon quoted market prices.

Other Securities

Other U.S. pension plan assets include fund investments comprised of hedge funds. The values of such instruments classified within Level 1 are based on the closing price reported on the major market on which the investments are traded.

International Plans

International plan assets comprise 31% of the Company's total benefit plan assets, based on market value at September 30, 2020. Such plans have local independent fiduciary committees, with responsibility for development and oversight of investment policy, including asset allocation decisions. In making such decisions, consideration is given to local regulations, investment practices and funding rules.

The following table provides the fair value measurements of international plan assets, as well as the measurement techniques and inputs utilized to measure fair value of these assets, at September 30, 2020 and 2019.

(Millions of dollars)	Total International Plan Asset Balances		Investments Measured at Net Asset Value (a)		Quoted Prices in Active Markets for Identical Assets (Level 1)		Significant Other Observable Inputs (Level 2)		Significant Unobservable Inputs (Level 3) (b)	
	2020	2019	2020	2019	2020	2019	2020	2019	2020	2019
Fixed Income:										
Corporate bonds	\$ 34	\$ 33	\$ —	\$ —	\$ 15	\$ 15	\$ 19	\$ 18	\$ —	\$ —

Other fixed income	102	100	—	—	63	63	39	37	—	—
Equity securities	335	319	—	14	335	305	—	—	—	—
Cash and cash equivalents	12	8	—	—	12	8	—	—	—	—
Real estate	34	30	—	—	—	—	24	30	10	—
Insurance contracts	131	113	—	—	—	—	—	—	131	113
Other	72	53	—	—	70	52	1	1	—	—
Fair value of plan assets	<u>\$ 935</u>	<u>\$ 859</u>	<u>\$ —</u>	<u>\$ 14</u>	<u>\$ 611</u>	<u>\$ 549</u>	<u>\$ 183</u>	<u>\$ 182</u>	<u>\$ 141</u>	<u>\$ 113</u>

(a) As per applicable disclosure requirements, certain investments that were measured at net asset value per share or its equivalent have not been categorized within the fair value hierarchy. Values of such assets are based on the corroborated net asset value provided by the fund administrator.

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

(b) Changes in the fair value of international pension assets measured using Level 3 inputs for the years ended September 30, 2020 and 2019 were immaterial.

Fixed Income Securities

Fixed income investments held by international pension plans include corporate, U.S. government and non-U.S. government securities. The values of fixed income securities classified within Level 1 are based on the closing price reported on the major market on which the investments are traded. Values of investments classified within Level 2 are based upon estimated prices from independent vendors' pricing models and these prices are derived from market observable sources.

Equity Securities

Equity securities included in the international plan assets consist of publicly-traded U.S. and non-U.S. equity securities. The values of equity securities classified within Level 1 are based on the closing price reported on the major market on which the investments are traded. As noted above, equity securities measured at NAV in prior periods have been classified within Level 1 at September 30, 2020 as these assets have a readily determinable fair value based on published prices obtained from fund managers which represent the price at which the instruments can be redeemed at period end. The international plans holding these securities have no future funding commitments associated with these investments and has the right to redeem them upon one day's notice, at any time and without restriction.

Other Securities

The international plans hold a portion of assets in cash and cash equivalents, in order to accommodate liquidity requirements and the values are based upon quoted market prices. Real estate investments consist of investments in funds holding an interest in real properties and the corresponding values represent the estimated fair value based on the fair value of the underlying investment value or cost, adjusted for any accumulated earnings or losses. The values of insurance contracts approximately represent cash surrender value. Other investments include fund investments for which values are based upon either quoted market prices or market observable sources.

Defined Contribution Plans

The cost of voluntary defined contribution plans which provide for a Company match or contribution was \$111 million in 2020, \$126 million in 2019 and \$108 million in 2018. As a short term measure to preserve cash and reduce costs, the Company's matching contributions were temporarily suspended effective May 1, 2020 and matching contributions were reinstated in October 2020.

Note 10 – Acquisitions

Bard

On December 29, 2017, the Company completed its acquisition of Bard, to create a medical technology company which is uniquely positioned to improve both the treatment of disease for patients and the process of care for health care providers. The operating activities of Bard from the acquisition date through December 31,

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

2017 were not material to the Company's consolidated results of operations. As such, Bard's operating results were included in the Company's consolidated results of operations beginning on January 1, 2018.

The acquisition-date fair value of consideration transferred consisted of the components below. The fair value of the shares and equity awards issued as consideration was recognized as a \$6.5 billion increase to *Capital in excess of par value* and a \$2.1 billion decrease to *Common stock in treasury*.

(Millions of dollars)	
Cash consideration	\$ 16,400
Non-cash consideration-fair value of shares issued	8,004
Non-cash consideration-fair value of equity awards issued	613
Total consideration transferred	<u>\$ 25,017</u>

Transaction Costs

Transaction costs related to this acquisition incurred during the years ended September 30, 2018 were approximately \$6 million. These transaction costs were recorded as *Acquisitions and other restructurings* and consisted of legal, advisory and other costs. See Note 12 for discussion regarding restructuring costs incurred relative to the Bard acquisition.

Unaudited Pro Forma Information

As noted above, Bard's operating activities from the acquisition date through December 31, 2017 were not material and the Company included Bard in its consolidated results of operations beginning on January 1, 2018. *Revenues* in 2018 were \$3 billion. *Net Income* in 2018 included loss attributable to Bard of \$(107) million. The following table provides the pro forma results for the fiscal year 2018 as if Bard had been acquired as of October 1, 2016.

(Millions of dollars, except per share data)	
	2018
Revenues	<u>\$ 16,947</u>
Net Income	<u>\$ 390</u>
Diluted Earnings per Share	<u>\$ 0.90</u>

The pro forma results above include the impact of the following adjustments, as necessary: additional amortization and depreciation expense relating to assets acquired; interest and other financing costs relating to the acquisition transaction; and the elimination of one-time or nonrecurring items. The one-time or nonrecurring items eliminated for the year ended September 30, 2018 were primarily comprised of fair value step-up adjustments of \$478 million recorded relative to Bard's inventory on the acquisition date, the transaction costs discussed above, as well as certain Bard-related restructuring costs disclosed in Note 12. In addition, amounts previously reported by Bard as revenues related to a royalty income stream have been reclassified to *Other income (expense), net* to conform to the Company's reporting classification.

The pro forma results do not include any anticipated cost savings or other effects of the planned integration of Bard. Accordingly, the pro forma results above are not necessarily indicative of the results that would have been if the acquisition had occurred on the dates indicated, nor are the pro forma results indicative of results which may occur in the future.

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

Note 11 — Divestitures

Advanced Bioprocessing

In October 2018, the Company completed the sale of its Life Sciences segment's Advanced Bioprocessing business. The Company recognized a pre-tax gain on the sale of approximately \$336 million which was recorded as a component of *Other operating expense, net* in fiscal year 2019.

Vyaire Medical

In April 2018, the Company completed the sale of its non-controlling interest in Vyaire Medical. The Company received gross cash proceeds of approximately \$435 million and recognized a pre-tax gain on the sale of approximately \$303 million, which was recognized in *Other income, net*.

Note 12 — Business Restructuring Charges

In connection with the Company's 2018 acquisition of Bard, the 2015 acquisition of CareFusion and portfolio rationalization initiatives, the Company incurred restructuring costs which were largely recorded within *Acquisitions and other restructurings* on its consolidated statements of income. Restructuring liability activity in 2020, 2019 and 2018 was as follows:

(Millions of dollars)	Employee Termination		Other		Total	
	Bard	Other Initiatives (a)	Bard (b)	Other Initiatives (a)	Bard	Other Initiatives (a)
Balance at September 30, 2017	\$ —	\$ 49	\$ —	\$ 6	\$ —	\$ 55
Charged to expense	136	30	156	22	292	52
Cash payments	(103)	(56)	(3)	(23)	(106)	(79)
Non-cash settlements	—	—	(153)	(1)	(153)	(1)
Balance at September 30, 2018	\$ 33	\$ 23	\$ —	\$ 4	\$ 33	\$ 27
Charged to expense	23	29	95	33	118	62
Cash payments	(34)	(21)	(5)	(31)	(39)	(52)
Non-cash settlements	—	—	(89)	(3)	(89)	(3)
Balance at September 30, 2019	\$ 22	\$ 31	\$ 1	\$ 3	\$ 23	\$ 34
Charged to expense	7	13	42	33	49	46
Cash payments	(14)	(27)	(18)	(31)	(32)	(58)
Non-cash settlements	—	—	(24)	(2)	(24)	(2)
Balance at September 30, 2020	\$ 15	\$ 17	\$ 1	\$ 3	\$ 16	\$ 20

- (a) Restructuring costs in 2020 primarily related to simplification and other cost saving initiatives implemented in fiscal 2020, while 2019 and 2018 included expenses related to the Company's acquisition of CareFusion in fiscal year 2015 and other initiatives.
- (b) Expenses in 2020, 2019 and 2018 largely represented the costs associated with the conversion of certain pre-acquisition equity awards of Bard which, to encourage post-acquisition employee retention, were converted to BD equity awards with substantially the same terms and conditions as were applicable under such Bard awards immediately prior to the acquisition date. Expenses in 2018 also included costs relating to Bard's pension plan, partially offset by a gain on the sale of the Company's soft tissue core needle biopsy product line recorded in fiscal year 2018.

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

Note 13 — Intangible Assets

Intangible assets at September 30 consisted of:

(Millions of dollars)	2020		2019	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
<i>Amortized intangible assets</i>				
Developed technology	\$ 14,105	\$ 3,959	\$ 13,960	\$ 2,906
Customer relationships	4,616	1,509	4,608	1,183
Product rights	119	73	110	60
Trademarks	408	120	407	102
Patents and other	500	320	445	305
Amortized intangible assets	<u>\$ 19,748</u>	<u>\$ 5,981</u>	<u>\$ 19,530</u>	<u>\$ 4,555</u>
<i>Unamortized intangible assets</i>				
Acquired in-process research and development (a)	\$ 44		\$ 1	
Trademarks	2		2	
Unamortized intangible assets	<u>\$ 46</u>		<u>\$ 3</u>	

(a) The increase in the carrying value of assets in 2020 was attributable to an immaterial acquisition which occurred during the second quarter of fiscal year 2020.

Intangible amortization expense was \$1.384 billion, \$1.497 billion and \$1.255 billion in 2020, 2019 and 2018, respectively. The increase in intangible amortization expense beginning in 2019 was attributable to the first full year amortization of assets acquired in the Bard transaction, which is further discussed in Note 10. The estimated aggregate amortization expense for the fiscal years ending September 30, 2021 to 2025 are as follows: 2021 — \$1.387 billion; 2022 — \$1.377 billion; 2023 — \$1.359 billion; 2024 — \$1.357 billion; 2025 — \$1.357 billion.

The following is a reconciliation of goodwill by business segment:

(Millions of dollars)	Medical	Life Sciences	Interventional	Total
Goodwill as of September 30, 2018	\$ 10,054	\$ 775	\$ 12,771	\$ 23,600
Divestitures and related adjustments (a)	—	3	—	3
Purchase price allocation adjustments (b)	(15)	—	(75)	(90)
Currency translation	(50)	(6)	(81)	(137)
Goodwill as of September 30, 2019	<u>\$ 9,989</u>	<u>\$ 772</u>	<u>\$ 12,615</u>	<u>\$ 23,376</u>
Acquisitions (c)	10	58	49	117
Purchase price allocation adjustments	—	1	4	5
Currency translation	44	7	71	122
Goodwill as of September 30, 2020	<u>\$ 10,044</u>	<u>\$ 837</u>	<u>\$ 12,739</u>	<u>\$ 23,620</u>

(a) Represents adjustments to goodwill derecognized upon the Company's sale of certain businesses, as further discussed in Note 11.

(b) The purchase price allocation adjustments were primarily driven by adjustments to tax-related balances recorded upon the finalization of the Bard acquisition allocation within one year of the transaction's closing.

(c) Represents goodwill recognized relative to certain acquisitions which were not material individually or in the aggregate.

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

Note 14 — Derivative Instruments and Hedging Activities

The Company uses derivative instruments to mitigate certain exposures. The Company does not enter into derivative financial instruments for trading or speculative purposes. The effects these derivative instruments and hedged items have on financial position, financial performance, and cash flows are provided below.

Foreign Currency Risks and Related Strategies

The Company has foreign currency exposures throughout Europe, Greater Asia, Canada and Latin America. Transactional currency exposures that arise from entering into transactions, generally on an intercompany basis, in non-hyperinflationary countries that are denominated in currencies other than the functional currency are mitigated primarily through the use of forward contracts. In order to mitigate foreign currency exposure relating to its investments in certain foreign subsidiaries, the Company has hedged the currency risk associated with those investments with instruments, such as foreign currency-denominated debt, cross-currency swaps and currency exchange contracts, which are designated as net investment hedges.

Hedges of the transactional foreign exchange exposures resulting primarily from intercompany payables and receivables are undesignated hedges. As such, the gains or losses on these instruments are recognized immediately in income. These gains and losses are largely offset by gains and losses on the underlying hedged items, as well as the hedging costs associated with the derivative instruments. The net amounts recognized in *Other income, net*, during the years ending September 30, 2020, 2019 and 2018 were immaterial to the Company's consolidated financial results. The total notional amounts of the Company's outstanding foreign exchange contracts as of September 30, 2020 and 2019 were \$2.5 billion and \$2.3 billion, respectively.

Certain of the Company's foreign currency-denominated long-term notes outstanding, which had a total carrying value of \$1.5 billion and \$1.4 billion, as of September 30, 2020 and 2019, respectively, were designated as, and were effective as, economic hedges of net investments in certain of the Company's foreign subsidiaries. The Company has entered into cross-currency swaps, all of which are designated and effective as economic hedges of net investments in certain of the Company's foreign subsidiaries. The notional amounts of the cross-currency swaps were \$3.0 billion and \$2.3 billion as of September 30, 2020 and 2019, respectively.

Net gains or losses relating to the net investment hedges, which are attributable to changes in the foreign currencies to U.S. dollar spot exchange rates, are recorded as accumulated foreign currency translation in *Other comprehensive income (loss)*. Upon the termination of a net investment hedge, any net gain or loss included in *Accumulated other comprehensive income (loss)* relative to the investment hedge remains until the foreign subsidiary investment is disposed of or is substantially liquidated.

Net (losses) gains recorded to *Accumulated other comprehensive income (loss)* relating to the Company's net investment hedges as of September 30, 2020, 2019 and 2018 were as follows:

(Millions of dollars)	2020	2019	2018
Foreign currency-denominated debt	\$ (106)	\$ 138	81
Cross-currency swaps	\$ (109)	\$ 73	—
Foreign currency forward contract (a)	\$ —	\$ (9)	—

(a) Represented a loss recognized on a forward contract which was entered into and terminated in fiscal year 2019.

Interest Rate Risks and Related Strategies

The Company's policy is to manage interest rate exposure using a mix of fixed and variable rate debt. The Company periodically uses interest rate swaps to manage such exposures. Under these interest rate swaps, the Company exchanges, at specified intervals, the difference between fixed and floating interest amounts calculated by reference to an agreed-upon notional principal amount. These swaps are designated as either fair value or cash flow hedges.

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

For interest rate swaps designated as fair value hedges (i.e., hedges against the exposure to changes in the fair value of an asset or a liability or an identified portion thereof that is attributable to a particular risk), changes in the fair value of the interest rate swaps offset changes in the fair value of the fixed rate debt due to changes in market interest rates.

The total notional amount of the Company's outstanding interest rate swaps designated as fair value hedges was \$375 million at September 30, 2020 and 2019. The outstanding swaps represent fixed-to-floating interest rate swap agreements the Company entered into to convert the interest payments on certain long-term notes from the fixed rate to a floating interest rate based on LIBOR. Changes in the fair value of the interest rate swaps offset changes in the fair value of the fixed rate debt. The amounts recorded during the years ended September 30, 2020 and 2019 for changes in the fair value of these hedges were immaterial to the Company's consolidated financial results.

Changes in the fair value of the interest rate swaps designated as cash flow hedges (i.e., hedging the exposure to variability in expected future cash flows that is attributable to a particular risk) are recorded in *Other comprehensive income (loss)*. If interest rate derivatives designated as cash flow hedges are terminated, the balance in *Accumulated other comprehensive income (loss)* attributable to those derivatives is reclassified into earnings over the remaining life of the hedged debt. The net realized loss related to terminated interest rate swaps expected to be reclassified and recorded in *Interest expense* within the next 12 months is \$6 million, net of tax.

The total notional amount of the Company's outstanding forward starting interest rate swaps was \$1.5 billion at September 30, 2020 and 2019. The Company entered into these contracts in the fourth quarter of fiscal year 2019 to mitigate its exposure to interest rate risk. The Company recorded after-tax losses of \$75 million in *Other comprehensive income (loss)* relating to these interest rate hedges during the year ended September 30, 2020. The amounts recognized in other comprehensive income relating to interest rate hedges during the year ended 2019 were immaterial.

Other Risk Exposures

The Company purchases resins, which are oil-based components used in the manufacture of certain products. Significant increases in world oil prices that lead to increases in resin purchase costs could impact future operating results. From time to time, the Company has managed price risks associated with these commodity purchases through commodity derivative forward contracts. The Company had no outstanding commodity derivative forward contracts at September 30, 2020. The Company's outstanding commodity derivative forward contracts at September 30, 2019 were immaterial to the Company's consolidated financial results.

Financial Statement Effects

The fair values of derivative instruments outstanding at September 30, 2020 and 2019 were not material to the Company's consolidated balance sheets.

The amounts reclassified from accumulated other comprehensive income relating to cash flow hedges during 2020, 2019 and 2018 were not material to the Company's consolidated financial results.

Note 15 — Financial Instruments and Fair Value Measurements

The following reconciles cash and equivalents and restricted cash reported within the Company's consolidated balance sheets at September 30, 2020 and 2019 to the total of these amounts shown on the Company's consolidated statements of cash flows:

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

(Millions of dollars)	September 30, 2020	September 30, 2019
Cash and equivalents	\$ 2,825	\$ 536
Restricted cash	92	54
Cash and equivalents and restricted cash	<u>\$ 2,917</u>	<u>\$ 590</u>

The Company's cash and equivalents include institutional money market accounts, which permit daily redemption, and an ultra-short bond fund. The fair values of these investments are based upon the quoted prices in active markets provided by the holding financial institutions, which are considered Level 1 inputs in the fair value hierarchy. The fair values of these accounts were \$1.549 billion and \$39 million at September 30, 2020 and 2019, respectively. The Company's remaining cash and equivalents, excluding restricted cash, were \$1.276 billion and \$497 million at September 30, 2020 and 2019, respectively.

Short-term investments are held to their maturities and are carried at cost, which approximates fair value. The short-term investments consist of instruments with maturities greater than three months and less than one year.

Long-term debt is recorded at amortized cost. The fair value of long-term debt is measured based upon quoted prices in active markets for similar instruments, which are considered Level 2 inputs in the fair value hierarchy. The fair value of long-term debt was \$19.0 billion and \$19.2 billion at September 30, 2020 and 2019, respectively. The fair value of the current portion of long-term debt was \$702 million and \$1.3 billion at September 30, 2020 and 2019, respectively.

All other instruments measured by the Company at fair value, including derivatives and contingent consideration liabilities, are immaterial to the Company's consolidated balance sheets.

Nonrecurring Fair Value Measurements

In fiscal year 2020, the Company recorded charges to *Cost of products sold* of \$57 million to write down the carrying values of certain intangible and other assets in the Biosciences and Integrated Diagnostic Solutions units, and \$41 million to write down the value of fixed assets primarily in the Medication Delivery Solutions and Pharmaceutical Systems units. In fiscal years 2019, the Company recorded a charge to *Research and development expense* of \$30 million to *Cost of products sold* to write down the carrying values of certain intangible assets in the Surgery unit. In fiscal year 2018, the Company recorded charges of \$58 million to write down the value of fixed assets, primarily in the Diabetes Care unit, as well as charges of \$81 million to write down the carrying value of certain intangible and other assets in the Biosciences unit. The amounts recognized in 2020, 2019 and 2018 were recorded to adjust the carrying amount of assets to the assets' fair values, which were estimated, based upon a market participant's perspective, using either Level 2 inputs, including quoted prices for similar assets, or Level 3 inputs, including values estimated using the income approach.

Concentration of Credit Risk

The Company maintains cash deposits in excess of government-provided insurance limits. Such cash deposits are exposed to loss in the event of nonperformance by financial institutions. Substantially all of the Company's trade receivables are due from public and private entities involved in the healthcare industry. Due to the large size and diversity of the Company's customer base, concentrations of credit risk with respect to trade receivables are limited. The Company does not normally require collateral. The Company is exposed to credit loss in the event of nonperformance by financial institutions with which it conducts business. However, this loss is limited to the amounts, if any, by which the obligations of the counterparty to the financial instrument contract exceed the obligations of the Company. The Company also minimizes exposure to credit risk by dealing with a diversified group of major financial institutions.

The Company continually evaluates its accounts receivables for potential collection risks particularly those resulting from sales to government-owned or government-supported healthcare facilities in certain countries as payment may be dependent upon the financial stability and creditworthiness of those countries' national economies. The Company continually evaluates all governmental receivables for potential collection

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

risks associated with the availability of government funding and reimbursement practices. The Company believes the current reserves related to all governmental receivables are adequate and that this concentration of credit risk will not have a material adverse impact on its financial position or liquidity.

Transfers of trade receivables

Over the normal course of its business activities, the Company transfers certain trade receivable assets to third parties under factoring agreements. Per the terms of these agreements, the Company surrenders control over its trade receivables upon transfer. Accordingly, the Company accounts for the transfers as sales of trade receivables by recognizing an increase to *Cash and equivalents* and a decrease to *Trade receivables, net* when proceeds from the transactions are received. During 2020, the Company transferred \$2.2 billion of its trade receivables to third parties under factoring arrangements and the Company's balance of *Trade receivables, net* at September 30, 2020 excluded transferred trade receivables, which were yet to be remitted to the third parties, of \$256 million. The costs incurred by the Company in connection with factoring activities were not material to its consolidated financial results. The Company's transfers of trade receivables during fiscal year 2019 were not material to its consolidated financial results.

Note 16 — Debt

Short-term debt

The carrying value of *Short-term debt*, net of unamortized debt issuance costs, at September 30 consisted of:

(Millions of dollars)	2020	2019
Current portion of long-term debt		
0.174% Notes due June 4, 2021	701	—
2.404% Notes due June 5, 2020	—	999
2.675% Notes due December 15, 2019	—	300
Other	5	10
Total short-term debt	<u>\$ 707</u>	<u>\$ 1,309</u>

The weighted average interest rates for short-term debt were 0.20% and 2.48% at September 30, 2020 and 2019, respectively.

Other long-term debt		—	5
Total Long-Term Debt		<u>\$ 17,224</u>	<u>\$ 18,081</u>

(a) All of the aggregate principal amount outstanding was redeemed during 2020, as further discussed below.

(b) Represents notes issued during 2020, as further discussed below.

The aggregate annual maturities of debt including interest during the fiscal years ending September 30, 2021 to 2025 are as follows: 2021 — \$1.2 billion; 2022 — \$3.8 billion; 2023 — \$2.6 billion; 2024 — \$2.3 billion; 2025 — \$2.0 billion.

Other current credit facilities

The Company has a five-year senior unsecured revolving credit facility in place which will expire in December 2022. The facility agreement includes a provision that enabled BD, subject to additional

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

commitments made by the lenders, to access up to an additional \$500 million in financing through the facility for a maximum aggregate commitment of \$2.75 billion. In April 2020, the Company entered into a supplement to the facility agreement which increased the revolving commitments available under the facility by \$381 million. As such, borrowings provided for under the agreement increased from \$2.25 billion to \$2.63 billion. The Company is also able to issue up to \$100 million in letters of credit under this revolving credit facility. Proceeds from this facility are used to fund general corporate needs. There were no borrowings outstanding under the revolving credit facility at September 30, 2020 and borrowings outstanding at September 30, 2019 were \$485 million. In addition, the Company has informal lines of credit outside of the United States.

The Company had no commercial paper borrowings outstanding as of September 30, 2020.

2020 Debt-Related Transactions

In March 2020, the Company entered into a 364-day senior unsecured term loan facility with borrowing capacity available of \$2.0 billion. During the third quarter of fiscal year 2020, the Company repaid \$1.9 billion of borrowings outstanding under this term loan with cash on hand and terminated the facility.

In May 2020, the Company issued \$750 million of 2.823% notes due May 20, 2030 and \$750 million of 3.794% notes due May 20, 2050. The Company used the net proceeds from this long-term debt offering, together with cash on hand, to repay the entire \$1.000 billion aggregate principal outstanding on the 2.404% notes due June 5, 2020, and to redeem \$500 million of the aggregate principal outstanding on the 3.250% notes due November 12, 2020, as well as accrued interest, related premiums, fees and expenses related to these repaid amounts. The Company redeemed this long-term debt at an aggregate market price of \$506 million. The carrying value of these long-term notes was \$500 million, and the Company recognized a loss on this debt extinguishment of \$6 million, which was recorded in June 2020 within *Other income, net*, on the Company's consolidated statements of income.

In September 2020, the Company redeemed the remaining \$200 million of its outstanding 3.25% notes due November 12, 2020, and \$750 million of its floating rate notes due December 29, 2020. Based upon the aggregate \$950 million carrying value of the notes redeemed and the \$951 million the Company paid to redeem the aggregate principal amount of the notes, the Company recorded a loss on these debt extinguishment transactions in the fourth quarter of fiscal year 2020 of \$1 million within *Other income, net*, on its consolidated statements of income.

2019 Debt-Related Transactions

In March 2019, the Company redeemed an aggregate principal amount of \$250 million of its outstanding floating rate senior unsecured U.S. notes due December 29, 2020. Based upon the \$249 million carrying value of the notes redeemed and the \$250 million the Company paid to redeem the aggregate principal amount of the notes, the Company recorded a loss on this debt extinguishment transaction in the second quarter of fiscal year 2019 of \$1 million within *Other income, net*, on its consolidated statements of income.

In June 2019, Becton Dickinson Euro Finance S.à r.l., a private limited liability company (société à responsabilité limitée), which is an indirect, wholly-owned finance subsidiary of the Company, issued Euro-denominated debt consisting of 600 million Euros (\$672 million) of 0.174% notes due June 4, 2021, 800 million Euros (\$896 million) of 0.632% notes due June 4, 2023, and 600 million Euros (\$672 million) of 1.208% notes due June 4, 2026. The notes are fully and unconditionally guaranteed on a senior unsecured basis by the Company. No other of the Company's subsidiaries provide any guarantees with respect to these notes. The indenture covenants included a limitation on liens and a restriction on sale and leasebacks, change of control and consolidation, merger and sale of assets covenants. These covenants are subject to a number of exceptions, limitations and qualifications. The indenture did not restrict the Company, Becton Dickinson Euro Finance S.à r.l., or any other of the Company's subsidiaries from incurring additional debt or other liabilities, including additional senior debt. Additionally, the indenture did not restrict Becton Dickinson Euro Finance S.à r.l. and the Company from granting security interests over its assets.

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

The Company used the net proceeds from this long-term debt offering, together with cash on hand, to repay all the 1.000 billion Euros (\$1.120 billion) of principal outstanding on 0.368% notes due June 6, 2019, as well as to fund the Company's repurchase of certain of its long-term senior notes outstanding. Under this cash tender offer, the Company repurchased the following aggregate principal amounts of its long-term debt at an aggregate market price of \$1.169 billion:

Interest Rate and Maturity	Aggregate Principal Amount (Millions of dollars)
3.700% Notes due June 6, 2027	\$ 675
5.000% Notes due November 12, 2040	175
4.875% Notes due May 15, 2044	75
4.685% Notes due December 15, 2044	175
Total notes purchased	\$ 1,100

The carrying value of these long-term notes was \$1.112 billion, and the Company recognized a loss on this debt extinguishment of \$57 million, which was recorded in June 2019 within *Other income, net*, on the Company's consolidated statements of income.

In September 2019, the Company redeemed an aggregate principal amount of \$825 million of its outstanding 2.675% notes due December 15, 2019. Based upon the \$825 million carrying value of the notes redeemed and the \$826 million the Company paid to redeem the aggregate principal amount of the notes, the Company recorded a loss on this debt extinguishment transaction in the fourth quarter of fiscal year 2019 of \$1 million within *Other income, net*, on its consolidated statements of income.

During the fourth quarter of 2019, the Company fully repaid its borrowings outstanding on a 364-day senior unsecured term loan facility that the Company entered in September 2018.

Capitalized interest

The Company capitalizes interest costs as a component of the cost of construction in progress. A summary of interest costs and payments for the years ended September 30 is as follows:

(Millions of dollars)	2020		2019		2018	
Charged to operations	\$	528	\$	639	\$	706
Capitalized		43		44		42
Total interest costs	\$	571	\$	683	\$	748
Interest paid, net of amounts capitalized	\$	515	\$	658	\$	674

Notes to Consolidated Financial Statements — (Continued)

Note 17 — Income Taxes

Provision for Income Taxes

The provision (benefit) for income taxes the years ended September 30 consisted of:

(Millions of dollars)	2020	2019	2018
Current:			
Federal	\$ (50)	\$ 235	\$ 665
State and local, including Puerto Rico	47	41	73
Foreign	400	300	387
	<u>\$ 397</u>	<u>\$ 576</u>	<u>\$ 1,124</u>
Deferred:			
Domestic	\$ (184)	\$ (577)	\$ (201)
Foreign	(101)	(56)	(61)
	<u>(286)</u>	<u>(633)</u>	<u>(262)</u>
Income tax provision (benefit)	<u>\$ 111</u>	<u>\$ (57)</u>	<u>\$ 862</u>

The components of *Income Before Income Taxes* for the years ended September 30 consisted of:

(Millions of dollars)	2020	2019	2018
Domestic, including Puerto Rico	\$ (489)	\$ 799	\$ (135)
Foreign	1,474	377	1,308
Income Before Income Taxes	<u>\$ 985</u>	<u>\$ 1,176</u>	<u>\$ 1,173</u>

U.S. tax legislation, commonly referred to as the Tax Cuts and Jobs Act (the "Act"), was enacted on December 22, 2017. The Act reduced the U.S. federal corporate tax rate from 35% to 21%, required companies to pay a one-time transition tax on earnings of certain foreign subsidiaries that were previously tax deferred, and created new taxes on certain foreign-sourced earnings. The Act subjects a U.S. shareholder to tax on global intangible low-taxed income ("GILTI") earned by certain foreign subsidiaries. The Company has elected to account for its GILTI tax due as a period expense in the year the tax is incurred.

During fiscal year 2019, the Company finalized its accounting for the income tax effects of the Act, and all adjustments related to finalization of its calculations were included as a component of *Income tax provision (benefit)* in fiscal year 2019. The Company recognized additional tax benefit of \$50 million and additional tax cost of \$640 million in 2019 and 2018, respectively, as a result of this legislation. These amounts are reflected in the Company's consolidated statements of income within *Income tax provision (benefit)*. During fiscal year 2019, the Company also changed its assertion with respect to historical unremitted foreign earnings, which resulted in a total tax benefit of \$138 million, of which \$67 million is related to the tax legislation benefit previously recorded, and is included as a component of *Income tax provision (benefit)* in fiscal 2019. The Company asserts indefinite reinvestment for all historical unremitted foreign earnings as of September 30, 2020.

Unrecognized Tax Benefits

The table below summarizes the gross amounts of unrecognized tax benefits without regard to reduction in tax liabilities or additions to deferred tax assets and liabilities if such unrecognized tax benefits were settled. The Company believes it is reasonably possible that the amount of unrecognized benefits will change due to one or more of the following events in the next twelve months: expiring statutes, audit activity, tax payments, other activity, or final decisions in matters that are the subject of controversy in various taxing jurisdictions in which we operate.

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

(Millions of dollars)	2020	2019	2018
Balance at October 1	\$ 577	\$ 601	\$ 407
Increase due to acquisitions	1	3	140
Increase due to current year tax positions	35	11	43
Increase due to prior year tax positions	76	6	43
Decreases due to prior year tax positions	(49)	(39)	—
Decrease due to settlements with tax authorities	(4)	—	(29)
Decrease due to lapse of statute of limitations	(16)	(5)	(3)
Balance at September 30	<u>\$ 620</u>	<u>\$ 577</u>	<u>\$ 601</u>

Upon the Company's acquisition of CareFusion in 2015, the Company became a party to a tax matters agreement with Cardinal Health resulting from Cardinal Health's spin-off of CareFusion in fiscal year 2010. Under the tax matters agreement, the Company is obligated to indemnify Cardinal Health for certain tax exposures and transaction taxes prior to CareFusion's spin-off from Cardinal Health. The indemnification payable is approximately \$164 million at September 30, 2020 and is included in *Deferred Income Taxes and Other Liabilities* on the consolidated balance sheet.

At September 30, 2020, 2019 and 2018, there are \$719 million, \$624 million and \$632 million of unrecognized tax benefits that if recognized, would affect the effective tax rate. During the fiscal years ended September 30, 2020, 2019 and 2018, the Company reported interest and penalties associated with unrecognized tax benefits of \$1 million, \$26 million and \$20 million on the consolidated statements of income as a component of *Income tax provision (benefit)*. The Company conducts business and files tax returns in numerous countries and currently has tax audits in progress in a number of tax jurisdictions. The IRS has completed its audit for fiscal year 2014 for the BD business prior to its acquisition of CareFusion. The IRS has also completed its audit for fiscal years 2015 and 2017 for the combined BD and CareFusion business. The IRS is currently examining the CareFusion legacy fiscal year 2014 and short period 2015, as well as BD's combined company for fiscal years 2016, 2018, and 2019. With regard to Bard, all examinations have been completed through calendar year 2014, and calendar years 2015, 2016, and 2017 are currently under examination by the IRS. For the other major tax jurisdictions where the Company conducts business, tax years are generally open after 2012.

Deferred Income Taxes

Deferred income taxes at September 30 consisted of:

(Millions of dollars)	2020		2019	
	Assets	Liabilities	Assets	Liabilities
Compensation and benefits	\$ 554	\$ —	\$ 513	\$ —
Property and equipment	—	361	—	312
Intangibles	—	2,408	—	2,624
Loss and credit carryforwards	1,900	—	1,327	—
Product recall and liability reserves	241	—	182	—
Other	501	137	396	74
	<u>3,196</u>	<u>2,906</u>	<u>2,417</u>	<u>3,011</u>
Valuation allowance	(1,820)	—	(1,240)	—
Net (a)	<u>\$ 1,376</u>	<u>\$ 2,906</u>	<u>\$ 1,177</u>	<u>\$ 3,011</u>

(a) Net deferred tax assets are included in *Other Assets* and net deferred tax liabilities are included in *Deferred Income Taxes and Other Liabilities* on the consolidated balance sheets.

Deferred tax assets and liabilities are netted on the balance sheet by separate tax jurisdictions. Deferred taxes have not been provided on undistributed earnings of foreign subsidiaries as of September 30, 2020 since the determination of the total amount of unrecognized deferred tax liability is not practicable.

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

Generally, deferred tax assets have been established as a result of net operating losses and credit carryforwards with expiration dates from 2021 to an unlimited expiration date. Valuation allowances have been established as a result of an evaluation of the uncertainty associated with the realization of certain deferred tax assets on these losses and credit carryforwards. The valuation allowance at September 30, 2020 is primarily the result of foreign losses due to the Company's global re-organization of its foreign entities and these generally have no expiration date. Valuation allowances are also maintained with respect to deferred tax assets for certain federal and state carryforwards that may not be realized and that principally expire in 2022.

Tax Rate Reconciliation

A reconciliation of the federal statutory tax rate to the Company's effective income tax rate was as follows:

	2020	2019	2018
Federal statutory tax rate	21.0 %	21.0 %	24.5 %
New U.S. tax legislation (see discussion above)	—	(4.3)	54.6
State and local income taxes, net of federal tax benefit	(1.9)	0.1	0.8
Foreign income tax at rates other than 21%	(14.8)	(6.6)	(11.7)
Effect of foreign operations	19.1	(5.5)	19.0
Effect of Research Credits and FDII/Domestic Production Activities	(5.0)	(3.3)	(2.8)
Effect of tax benefit relating to share-based compensation	(4.5)	(3.9)	(6.1)
Effect of gain on divestitures	(4.5)	(2.0)	1.3
Effect of uncertain tax position	—	—	3.3
Effect of valuation allowance release	—	—	(4.8)
Effect of application for change in accounting method	—	—	(4.5)
Effect of nondeductible compensation	—	—	1.6
Other, net	1.9	(0.3)	(1.7)
Effective income tax rate	<u>11.3 %</u>	<u>(4.8)%</u>	<u>73.5 %</u>

The fluctuations in the Company's reported tax rates are primarily due to the Act, the effects of which were recorded in fiscal years 2018 and 2019, as well as the geographical mix of income attributable to foreign countries that have income tax rates that vary from the U.S. tax rate.

Tax Holidays and Payments

The approximate tax impact related to tax holidays in various countries in which the Company does business were \$36 million, \$(43) million and \$107 million, in 2020, 2019 and 2018, respectively. The impact of the tax holiday on diluted earnings per share was approximately \$0.48, \$(0.16) and \$0.40 for fiscal years 2020, 2019 and 2018, respectively. The tax holidays expire at various dates through 2028.

The Company made income tax payments, net of refunds, of \$518 million in 2020, \$536 million in 2019 and \$235 million in 2018.

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

Note 18 — Leases

The Company leases real estate, vehicles and other equipment which are used in the Company’s manufacturing, administrative and research and development activities. The Company identifies a contract that contains a lease as one which conveys a right, either explicitly or implicitly, to control the use of an identified asset in exchange for consideration. The Company’s lease arrangements are generally classified as operating leases. These arrangements have remaining terms ranging from less than one year to approximately 25 years and the weighted-average remaining lease term of the Company’s leases is approximately 7.3 years. An option to renew or terminate the current term of a lease arrangement is included in the lease term if the Company is reasonably certain to exercise that option.

The Company does not recognize a right-of-use asset and lease liability for short-term leases, which have terms of 12 months or less, on its consolidated balance sheet. For the longer-term lease arrangements that are recognized on the Company’s consolidated balance sheet, the right-of-use asset and lease liability is initially measured at the commencement date based upon the present value of the lease payments due under the lease. These payments represent the combination of the fixed lease and fixed non-lease components that are due under the arrangement. The costs associated with the Company’s short-term leases, as well as variable costs relating to the Company’s lease arrangements, are not material to its consolidated financial results.

The implicit interest rates of the Company’s lease arrangements are generally not readily determinable and as such, the Company applies an incremental borrowing rate, which is established based upon the information available at the lease commencement date, to determine the present value of lease payments due under an arrangement. The weighted-average incremental borrowing rate that has been applied to measure the Company’s lease liabilities is 2.2%.

The Company’s lease cost recorded in its consolidated statements of income for the year ended September 30, 2020 was \$31 million under the new lease accounting standard. Rental expense for all operating leases amounted to \$169 million and \$149 million in 2019 and 2018, respectively, under the previous accounting standard. Cash payments arising from the Company’s lease arrangements are reflected on its consolidated statement of cash flows as outflows used for operating activities. The right-of-use assets and lease liabilities recognized on the Company’s consolidated balance sheet as of September 30, 2020 were as follows:

(Millions of dollars)	September 30, 2020	
Right-of-use assets recorded in <i>Other Assets</i>	\$	418
Current lease liabilities recorded in <i>Accrued expenses</i>	\$	106
Non-current lease liabilities recorded in <i>Deferred Income Taxes and Other Liabilities</i>	\$	336

The Company’s payments due under its operating leases are as follows:

(Millions of dollars)	
2021	\$ 115
2022	96
2023	63
2024	41
2025	32
Thereafter	142
Total payments due	489
Less: imputed interest	47
Total	\$ 442

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

The Company's future minimum rental commitments on non-cancelable leases at September 30, 2019, prior to the adoption of the new lease accounting standard, were estimated as follows:

(Millions of dollars)	
2020	\$ 122
2021	103
2022	83
2023	57
2024	56
Thereafter	123
Total	\$ 546

Note 19 — Supplemental Financial Information

Other Income, Net

(Millions of dollars)	2020	2019	2018
Royalty and licensing income (a)	\$ 17	\$ 64	\$ 51
Other investment gains, net	13	18	8
Deferred compensation	24	6	3
Net pension and postretirement benefit cost (b)	7	(2)	(13)
Losses on undesignated foreign exchange derivatives, net	(17)	(23)	(14)
Losses on debt extinguishment (c)	(8)	(59)	(16)
Product related matters	(9)	—	—
Hurricane-related insurance proceeds	—	35	—
Vyair Medical-related amounts and other income from divestitures (d)	—	6	288
Other	(3)	(2)	(3)
Other income, net	\$ 23	\$ 43	\$ 305

- (a) The amount in 2020 primarily represents licensing income. The amounts in 2019 and 2018 primarily represent the royalty income stream acquired in the Bard transaction, net of non-cash purchase accounting amortization. The royalty income stream was previously reported by Bard as revenues.
- (b) Represents all components of the Company's net periodic pension and postretirement benefit costs, aside from service cost, as a result of the adoption of an accounting standard as further discussed in Note 2.
- (c) Represents losses recognized upon the extinguishment of certain senior notes, as further discussed in Note 16.
- (d) The amount in 2019 represents income from transition services agreements ("TSA") related to the Company's 2018 and 2017 divestitures. The amount in 2018 includes the gain on the sale of the remaining ownership interest in its former Respiratory Solutions business and subsequent TSA income, net of the Company's share of equity investee results in the business. Additional disclosures regarding the Company's divestiture transactions are provided in Note 11.

Notes to Consolidated Financial Statements — (Continued)
Becton, Dickinson and Company

Trade Receivables, Net

The amounts recognized in 2020, 2019 and 2018 relating to allowances for doubtful accounts and cash discounts, which are netted against trade receivables, are provided in the following table:

(Millions of dollars)	Allowance for Doubtful Accounts	Allowance for Cash Discounts	Total
Balance at September 30, 2017	\$ 54	\$ 4	\$ 58
Additions charged to costs and expenses	31	58	89
Deductions and other	(11) (a)	(50)	(61)
Balance at September 30, 2018	\$ 75	\$ 12	\$ 86
Additions charged to costs and expenses	31	94	125
Deductions and other	(31) (a)	(92)	(123)
Balance at September 30, 2019	\$ 75	\$ 13	\$ 88
Additions charged to costs and expenses	40	39	78
Deductions and other	(35) (a)	(38)	(73)
Balance at September 30, 2020	\$ 80	\$ 14	\$ 94

(a) Accounts written off.

Inventories

Inventories at September 30 consisted of:

(Millions of dollars)	2020	2019
Materials	\$ 602	\$ 544
Work in process	335	318
Finished products	1,806	1,717
	<u>\$ 2,743</u>	<u>\$ 2,579</u>

Property, Plant and Equipment, Net

Property, Plant and Equipment, Net at September 30 consisted of:

(Millions of dollars)	2020	2019
Land	\$ 166	\$ 164
Buildings	3,082	2,842

Leasehold improvements	216	190
	<u>11,919</u>	<u>11,128</u>
Less accumulated depreciation and amortization	5,996	5,469
	<u>\$ 5,923</u>	<u>\$ 5,659</u>

Becton, Dickinson and Company

SUPPLEMENTARY QUARTERLY DATA (UNAUDITED)

Millions of dollars, except per share amounts

	2020					Year (a)
	1 st	2 nd	3 rd	4 th		
Revenues	\$ 4,225	\$ 4,253	\$ 3,855	\$ 4,784	\$ 17,117	
Gross Profit	1,978	1,734	1,659	2,206	7,577	
Net Income	278	183	286	128	874	
Earnings per Share: (b)						
Basic	0.88	0.53	0.98	0.36	2.75	
Diluted	0.87	0.53	0.97	0.36	2.71	
	2019					Year (a)
	1 st	2 nd	3 rd	4 th		
Revenues	\$ 4,160	\$ 4,195	\$ 4,350	\$ 4,584	\$ 17,290	
Gross Profit	1,974	1,974	2,074	2,266	8,288	
Net Income	599	20	451	163	1,233	
Earnings (loss) per Share:						
Basic	2.09	(0.07)	1.53	0.46	4.01	
Diluted	2.05	(0.07)	1.51	0.45	3.94	

- (a) Quarterly amounts may not add to the year-to-date totals due to rounding. Earnings per share amounts are calculated from the underlying whole-dollar amounts.
- (b) The sum of diluted earnings per share for the quarters of 2020 do not equal the year-to-date amount due to the impact of shares issued during this fiscal year on the weighted average common shares included in the calculations of diluted earnings per share. Additional disclosures regarding shares issued are provided in Note 3.

Item 9. *Changes in and Disagreements With Accountants on Accounting and Financial Disclosure.*

None.

Item 9A. *Controls and Procedures.*

An evaluation was conducted by BD's management, with the participation of BD's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of BD's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934) as of September 30, 2020. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the design and operation of these disclosure controls and procedures were, as of the end of the period covered by this report, effective and designed to ensure that material information relating to BD and its consolidated subsidiaries would be made known to them by others within these entities. There were no changes in our internal control over financial reporting during the fiscal quarter ended September 30, 2020 identified in connection with the above-referenced evaluation that have materially affected, or are reasonably likely to materially affect, BD's internal control over financial reporting.

Management's Report on Internal Control Over Financial Reporting and the Report of Independent Registered Public Accounting Firm are contained in Item 8. Financial Statements and Supplementary Data, and are incorporated herein by reference.

Item 9B. Other Information.

Not applicable.

PART III

Item 10. *Directors, Executive Officers and Corporate Governance.*

The information relating to directors and the Audit Committee of the BD Board of Directors required by this item will be contained under the captions “Proposal 1. Election of Directors” and “Board of Directors - Committee membership and function - Audit Committee” in a definitive proxy statement involving the election of directors, which the registrant will file with the SEC not later than 120 days after September 30, 2020 (the “2021 Proxy Statement”), and such information is incorporated herein by reference.

The information relating to executive officers required by this item is included herein in Part I under the caption “Information about our Executive Officers.”

Certain other information required by this item will be contained under the captions “Ownership of BD Common Stock”, and “Corporate Governance - Code of Conduct” in BD’s 2021 Proxy Statement, and such information is incorporated herein by reference.

Item 11. *Executive Compensation.*

The information required by this item will be contained under the captions “Compensation Discussion and Analysis,” “Report of the Compensation and Management Development Committee,” “Compensation of Named Executive Officers”, “Board of Directors - Non-management director compensation,” and “CEO Pay Ratio” in BD’s 2021 Proxy Statement, and such information is incorporated herein by reference.

Item 12. *Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.*

The information required by this item will be contained under the caption “Ownership of BD Common Stock” in BD’s 2021 Proxy Statement, and such information is incorporated herein by reference.

Item 13. *Certain Relationships and Related Transactions, and Director Independence.*

The information required by this item will be contained under the caption “Corporate Governance - Director independence; Policy regarding related person transactions” in BD’s 2021 Proxy Statement, and such information is incorporated herein by reference.

Item 14. *Principal Accounting Fees and Services.*

The information required by this item will be contained under the caption “Proposal 2. Ratification of Selection of Independent Registered Public Accounting Firm” in BD’s 2021 Proxy Statement, and such information is incorporated herein by reference.

PART IV

Item 15. Exhibits, Financial Statement Schedules.

(a)(1) *Financial Statements*

The following consolidated financial statements of BD are included in Item 8 of this report:

- Reports of Independent Registered Public Accounting Firm
- Consolidated Statements of Income — Years ended September 30, 2020, 2019 and 2018
- Consolidated Statements of Comprehensive Income — Years ended September 30, 2020, 2019 and 2018
- Consolidated Balance Sheets — September 30, 2020 and 2019
- Consolidated Statements of Cash Flows — Years ended September 30, 2020, 2019 and 2018
- Notes to Consolidated Financial Statements

(2) *Financial Statement Schedules*

See Note 19 to the Consolidated Financial Statements included in Item 8. Financial Statements and Supplementary Data.

(3) *Exhibits*

See the Exhibit Index below for a list of all management contracts, compensatory plans and arrangements required by this item, and all other Exhibits filed or incorporated by reference as a part of this report.

Item 16. Form 10-K Summary

BD is not providing summary information.

EXHIBIT INDEX

<u>Exhibit Number</u>	<u>Description</u>	<u>Method of Filing</u>
2(a)	Agreement and Plan of Merger, dated as of April 23, 2017, among C.R. Bard, Inc., Becton, Dickinson and Company and Lambda Corp. +	Incorporated by reference to Exhibit 2.1 to the registrant's Current Report on Form 8-K filed on April 24, 2017.

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

BECTON, DICKINSON AND COMPANY

By: /s/ GARY DEFAZIO

Gary DeFazio

Senior Vice President and Corporate Secretary

Dated: November 25, 2020

POWER OF ATTORNEY

KNOW ALL MEN BY THESE PRESENTS, that each of the undersigned hereby constitutes and appoints Thomas E. Polen, Samrat S. Khichi, Christopher R. Reidy and Gary DeFazio, and each of them, acting individually and without the other, as his or her true and lawful attorney-in-fact and agent, with full power of substitution and resubstitution, for him or her and in his or her name, place and stead, in any and all capacities, to sign the Company's Annual Report on Form 10-K for the Company's fiscal year ended September 30, 2020, and any amendments thereto, each in such form as they or any one of them may approve, and to file the same with all exhibits thereto and other documents in connection therewith with the Securities and Exchange Commission, granting unto said attorneys-in-fact and agents, and each of them, full power and authority to do and perform each and every act and thing requisite and necessary to be done so that such Annual Report shall comply with the Securities Exchange Act of 1934, as amended, and the applicable Rules and Regulations adopted or issued pursuant thereto, as fully and to all intents and purposes as he or she might or could do in person, hereby ratifying and confirming all that said attorneys-in-fact and agents, or any of them or their substitute or resubstitute, may lawfully do or cause to be done by virtue hereof.

This Power of Attorney shall not revoke any powers of attorney previously executed by the undersigned. This Power of Attorney shall not be revoked by any subsequent power of attorney that the undersigned may execute, unless such subsequent power of attorney specifically provides that it revokes this Power of Attorney by referring to the date of the undersigned's execution of this Power of Attorney. For the avoidance of doubt, whenever two or more powers of attorney granting the powers specified herein are valid, the agents appointed on each shall act separately unless otherwise specified.

Pursuant to the requirements of the Securities Act of 1934, as amended, this Annual Report and Power of Attorney have been signed as of November 25, 2020 by the following persons in the capacities indicated.

EXHIBIT 10(g)(i)

BECTON, DICKINSON AND COMPANY

2004 EMPLOYEE AND DIRECTOR EQUITY-BASED
COMPENSATION PLAN

As amended and restated as of November 24, 2020

Section 1. *Purpose.*

The purpose of the Becton, Dickinson and Company 2004 Employee and Director Equity-Based Compensation Plan is to provide an incentive to employees of the Company and its subsidiaries to achieve long-range goals, to aid in attracting and retaining employees and directors of outstanding ability and to closely align their interests with those of shareholders.

Section 2. *Definition.*

As used in the Plan, the following terms shall have the meanings set forth below:

(a) “**Affiliate**” shall mean (i) any entity that, directly or indirectly, is controlled by the Company and (ii) any entity in which the Company has a significant equity interest, in either case as determined by the Committee.

(b) “**Award**” shall mean any Option, Stock Appreciation Right, award of Restricted Stock, Restricted Stock Unit, Performance Unit or Other Stock-Based Award granted under the Plan.

(c) “**Award Agreement**” shall mean any written agreement, contract or other instrument or document evidencing any Award granted under the Plan, which may, but need not, be executed or acknowledged by a Participant.

(d) “**Board**” shall mean the board of directors of the Company.

(e) “**Cause**” shall mean (i) the willful and continued failure of a Participant to perform substantially the Participant’s duties with the Company or any Affiliate (other than any such failure resulting from incapacity due to physical or mental illness), or (ii) the willful engaging by the Participant in illegal conduct or gross misconduct that is materially and demonstrably injurious to the Company. No act, or failure to act, on the part of the Participant shall be considered “willful” unless it is done, or omitted to be done, by the Participant in bad faith or without the reasonable belief that the Participant’s action or omission was in the best interest of the Company.

(f) “**Change in Control**” means

(i) the acquisition by any individual, entity or group (within the meaning of Section 13(d)(3) or 14(d)(2) of the Securities Exchange Act of 1934, as amended (the “**Exchange Act**”)) (a “**Person**”) of beneficial ownership (within the meaning of Rule 13d3 promulgated under the Exchange Act) of 25% or more of either (A) the then-outstanding shares of common stock of the Company (the “**Outstanding Company Common**”

Stock") or (B) the combined voting power of the then-outstanding voting securities of the Company entitled to vote generally in the election of directors (the "**Outstanding Company Voting Securities**"); *provided, however*, that, for purposes of this Section 2(f), the following acquisitions shall not constitute a Change in Control: (i) any acquisition directly from the Company; (ii) any acquisition by the Company, or (iii) any acquisition by any employee benefit plan (or related trust) sponsored or maintained by the Company or any affiliated company, (iv) any acquisition by any corporation pursuant to a transaction that complies with Section 2(f)(iii)(A), Section 2(f)(iii)(B) and Section 2(f)(iii)(C), or (v) any acquisition that the Board determines, in good faith, was inadvertent, if the acquiring Person divests as promptly as practicable a sufficient amount of the Outstanding Company Common Stock and/or the Outstanding Company Voting Securities, as applicable, to reverse such acquisition of 25% or more thereof;

(ii) individuals who, as of the day after the effective time of this Plan, constitute the Board (the "**Incumbent Board**") cease for any reason to constitute at least a majority of the Board; provided, however, that any individual becoming a director subsequent to such time whose election, or nomination for election as a director by the Company's shareholders, was approved by a vote of at least a majority of the directors then comprising the Incumbent Board shall be considered as though such individual were a member of the Incumbent Board, but excluding, for this purpose, any such individual whose initial assumption of office occurs as a result of an actual or threatened election contest with respect to the election or removal of directors or other actual or threatened solicitation of proxies or consent by or on behalf of a Person other than the Board;

(iii) consummation of a reorganization, merger, consolidation or sale or other disposition of all or subsequently all of the assets of the Company (a "**Business Combination**"), in each case, unless, following such Business Combination, (A) all or substantially all of the individuals and entities that were the beneficial owners of the Outstanding Company Common Stock and the Outstanding Company Voting Securities immediately prior to such Business Combination beneficially own, directly or indirectly, more than 60% of the then-outstanding shares of common stock and the combined voting power of the then-outstanding voting securities entitled to vote generally in the election of directors, as the case may be, of the corporation resulting from such Business Combination (including, without limitation, a corporation that, as a result of such transaction, owns the Company or all or substantially all of the Company's assets either directly or through one or more subsidiaries) in substantially the same proportions as their ownership immediately prior to such Business Combination of the Outstanding Company Common Stock and the Outstanding Company Voting Securities, as the case may be, (B) no Person (excluding any corporation resulting from such Business Combination or any employee benefit plan (or related trust) of the Company or such corporation resulting from such Business Combination) beneficially owns, directly or indirectly, 25% or more of, respectively, the then-outstanding shares of common stock of the corporation resulting from such Business Combination or the combined voting power of the then-outstanding voting securities of such corporation, except to the extent that such ownership existed prior to the Business Combination, and (C) at least a majority of the members of the

board of directors of the corporation resulting from such Business Combination were members of the Incumbent Board at the time of the execution of the initial agreement or of the action of the Board providing for such Business Combination; or

(iv) approval by the shareholders of the Company of a complete liquidation or dissolution of the Company.

(g) “**Code**” shall mean the Internal Revenue Code of 1986, as amended from time to time.

(h) “**Committee**” shall mean the Compensation and Benefits Committee of the Board or such other committee as may be designated by the Board.

(i) “**Company**” shall mean Becton, Dickinson and Company.

(j) “**Disability**” shall mean a Participant’s disability as determined in accordance with a disability insurance program maintained by the Company.

(k) “**409A Disability**” shall mean a Disability that qualifies as a total disability as defined below and determined in a manner consistent with Code Section 409A and the regulations thereunder:

The Participant is unable to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment that can be expected to result in death or can be expected to last for a continuous period of not less than 12 months.

A Participant will be deemed to have suffered a 409A Disability if determined to be totally disabled by the Social Security Administration. In addition, the Participant will be deemed to have suffered a 409A Disability if determined to be disabled in accordance with a disability insurance program maintained by the Company, provided that the definition of disability applied under such disability insurance program complies with the requirements of Code Section 409A and the regulations thereunder.

(l) “**Earnings Per Share**” shall mean earnings per share calculated in accordance with U.S. Generally Accepted Accounting Principles.

(m) “**Executive Group**” shall mean every person who is expected by the Committee to be both (i) a “covered employee” as defined in Section 162(m) of the Code as of the end of the taxable year in which payment of the Award may be deducted by the Company, and (ii) the recipient of compensation of more than \$1,000,000 for that taxable year.

(n) “**Fair Market Value**” shall mean, with respect to any property (including, without limitation, any Shares or other securities) the fair market value of such property determined by such methods or procedures as shall be established from time to time by the Committee.

(o) **“Incentive Stock Option”** shall mean an option representing the right to purchase Shares from the Company, granted under and in accordance with the terms of Section 6, that meets the requirements of Section 422 of the Code, or any successor provision thereto.

(p) **“Market Share”** shall mean the percent of sales of the total available market in an industry, product line or product attained by the Company or one of its business units during a time period.

(q) **“Net Income”** shall mean net income calculated in accordance with U.S. Generally Accepted Accounting Principles.

(r) **“Net Revenue Per Employee”** in a period shall mean net revenue divided by the average number of employees of the Company, with average defined as the sum of the number of employees at the beginning and ending of the period divided by two.

(s) **“Non-Qualified Stock Option”** shall mean an option representing the right to purchase Shares from the Company, granted under and in accordance with the terms of Section 6, that is not an Incentive Stock Option.

(t) **“Option”** shall mean an Incentive Stock Option or a Non-Qualified Stock Option.

(u) **“Other Stock-Based Award”** shall mean any right granted under Section 9.

(v) **“Participant”** shall mean an individual granted an Award under the Plan.

(w) **“Performance Unit”** shall mean any right granted under Section 8.

(x) **“Restrictive Covenants”** shall mean the restrictive covenants set forth in a Participant’s Award Agreement.

(y) **“Restricted Stock”** shall mean any Share granted under Section 7.

(z) **“Restricted Stock Unit”** shall mean a contractual right granted under Section 7 that is denominated in Shares. Each Unit represents a right to receive the value of one Share (or a percentage of such value, which percentage may be higher than 100%) upon the terms and conditions set forth in the Plan and the applicable Award Agreement. Awards of Restricted Stock Units may include, without limitation, the right to receive dividend equivalents.

(aa) **“Retirement”** shall mean a Separation from Service after attainment of retirement as specified in the applicable terms of an Award.

(ab) **“Return on Common Equity”** for a period shall mean net income less preferred stock dividends divided by total shareholders’ equity, less amounts, if any, attributable to preferred stock.

(ac) **“Return on Invested Capital”** for a period shall mean earnings before interest, taxes, depreciation and amortization divided by the difference of total assets less non-interest bearing current liabilities.

(ad) **“Return on Net Assets”** for a period shall mean net income less preferred stock dividends divided by the difference of average total assets less average non-debt liabilities, with average defined as the sum of assets or liabilities at the beginning and ending of the period divided by two.

(ae) **“Revenue Growth”** shall mean the percentage change in revenue (as defined in Statement of Financial Accounting Concepts No. 6, published by the Financial Accounting Standards Board) from one period to another.

(af) **“Plan”** shall mean this Becton, Dickinson and Company 2004 Employee and Director Equity-Based Compensation Plan.

(ag) **“Separation from Service”** shall mean a termination of employment or other separation from service from the Company, as described in Code Section 409A and the regulations thereunder, including, but not limited to a termination by reason of Retirement or involuntary termination without Cause, but excluding any such termination where there is a simultaneous re-employment by the Company.

(ah) **“Shares”** shall mean shares of the common stock of the Company, \$1.00 par value.

(ai) **“Specified Employee”** shall mean a Participant who is deemed to be a specified employee in accordance with procedures adopted by the Company that reflect the requirements of Code Section 409A(2)(B)(i) and the guidance thereunder.

(aj) **“Stock Appreciation Right”** shall mean a right to receive a payment, in cash and/or Shares, as determined by the Committee, equal in value to the excess of the Fair Market Value of a Share at the time the Stock Appreciation Right is exercised over the exercise price of the Stock Appreciation Right.

(ak) **“Substitute Awards”** shall mean Awards granted in assumption of, or in substitution for, outstanding awards previously granted by a company acquired by the Company or with which the Company combines.

(al) **“Total Shareholder Return”** shall mean the sum of the appreciation in the Company’s stock price and dividends paid on the common stock of the Company over a given period of time.

Section 3. *Eligibility.*

(a) Any individual who is employed by (including any officer), or who serves as a member of the board of directors of, the Company or any Affiliate shall be eligible to be selected to receive an Award under the Plan.

(b) An individual who has agreed to accept employment by the Company or an Affiliate shall be deemed to be eligible for Awards hereunder as of the date of such agreement.

(c) Holders of options and other types of Awards granted by a company acquired by the Company or with which the Company combines are eligible for grant of Substitute Awards hereunder.

Section 4. *Administration.*

(a) The Plan shall be administered by the Committee. The Committee shall be appointed by the Board and shall consist of not less than three directors, each of whom shall be independent, within the meaning of and to the extent required by applicable rulings and interpretations of the New York Stock Exchange and the Securities and Exchange Commission, and each of whom shall be a “**Non-Employee Director**”, as defined from time to time for purposes of Section 16 of the Securities Exchange Act of 1934 and the rules promulgated thereunder. The Board may designate one or more directors as alternate members of the Committee who may replace any absent or disqualified member at any meeting of the Committee. The Committee may issue rules and regulations for administration of the Plan. It shall meet at such times and places as it may determine. A majority of the members of the Committee shall constitute a quorum.

(b) Subject to the terms of the Plan and applicable law, the Committee shall have full power and authority to: (i) designate Participants; (ii) determine the type or types of Awards (including Substitute Awards) to be granted to each Participant under the Plan; (iii) determine the number of Shares to be covered by (or with respect to which payments, rights, or other matters are to be calculated in connection with) Awards; (iv) determine the terms and conditions of any Award; (v) determine whether, to what extent, and under what circumstances Awards may be settled or exercised in cash, Shares, other securities, other Awards, or other property, or canceled, forfeited or suspended, and the method or methods by which Awards may be settled, exercised, canceled, forfeited or suspended; (vi) determine whether, to what extent, and under what circumstances cash, Shares, other securities, other Awards, other property, and other amounts payable with respect to an Award under the Plan shall be deferred either automatically or at the election of the holder thereof or of the Committee; (vii) interpret and administer the Plan and any instrument or agreement relating to, or Award made under, the Plan; (viii) establish, amend, suspend or waive such rules and regulations and appoint such agents as it shall deem appropriate for the proper administration of the Plan; (ix) determine whether and to what extent Awards should comply or continue to comply with any requirement of statute or regulation; (x) determine whether the conditions to forfeit an Award have been met; and (xi) make any other determination and take any other action that the Committee deems necessary or desirable for the administration of the Plan. Notwithstanding the foregoing, the Plan will be interpreted and administered by the Committee in a manner that is consistent with the requirements of Code Section 409A to allow for tax deferral thereunder, and the Committee shall take no action hereunder that would result in a violation of Code Section 409A.

(c) All decisions of the Committee shall be final, conclusive and binding upon all parties, including the Company, the stockholders and the Participants.

Section 5. *Shares Available For Awards.*

(a) The number of Shares available for issuance under the Plan is 46,000,000 shares, subject to adjustment as provided below. Notwithstanding the foregoing and subject to adjustment as provided in Section 5(e), (i) no Participant may receive Options and Stock Appreciation Rights under the Plan in any calendar year that relate to more than 250,000 Shares, (ii) the maximum number of Shares with respect to which unrestricted Awards (either as to vesting, performance or otherwise) may be made to employees under the Plan is 450,000 Shares, and (iii) the maximum number of Shares that may be issued with respect to any Awards granted on or after February 2, 2010 that are not Awards of Options or Stock Appreciation Rights shall be 13,940,000.

(b) If, after the effective date of the Plan, any Shares covered by an Award other than a Substitute Award, or to which such an Award relates, are forfeited, or if such an Award otherwise terminates without the delivery of Shares or of other consideration, then the Shares covered by such Award, or to which such Award relates, to the extent of any such forfeiture or termination, shall again be, or shall become, available for issuance under the Plan, except as otherwise provided in Section 5(f).

(c) In the event that any Option or other Award granted hereunder (other than a Substitute Award) is exercised through the delivery of Shares, or in the event that withholding tax liabilities arising from such Option or Award are satisfied by the withholding of Shares by the Company, the number of Shares available for Awards under the Plan shall be increased by the number of Shares so surrendered or withheld. Notwithstanding the foregoing, this Section 5(c) will not apply to any such surrender or withholding of Shares occurring on or after November 21, 2006.

(d) Any Shares delivered pursuant to an Award may consist, in whole or in part, of authorized and unissued Shares or of treasury Shares.

(e) In the event that any dividend or other distribution (whether in the form of cash, Shares, other securities, or other property), recapitalization, stock split, reverse stock split, reorganization, merger, consolidation, split-up, spin-off, combination, repurchase or exchange of Shares or other securities of the Company, issuance of warrants or other rights to purchase Shares or other securities of the Company, or other similar corporate transaction or event affects the Shares such that an adjustment is required in order to preserve the value of issued and outstanding Awards and to prevent diminution or enlargement of the benefits or potential benefits intended to be made available under the Plan, then the Committee shall, in such manner as it may deem equitable, adjust any or all of (i) the number and type of Shares (or other securities or property) which thereafter may be made the subject of Awards, including the aggregate and individual limits specified in Section 5(a), (ii) the number and type of Shares (or other securities or property) subject to outstanding Awards, and (iii) the grant, purchase, or exercise price with respect to any Award or, if deemed appropriate, make provision for a cash payment to the holder of an outstanding Award; *provided, however*, that the number of Shares subject to any Award denominated in Shares shall always be a whole number.

(f) Shares underlying Substitute Awards shall not reduce the number of Shares remaining available for issuance under the Plan.

(g) Upon the exercise of any Stock Appreciation Rights, the greater of (i) the number of shares subject to the Stock Appreciation Rights so exercised, and (ii) the number of Shares, if any, that are issued in connection with such exercise, shall be deducted from the number of Shares available for issuance under the Plan.

Section 6. *Options and Stock Appreciation Rights.*

The Committee is hereby authorized to grant Options and Stock Appreciation Rights to Participants with the following terms and conditions and with such additional terms and conditions, in either case not inconsistent with the provisions of the Plan, as the Committee shall determine:

(a) The exercise price per Share under an Option or Stock Appreciation Right shall be determined by the Committee; *provided, however,* that, except in the case of Substitute Awards, such exercise price shall not be less than the Fair Market Value of a Share on the date of grant of such Option or Stock Appreciation Right. The exercise price of a Substitute Award may be less than the Fair Market Value of a Share on the date of grant to the extent necessary for the value of Substitute Award to be substantially equivalent to the value of the award with respect to which the Substitute Award is issued, as determined by the Committee.

(b) The term of each Option and Stock Appreciation Right shall be fixed by the Committee but shall not exceed 10 years from the date of grant thereof.

(c) The Committee shall determine the time or times at which an Option or Stock Appreciation Right may be exercised in whole or in part, and, with respect to Options, the method or methods by which, and the form or forms, including, without limitation, cash, Shares, other Awards, or other property, or any combination thereof, having a Fair Market Value on the exercise date equal to the relevant exercise price, in which, payment of the exercise price with respect thereto may be made or deemed to have been made.

(d) The terms of any Incentive Stock Option granted under the Plan shall comply in all respects with the provisions of Section 422 of the Code, or any successor provision thereto, and any regulations promulgated thereunder.

(e) Section 10 sets forth certain additional provisions that shall apply to Options and Stock Appreciation Rights.

Section 7. *Restricted Stock And Restricted Stock Units.*

(a) The Committee is hereby authorized to grant Awards of Restricted Stock and Restricted Stock Units to Participants.

(b) Shares of Restricted Stock and Restricted Stock Units shall be subject to such restrictions as the Committee may impose (including, without limitation, any limitation on the

right to vote a Share of Restricted Stock or the right to receive any dividend or other right or property), which restrictions may lapse separately or in combination at such time or times, in such installments or otherwise, as the Committee may deem appropriate; provided, that if the vesting conditions applicable to an Award of Restricted Stock or Restricted Stock Units to an employee of the Company relate exclusively to the passage of time and continued employment, such time period shall consist of not less than thirty-six (36) months. In the event the vesting of any Award of Restricted Stock is subject to the achievement of performance goals, the performance period relating to such Award shall be at least twelve (12) months. Any Award of Restricted Stock Units for which vesting is conditioned upon the achievement of performance goals shall be considered an award of Performance Units under Section 8.

(c) Any share of Restricted Stock granted under the Plan may be evidenced in such manner as the Committee may deem appropriate including, without limitation, book-entry registration or issuance of a stock certificate or certificates. In the event any stock certificate is issued in respect of shares of Restricted Stock granted under the Plan, such certificate shall be registered in the name of the Participant and shall bear an appropriate legend referring to the terms, conditions, and restrictions applicable to such Restricted Stock.

(d) Notwithstanding anything contained herein to the contrary and except as otherwise provided by the Committee at the time a Restricted Stock award is granted or in any amendment thereto, upon a Participant's (i) Separation from Service on account of Retirement, death or Disability, any and all remaining restrictions with respect to an award of Restricted Stock granted to the Participant shall lapse, and the Participant shall receive all of the Shares of Restricted Stock subject to the award, and (ii) voluntary termination, involuntary termination without Cause or involuntary termination with Cause, all Shares of Restricted Stock held by the Participant shall be forfeited as of the date of termination.

(e) Notwithstanding anything contained herein to the contrary and except as otherwise provided by the Committee at the time a Restricted Stock Unit award is granted or in any amendment thereto, upon a Participant's:

(i) Separation from Service on account of Retirement or Disability, any and all remaining restrictions with respect to Restricted Stock Units granted to the Participant shall lapse and the Participant shall receive any amounts otherwise payable with respect to such Restricted Stock Units as soon as administratively practicable thereafter (or at such later distribution date as may be set by the Committee at the time of the Award or in any amendment thereto), except that, for amounts subject to Code Section 409A, in the case of a Participant who is a Specified Employee, the payment of such amounts that are made on account of the Specified Employee's Separation from Service shall not be made prior to the earlier of (A) the first day of the seventh month following the Participant's Separation from Service (without regard to whether the Participant is reemployed on that date) or (B) death;

(ii) Separation from Service on account of involuntary termination without Cause, all Restricted Stock Units held by the Participant shall be forfeited as of the date of termination; provided, that the Committee may, in its discretion, authorize the payment to

the Participant of all amounts payable with respect to such Restricted Stock Units in the case of financial hardship on the part of the Participant or in connection with a reduction-in-force. Notwithstanding the foregoing, for amounts subject to Code Section 409A, in the case of a Participant who is a Specified Employee, the payment of any amounts that are made on account of the Specified Employee's Separation from Service shall not be made prior to the earlier of (A) the first day of the seventh month following the Participant's Separation from Service (without regard to whether the Participant is reemployed on that date) or (B) death;

(iii) death, any and all remaining restrictions with respect to Restricted Stock Units granted to the Participant shall lapse and the Participant's beneficiary shall receive any amounts otherwise payable with respect to such Restricted Stock Units as soon as administratively practicable thereafter; and

(iv) voluntary termination or involuntary termination with Cause, all Restricted Stock Units held by the Participant shall be forfeited as of the date of termination.

Section 8. *Performance Units.*

(a) The Committee is hereby authorized to grant Performance Units to Participants.

(b) Subject to the terms of the Plan, a Performance Unit granted under the Plan (i) may be denominated or payable in cash, Shares (including, without limitation, Restricted Stock), other securities, other Awards, or other property and (ii) shall confer on the holder thereof rights valued as determined by the Committee and payable to, or exercisable by, the holder of the Performance Unit, in whole or in part, upon the achievement of such performance goals during such performance periods as the Committee shall establish. Subject to the terms of the Plan, the performance goals to be achieved during any performance period, the length of any performance period, the amount of any Performance Unit granted and the amount of any payment or transfer to be made pursuant to any Performance Unit shall be determined by the Committee; provided, that the performance period relating to any Award of Performance Units shall be at least twelve (12) months.

(c) Notwithstanding anything contained herein to the contrary and except as otherwise provided by the Committee at the time a Performance Unit Award is granted or in any amendment thereto, upon a Participant's:

(i) Separation from Service on account of Retirement or involuntary termination without Cause prior to the expiration of any performance period applicable to a Performance Unit granted to the Participant, the Participant shall be entitled to receive, following the expiration of such performance period, a pro-rata portion of any amounts otherwise payable with respect to, or a pro-rata right to exercise, the Performance Unit;

(ii) death or 409A Disability prior to the expiration of any performance period applicable to a Performance Unit granted to the Participant, the Participant or the Participant's beneficiary shall receive upon such event a partial payment with respect to,

or a partial right to exercise, such Performance Unit as determined by the Committee in its discretion;

(iii) Separation from Service on account of Disability (other than a 409A Disability) prior to the expiration for any performance period applicable to a Performance Unit granted to the Participant, the Participant shall be entitled to receive, following the expiration of such performance period, a partial payment with respect to, or a partial right to exercise, such Performance Unit as determined by the Committee in its discretion; and

(iv) voluntary termination or involuntary termination with Cause, all Performance Units held by the Participant shall be canceled as of the date of termination.

Section 9. *Other Stock-Based Awards.*

The Committee is hereby authorized to grant to Participants such other Awards (including, without limitation, rights to dividends and dividend equivalents) that are denominated or payable in, valued in whole or in part by reference to, or otherwise based on or related to, Shares (including, without limitation, securities convertible into Shares) as are deemed by the Committee to be consistent with the purposes of the Plan (provided that no rights to dividends and dividend equivalents shall be granted in tandem with an Award of Options or Stock Appreciation Rights). Subject to the terms of the Plan, the Committee shall determine the terms and conditions of such Awards; provided, that (i) if the vesting conditions applicable to any such Award to an employee relate exclusively to the passage of time and continued employment, such time period shall consist of not less than thirty-six (36) months, (ii) if the vesting of the award is contingent upon the achievement of any performance goals over a performance period, the performance period relating to such Award shall be at least twelve (12) months. Shares or other securities delivered pursuant to a purchase right granted under this Section 9 shall be purchased for such consideration, which may be paid by such method or methods and in such form or forms, including, without limitation, cash, Shares, other securities, other Awards, or other property, or any combination thereof, as the Committee shall determine, the value of which consideration, as established by the Committee, shall, except in the case of Substitute Awards, not be less than the Fair Market Value of such Shares or other securities as of the date such purchase right is granted. To the extent that any Other Stock-Based Awards granted by the Committee are subject to Code Section 409A as nonqualified deferred compensation, such Other Stock-Based Awards shall be subject to terms and conditions that comply with the requirements of Code Section 409A to avoid adverse tax consequences under Code Section 409A.

Section 10. *Effect of Termination on Certain Awards.*

Except as otherwise provided by the Committee at the time an Option or Stock Appreciation Right is granted or in any amendment thereto, if a Participant ceases to be employed by, or serve as a non-employee director of, the Company or any Affiliate, then:

(a) if termination is for Cause, all Options and Stock Appreciation Rights held by the Participant shall be canceled as of the date of termination;

(b) if termination is voluntary or involuntary without Cause, the Participant may exercise each Option or Stock Appreciation Right held by the Participant within three months after such termination (but not after the expiration date of such Award) to the extent such Award was exercisable pursuant to its terms at the date of termination; provided, however, if the Participant should die within three months after such termination, each Option or Stock Appreciation Right held by the Participant may be exercised by the Participant's estate, or by any person who acquires the right to exercise by reason of the Participant's death, at any time within a period of one year after death (but not after the expiration date of the Award) to the extent such Award was exercisable pursuant to its terms at the date of termination;

(c) if termination is (i) by reason of Retirement (or alternatively, in the case of a non-employee director, at a time when the Participant has served for five full years or more and has attained the age of sixty), or (ii) by reason of a Disability, each Option or Stock Appreciation Right held by the Participant shall, at the date of Retirement or Disability, become exercisable to the extent of the total number of shares subject to the Option or Stock Appreciation Right, irrespective of the extent to which such Award would otherwise have been exercisable pursuant to the terms of the Award at the date of Retirement or Disability, and shall otherwise remain in full force and effect in accordance with its terms;

(d) if termination is by reason of the death of the Participant, each Option or Stock Appreciation Right held by the Participant may be exercised by the Participant's estate, or by any person who acquires the right to exercise such Award by reason of the Participant's death, to the extent of the total number of shares subject to the Award, irrespective of the extent to which such Award would have otherwise been exercisable pursuant to the terms of the Award at the date of death, and such Award shall otherwise remain in full force and effect in accordance with its terms.

Section 11. *General Provisions Applicable To Awards.*

(a) Awards shall be granted for no cash consideration or for such minimal cash consideration as may be required by applicable law.

(b) Awards may, in the discretion of the Committee, be granted either alone or in addition to or in tandem with any other Award. Awards granted in addition to or in tandem with other Awards may be granted either at the same time as or at a different time from the grant of such other Awards or awards.

(c) Subject to the terms of the Plan, payments or transfers to be made by the Company upon the grant, exercise or payment of an Award may be made in such form or forms as the Committee shall determine including, without limitation, cash, Shares, other securities, other Awards, or other property, or any combination thereof, and may be made in a single payment or transfer, in installments, or on a deferred basis, in each case in accordance with rules and procedures established by the Committee. Such rules and procedures may include, without limitation, provisions for the payment or crediting of reasonable interest on installment or deferred payments or the grant or crediting of dividend equivalents in respect of installment or deferred payments. Notwithstanding the foregoing, in no event shall the Company extend any

loan to any Participant in connection with the exercise of an Award; provided, however, that nothing contained herein shall prohibit the Company from maintaining or establishing any broker-assisted cashless exercise program.

(d) Unless the Committee shall otherwise determine, no Award and no right under any Award shall be assignable, alienable, saleable or transferable by a Participant otherwise than by will or by the laws of descent and distribution. In no event may an Award be transferred by a Participant for value. Each Award, and each right under any Award, shall be exercisable during the Participant's lifetime only by the Participant or, if permissible under applicable law, by the Participant's guardian or legal representative. The provisions of this paragraph shall not apply to any Award which has been fully exercised, earned or paid, as the case may be, and shall not preclude forfeiture of an Award in accordance with the terms thereof.

(e) The Plan and any Award granted hereunder shall be governed by, and construed and enforced in accordance with, the laws of the State of New Jersey, without regard to any contrary conflict of laws. Any legal proceeding arising out of or relating to the Plan and any Award granted hereunder will be brought exclusively in any state or federal court of competent jurisdiction located within the State of New Jersey and will not be commenced or maintained in any other court.

(f) All certificates for Shares or other securities delivered under the Plan pursuant to any Award or the exercise thereof shall be subject to such stop transfer orders and other restrictions as the Committee may deem advisable under the Plan or the rules, regulations, and other requirements of the Securities and Exchange Commission, any stock exchange upon which such Shares or other securities are then listed, and any applicable Federal or state securities laws, and the Committee may cause a legend or legends to be put on any such certificates to make appropriate reference to such restrictions.

(g) Every Award (other than an Option or Stock Appreciation Right) to a member of the Executive Group shall, if the Committee intends that such Award should constitute "qualified performance-based compensation" for purposes of Section 162(m) of the Code, include a pre-established formula, such that payment, retention or vesting of the Award is subject to the achievement during a performance period or periods, as determined by the Committee, of a level or levels, as determined by the Committee, of one or more of the following performance measures: (i) Return on Net Assets, (ii) Revenue Growth, (iii) Return on Common Equity, (iv) Total Shareholder Return, (v) Earnings Per Share, (vi) Net Revenue Per Employee (vii) Market Share, (viii) Return on Invested Capital, or (ix) Net Income. For any Award subject to any such pre-established formula, no more than 150,000 Shares can be paid in satisfaction of such Award to any Participant, subject to adjustment as provided in Section 5(e). Notwithstanding any provision of this Plan to the contrary, the Committee shall not be authorized to increase the amount payable under any Award to which this Section 11(f) applies upon attainment of such pre-established formula.

(h) Notwithstanding any other provision of the Plan to the contrary, upon a Change in Control:

(i) All outstanding Awards granted prior to January 1, 2015 shall become fully vested and exercisable, all performance targets applicable to such Awards, if any, shall be deemed to have been met at target performance, and any restrictions applicable to such Awards shall automatically lapse.

(ii) All outstanding Awards granted on or after January 1, 2015 shall become fully vested and exercisable, all performance targets applicable to such Awards, if any, shall be deemed to have been met at target performance, and any restrictions applicable to such Awards shall automatically lapse, except to the extent such Awards are (1) assumed by the successor corporation (or an affiliate thereof) or continued, or (2) replaced with an equity award that preserves the existing value of the Award at the time of the Change in Control on terms that are no less favorable to the Participant than those applicable to the Award (in each case in clauses (1) and (2), a “Continuing Award”), in which event such Continuing Awards shall remain outstanding and be governed by their respective terms, subject to Section 11(g)(iii) below.

(iii) In the event a Participant holding a Continuing Award is involuntarily terminated without Cause or such Participant terminates employment with the Company for Good Reason (as defined below) within the two-year period commencing on the Change in Control, then, as of the date of such termination, the Continuing Award shall become fully vested and exercisable, all performance targets applicable to the Award, if any, shall be deemed to have been met at target performance, and any other restrictions applicable to any Award shall automatically lapse.

(iv) For purposes of this Section 11(g), the following capitalized terms shall have the meanings provided below.

(1) “Good Reason” means the occurrence (without the Participant’s express written consent) of (1) a reduction in the Participant’s base salary as in effect immediately prior to the Change in Control or as the same may be increased thereafter from time to time, or a reduction in the Participant’s annual performance incentive award opportunity or equity-based compensation that is not in good faith and consistent with past practices, or (2) any change in the location of the Participant’s principal place of employment as it existed immediately prior to the Change in Control to a location that is more than twenty-five (25) miles from such principal place of employment. No event described above shall constitute Good Reason unless the Participant gives written notice to the Company of the existence of the event within 90 days after the initial occurrence of such event and the Company has not remedied such within 30 days of receipt of such notice. Notwithstanding the foregoing, if a Participant is a party to a Change in Control Agreement (as defined below), “Good Reason” with respect to such Participant for purposes of this Plan shall have the meaning given to such term in the Change in Control Agreement.

(2) “Change in Control Agreement” means an employment agreement or other agreement or plan between the Company and a Participant and approved by the Board or the Committee that provides for the continued employment of the Participant

following a Change in Control and the payment of benefits upon termination of employment in connection with or following a Change in Control.

(v) Notwithstanding anything in this Section 11(g) to the contrary, any Awards that are otherwise subject to Code Section 409A shall not be distributed or payable upon a Change in Control unless the Change in Control otherwise meets the requirements for a change in the ownership or effective control of the Company or in the ownership of a substantial portion of the assets of the Company within the meaning of Code Section 409A and the regulations and other guidance promulgated thereunder; instead such Awards shall be distributed or payable in accordance with the Award's applicable terms.

(i) Non-employee Directors of the Company shall be entitled to defer the receipt of any Shares that may become issuable to them under any Award in accordance with the terms of the 1996 Directors' Deferral Plan, as the same may be hereinafter amended, or any other plan that may be established by the Company that provides for the deferred receipt of such Shares.

(j) Employees of the Company shall be entitled to defer the receipt of any Shares that may become issuable to them under any Award in accordance with the terms of the Deferred Compensation and Retirement Benefit Restoration Plan, as the same may be hereinafter amended, or any other plan that may be established by the Company that provides for the deferred receipt of such Shares.

(k) Notwithstanding any provision of the Plan to the contrary (but subject to Sections (7)(d) and (e), 8(c), 10, and 11(h) of the Plan), no Award granted under the Plan shall become vested over a period of less than one year following the date the applicable Award is granted; provided, however, that, notwithstanding the foregoing, Awards that result in the issuance of up to 5% of the Shares reserved for issuance under Section 5(a)(ii) may be granted to any one or more Participants without respect to such minimum vesting provisions. Nothing in this Section 11(k) shall preclude the Committee from taking action, in its sole discretion, to accelerate the vesting of any Award in connection with or following a Participant's death, Disability, retirement, termination of service other than for Cause, or the consummation of a Change in Control.

(l) Notwithstanding any provision of the Plan to the contrary, any dividend or dividend equivalent otherwise payable in respect of any Award of Restricted Stock, Restricted Stock Unit, Performance Unit, or Other Stock-Based Award that remains subject to vesting conditions at the time of payment or accrual of such dividend or dividend equivalent shall be retained by the Company and remain subject to the same vesting conditions as the underlying Award to which the dividend relates, and the right to any such accumulated dividends shall be forfeited upon the forfeiture of the Award to which such dividends relate.

Section 12. *Amendments and Termination.*

(a) Except to the extent prohibited by applicable law and unless otherwise expressly provided in an Award Agreement or in the Plan, the Board may amend, alter, suspend, discontinue, or terminate the Plan or any portion thereof at any time; *provided, however*, that no

such amendment, alteration, suspension, discontinuation or termination shall be made without (i) shareholder approval (A) if the effect thereof is to increase the number of Shares available for issuance under the Plan or to expand the class of persons eligible to participate in the Plan or (B) if such approval is necessary to comply with any tax or regulatory requirement for which or with which the Board deems it necessary or desirable to qualify or comply or (ii) the consent of the affected Participant, if such action would adversely affect the rights of such Participant under any outstanding Award. Notwithstanding anything to the contrary herein, the Committee may amend the Plan in such manner as may be necessary to enable the Plan to achieve its stated purposes in any jurisdiction outside the United States in a tax-efficient manner and in compliance with local rules and regulations. In all events, no termination or amendment shall be made in a manner that is inconsistent with the requirements under Code Section 409A to allow for tax deferral.

(b) The Committee may waive any conditions or rights under, amend any terms of, or amend, alter, suspend, discontinue or terminate, any Award theretofore granted, prospectively or retroactively, without the consent of any relevant Participant or holder or beneficiary of an Award; *provided, however*, that no such action shall impair the rights of any affected Participant or holder or beneficiary under any Award theretofore granted under the Plan; and *provided further* that, except as provided in Section 5(e), no such action shall reduce the exercise price, grant price or purchase price of any Award established at the time of grant thereof; and *provided further*, that the Committee's authority under this Section 12(b) is limited in the case of Awards subject to Section 11(f), as set forth in Section 11(f); and *provided further*, that the Committee may not act under this Section 12(b) in a way that is inconsistent with the requirements under Code Section 409A to allow for tax deferral. In no event shall an outstanding Option or Stock Appreciation Right for which the exercise price is less than the Fair Market Value of a Share be cancelled in exchange for cash or, except as provided in Section 5(e), replaced with a new Option or Stock Appreciation Right with a lower exercise price, without approval of the Company's shareholders.

(c) Except as noted in Section 11(f), the Committee shall be authorized to make adjustments in the terms and conditions of, and the criteria included in, Awards in recognition of events (including, without limitation, the events described in Section 5(e)) affecting the Company, or the financial statements of the Company, or of changes in applicable laws, regulations or accounting principles, whenever the Committee determines that such adjustments are appropriate in order to prevent dilution or enlargement of the benefits or potential benefits intended to be made available under the Plan.

(d) Any provision of the Plan or any Award Agreement to the contrary notwithstanding, in connection with a Business Combination, the Committee may cause any Award granted hereunder to be canceled in consideration of a cash payment or alternative Award made to the holder of such canceled Award equal in value to the Fair Market Value of such canceled Award.

(e) The Committee may correct any defect, supply any omission, or reconcile any inconsistency in the Plan or any Award in the manner and to the extent it shall deem desirable to

carry the Plan into effect or to otherwise comply with the requirements of Code Section 409A so as to avoid adverse tax consequences under Code Section 409A.

Section 13. *Confidentiality, Non-Solicitation and Non-Compete.*

By accepting an Award under the Plan, a Participant agrees, understands, and acknowledges that the Participant shall be bound by, and shall abide by the Restrictive Covenants, if any, set forth in the Participant's Award Agreement. Except as otherwise provided by the Participant's Award Agreement, in the event that a Participant breaches any applicable Restrictive Covenant, the Company may claw back or recoup any vested and unvested Awards granted under the Plan to such Participant (including any amounts or benefits arising from such Award) in accordance with Section 14.

Section 14. *Clawback Policy; Recoupment*

Notwithstanding any other provision of the Plan to the contrary, any Award granted under the Plan (including any amounts or benefits arising from such Award) shall be subject to potential cancellation, recoupment, rescission, payback or other action in accordance with the terms of the Company's Policy Regarding the Recovery of Compensation, as it may be amended from time to time (the "Policy"). By accepting an Award under the Plan, a Participant agrees and consents to the Company's application, implementation and enforcement of (i) the Policy or any similar policy established by the Company that may apply to the Participant and (ii) any provision of applicable law relating to cancellation, rescission, payback or recoupment of compensation, and expressly agrees that the Company may take such actions as are necessary to effectuate the Policy, any similar policy (as applicable to the Participant) or applicable law without further consent or action being required by the Participant. The Company's rights under the Policy shall be in addition to, and not in substitution of, the Company's rights under the Plan or otherwise and, in all events, the terms of the Policy shall prevail to the extent that the terms of the Policy conflict with the Plan or any other plan, program, agreement or arrangement.

Section 15. *Miscellaneous.*

(a) No employee, Participant or other person shall have any claim to be granted any Award under the Plan, and there is no obligation for uniformity of treatment of employees, Participants, or holders or beneficiaries of Awards under the Plan. The terms and conditions of Awards need not be the same with respect to each recipient.

(b) The Committee may delegate to one or more officers or managers of the Company, or a committee of such officers or managers, the authority, subject to such terms and limitations as the Committee shall determine, to grant Awards to, or to cancel, modify, waive rights with respect to, alter, discontinue, suspend or terminate Awards held by, employees who are not officers or directors of the Company for purposes of Section 16 of the Securities Exchange Act of 1934, as amended. The Committee may delegate to one or more officers or managers of the Company, or a committee of such officers or managers, the authority, subject to such terms and limitations as the Committee shall determine, authority to carry out a specified part or parts of its administrative responsibilities or ministerial functions in connection with the

Plan, including but not limited to determining whether the conditions to forfeit an Award have been met. Any delegation of authority may be removed by the Committee at any time with or without cause. Notwithstanding the foregoing, (1) any delegation to management with respect to the Plan shall conform with the requirements of the corporate law of New Jersey and with the requirements, if any, of the New York Stock Exchange, in either case as in effect from time to time, (2) interpretations or determinations with respect to an executive officer's rights under an Award or the Plan shall be made by the Committee, and (3) if any action or direction of any person to whom authority hereunder has been delegated conflicts with an action or direction of the Committee, then the authority of the Committee shall supersede that of the delegate with respect to such action or direction. Any action taken by a person under an authorized delegation of authority in compliance with this Section 15.2(b) shall have the same force and effect as if taken directly by the Committee.

(c) The Company shall be authorized to withhold from any Award granted or any payment due or transfer made under any Award or under the Plan or from any compensation or other amount owing to a Participant the amount (in cash, Shares, other securities, other Awards, or other property) of withholding taxes due in respect of an Award, its exercise, or any payment or transfer under such Award or under the Plan and to take such other action (including, without limitation, providing for elective payment of such amounts in cash, Shares, other securities, other Awards or other property by the Participant) as may be necessary in the opinion of the Company to satisfy all obligations for the payment of such taxes.

(d) Nothing contained in the Plan shall prevent the Company from adopting or continuing in effect other or additional compensation arrangements, and such arrangements may be either generally applicable or applicable only in specific cases.

(e) The grant of an Award shall not be construed as giving a Participant the right to be retained in the employ of the Company or any Affiliate. Further, the Company or the applicable Affiliate may at any time dismiss a Participant from employment, free from any liability, or any claim under the Plan, unless otherwise expressly provided in the Plan or in any Award Agreement or in any other agreement binding the parties. The receipt of any Award under the Plan is not intended to confer any rights on the receiving Participant except as set forth in such Award.

(f) If any provision of the Plan or any Award is or becomes or is deemed to be invalid, illegal, or unenforceable in any jurisdiction, or as to any person or Award, or would disqualify the Plan or any Award under any law deemed applicable by the Committee, such provision shall be construed or deemed amended to conform to applicable laws, or if it cannot be so construed or deemed amended without, in the determination of the Committee, materially altering the intent of the Plan or the Award, such provision shall be stricken as to such jurisdiction, person or Award, and the remainder of the Plan and any such Award shall remain in full force and effect.

(g) Neither the Plan nor any Award shall create or be construed to create a trust or separate fund of any kind or a fiduciary relationship between the Company and a Participant or any other person. To the extent that any person acquires a right to receive payments from the

Company pursuant to an Award, such right shall be no greater than the right of any unsecured general creditor of the Company.

(h) No fractional Shares shall be issued or delivered pursuant to the Plan or any Award, and the Committee shall determine whether cash, other securities or other property shall be paid or transferred in lieu of any fractional Shares, or whether such fractional Shares or any rights thereto shall be canceled, terminated or otherwise eliminated.

Section 16. *Effective Date of Plan.*

The Plan shall be effective as of the date of its approval by the stockholders of the Company.

Section 17. *Term of the Plan.*

No Award shall be granted under the Plan after January 29, 2023. However, unless otherwise expressly provided in the Plan or in an applicable Award Agreement, any Award theretofore granted may extend beyond such date, and the authority of the Committee to amend, alter, adjust, suspend, discontinue, or terminate any such Award, or to waive any conditions or rights under any such Award, and the authority of the Board to amend the Plan, shall extend beyond such date.

**Terms of Awards Under
2004 Employee and Director Equity-Based Compensation Plan (the "Plan")**

Capitalized terms used herein that are not defined shall have the same meaning as set forth in the Plan.

1. Stock Appreciation Rights (SARs)

- (a) Vesting Period: Ratably over three (3) or four (4) years, as determined by the Committee, except as provided in the Plan.
- (b) Term: Ten (10) years from grant date.
- (c) Exercise Price: Fair market value of BD common stock on grant date.
- (d) Settlement: Upon exercise, the holder receives shares of BD common stock equal in value to the difference between the BD common stock price at the time of exercise and the exercise price.
- (e) Termination of Employment: Upon death, Disability or Retirement, all unvested SARs become fully exercisable for their remaining term. Upon termination due to voluntary termination or involuntary termination without Cause, SARs may be exercised for three months following termination, but only to the extent vested at the time of termination. Upon involuntary termination with Cause, unexercised SARs are forfeited.

2. Performance Units

- (a) Vesting Period: Third anniversary of grant date.
 - (b) Settlement: Performance Units are settled in shares of BD common stock. Performance Unit awards are given a share target. A formula determines the actual number of shares that will be issued upon vesting, based on BD's performance against pre-established performance targets over the performance period.
 - (c) Performance Period: Three consecutive fiscal years, beginning with the fiscal year in which the award is granted.
 - (d) Performance Measures: Consist of BD's (1) average annual return on invested capital and (2) average annual revenue growth, each weighted 50%. Payouts are adjusted, subject to certain limits, based on BD's relative total shareholder return compared to select peer companies during the performance period. Payouts may range from zero to 200% of award target.
 - (e) Dividend Equivalent Rights: Dividends do not accrue on Performance Units.
 - (f) Termination of Employment: Upon death or 409A Disability, grantee vests in a pro rata amount of the award's share target. Upon Disability (other than a 409A Disability), Retirement or involuntary termination without Cause, grantee vests in a pro rata amount of the shares that would have been distributable under the award based on the payout formula had the grantee remained employed with BD through the vesting period, with shares being distributed after the end of the applicable vesting period. Upon voluntary termination or termination with Cause, unvested awards are forfeited.
-

3. Time-Vested Units (“TVU”)

- (a) Vesting Period: Awards vest ratably over three (3) years, with one-third becoming vested on each of the first, second, and third anniversary of the grant date.
- (b) Settlement: Each TVU entitles the grantee to one share of BD common stock upon vesting.
- (c) Dividend Equivalent Rights: Dividends do not accrue on TVUs.
- (d) Termination of Employment: Upon Retirement, death or Disability, TVUs vest in full. Upon voluntary or involuntary termination, unvested TVUs are forfeited.

4. Performance Time-Vested Units (“P-TVU”).

- (a) Vesting Period: Third anniversary of grant date.
- (b) Settlement: Each P-TVU entitles the grantee to one share of BD common stock upon vesting, subject to satisfaction of performance target over the performance period.
- (c) Performance Period: Three consecutive fiscal years, beginning with the fiscal year in which the award is granted.
- (d) Performance Measure: Average annual growth in adjusted earnings per share (diluted earnings per share less acquisition-related purchase accounting adjustments and finance, integration, restructuring and transaction costs).
- (e) Dividend Equivalent Rights: Dividends do not accrue on P-TVUs.
- (d) Termination of Employment: Upon Retirement, death or Disability, P-TVUs vest in full. Upon voluntary or involuntary termination, unvested P-TVUs are forfeited.

5. Change in Control Provisions

Awards automatically vest upon a Change in Control unless the awards are either continued or replaced with similar awards. In those instances where awards are continued or replaced, the awards will then automatically vest if the holder is terminated without Cause or the holder terminates employment for Good Reason within two years of the Change in Control.

CONSENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

We consent to the incorporation by reference in the following Registration Statements:

- (1) Registration Statements on Form S-8 Nos. 33-23055, 33-33791, 33-64115, 333-11885, 333-16091, 333-118235, 333-147594, 333-161129, 333-161215, 333-170821, 333-199830, 333-214780, 333-218179 and 333-229619 of Becton, Dickinson and Company;
- (2) Registration Statement on Form S-3 No. 333-224464 of Becton, Dickinson and Company; and
- (3) Registration Statements on Form S-4 Nos. 333-203013 and 333-223536 of Becton, Dickinson and Company;

of our reports dated November 25, 2020, with respect to the consolidated financial statements of Becton, Dickinson and Company and the effectiveness of internal control over financial reporting of Becton, Dickinson and Company included in this Annual Report (Form 10-K) of Becton, Dickinson and Company for the year ended September 30, 2020.

/s/ ERNST & YOUNG LLP

New York, New York
November 25, 2020

CERTIFICATION

I, Thomas E. Polen, certify that:

1. I have reviewed this Annual Report on Form 10-K of Becton, Dickinson and Company;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting, and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
